RIP 102

ORIGINAL

27 JUN 1913

"... We live in days of such tremendous rapidity, what with the telephone, wireless, cables, fast traffic, etc., that our minds receive many thousands of impressions daily. Unless, therefore, contemporary facts are written down fairly quickly they will be wiped off the tablets of our memory and the rush of fast-moving world events will crowd them out. Posterity will then be robbed of the priceless benefit of records such as we have had handed down to us by the sailors of Nelson's day."

Rear Admiral Sir Douglas Brownrigg in  
Indiscretions of the Naval Censor.

22 JUN 1943

INTRODUCTIONPreceding Volumes

Volume I of this series discussed the activities of U.S. Naval Communication Intelligence during the period which began with the Nomura-Hull pre-war conversations, and which continued through the attack on Pearl Harbor, the Battle of the Coral Sea, and the tremendous American naval victory at Midway. Volume II completed the eventful story of the above period by giving the background of the Japanese attack on the Aleutians, as well as discussing in detail enemy messages which had been intercepted during the Battle of Midway. In addition, analysis was made of the communication security measures adopted by the Japanese after Midway. These precautions were occasioned by unfortunate publicity leaks concerning communication intelligence which occurred in newspapers and on the radio shortly after the battle. Measures taken by Army and Navy authorities to stop this type of publicity were also reported in Volume II.

General Plan

The present volume begins a series which will describe the background of operations in the Solomon Islands. No attempt will be made to give a complete account of the six major battles and several minor air and sea engagements which were part of this long campaign. This task must be left for the official historian who will some day describe these important battles in full detail. But it is intended to give in this and succeeding volumes a detailed day by day picture of the information made available to operational authorities by U.S. Navy Communication Intelligence from July, 1942 to the time when the focal point of the Pacific War shifts elsewhere. It is felt that through these volumes one aspect of the part played by the U.S. Navy in one of the most important wars in the history of the nation may be demonstrated.

It is obvious that many elements contributed to the success of the U.S. Navy in the Solomon Islands--aggressive task forces, excellent intelligence,

ample supplies, good communications, splendid medical care, and numerous other contributory factors. There were many times when some of these aids were missing, and often there was grave danger of an American disaster. But staunch perseverance despite terrible difficulties, and brilliant offensives by our outnumbered and seemingly overpowered fighting ships and planes eventually won the day. It is because of these victories which were won from the enemy in the face of tremendous odds that the story of the Solomon Islands will not easily fade from the memory of the American people. It is fitting then that a systematic account be written (but only for the few who need to know) of the communication intelligence which helped to make possible these victories.

The reader may be interested in knowing the general plan of this and succeeding volumes. Due to the great mass of material available concerning the Solomon Islands campaign, each volume will contain the communication intelligence background of one of the periods which culminated in a major battle as follows:

Volume III1. Battle of Savo Island

Night surface actions  
of August 8-9, 1942.

Volume IV2. Battle of the Eastern Solomons

Air vs. surface actions  
of August 23-25, 1942.

Volume V3. Battle of Cape Esperance

Night surface actions  
of October 11-12, 1942.

Volume VI4. Battle of Santa Cruz Islands

Air vs. surface actions  
of October 26, 1942.

Volume VII5. Battle of Guadalcanal

Air and surface actions,  
day and night, November  
13-15, 1942.

Volume VIII6. Battle of Lunga Point

Night surface action,  
November 30 - December 1,  
1942.

It is expected that by the time these volumes are completed other battles of great historic importance will have been fought. These will be discussed in turn since it is intended to furnish a complete, well documented history of the activities of our Communication Intelligence organization to the Commander in Chief, United States Fleet.

#### Scope of Each Volume

Each volume will contain a summary, a chapter and an appendix, all three of which will be devoted to the same major battle.

1. The summary is written expressly for the busy reader who desires to know the general picture in the Solomon Islands as furnished by Communication Intelligence just before each of the major battles occurred. It is comparatively short and contains all the essential information to be found in the succeeding chapter and appendix, but, with a few important exceptions, no attempt is made to furnish references for the statements made.

It is expected that by the time these volumes are completed other battles of great historic importance will have been fought. These will be discussed in turn since it is intended to furnish a complete, well documented history of the activities of our Communication Intelligence organization to the Commander in Chief, United States Fleet.

#### Scope of Each Volume

Each volume will contain a summary, a chapter and an appendix, all three of which will be devoted to the same major battle.

1. The summary is written expressly for the busy reader who desires to know the general picture in the Solomon Islands as furnished by Communication Intelligence just before each of the major battles occurred. It is comparatively short and contains all the essential information to be found in the succeeding chapter and appendix, but, with a few important exceptions, no attempt is made to furnish references for the statements made.

2. The chapter gives in chronological order the communication intelligence background of the period just before the major battle, so that the reader will be aware from day to day of exactly what was known from this source by U.S. operational authorities. Each statement is supported by a reference to the actual messages in the appendix which were either intercepted or sent by one of the Communication Intelligence units.

3. The appendix contains a very detailed account of each day's findings, and also furnishes the complete text of every message referred to in the chapter. Though these volumes will be read only by those in the U.S. Navy who need to know, it is desirable that they be written as if they were to be used as source books by professional historians. Therefore, every intercepted enemy message of any importance will be found in the appendices. Some may be rather technical for the general reader, but they have been included to make the record as complete as possible for the expert.

RIP 102

27 JUN 1943

The reader will also be able to know when a particular dispatch was sent out by American naval units, for the Greenwich Civil time of origin is appended to the text of each message. This is the best check available at the moment on the approximate time at which operational authorities were made aware of certain communication intelligence. Future research into the communication files of our field units at Melbourne and Pearl Harbor should provide more accurate data.

#### Scope of Volume III

Volume III will begin with the events which led up to the taking of Guadalcanal and the subsequent disaster at the Battle of Savo Island on August 8-9, 1942. Though the scene of principal interest is the Solomon Islands, intelligence concerning convoys coming from the Empire and activities in the Mandates is also reported, since these movements had a great effect on Japanese plans for the South Pacific. The role of U.S. Naval Communication Intelligence in the period preceding the Battle of Savo Island will now be told.

RTP 102

The role of U.S. Naval Communication Intelligence in the period preceding the Battle of Savo Island will now be told.

SUMMARY<sup>1</sup>Background of the Landing on Guadalcanal Island  
and the Battle of Savo IslandPart A - July, 1942

As early as July 1, 1942 it was noticed by U.S. Naval Communication Intelligence that the hitherto obscure Solomon Islands had become the center of much Japanese activity. The full significance of the enemy's movements was not lost on Allied naval and military high commands for they well appreciated the strategic importance of these islands. If the Japanese were to gain control of them, it was almost inevitable that the supply lines from America to Australia would be badly disrupted by enemy land based planes. In addition, it was believed that the Solomons would be used as stepping stones for an invasion of the Australian mainland.

---

1 - For a day by day resume of the highlights of Communication Intelligence supplied during this period, see Chapter I. Appendix I contains every intercepted enemy message of any importance.

22 JUN 1943

It is interesting to note in retrospect that the communication intelligence, which first informed operational authorities of the presence of the enemy in these islands, was derived from traffic analysis rather than cryptanalysis. This situation continued for several weeks during the early stages of the Solomon Islands' campaign, but strangely enough, despite the anxieties created by the lack of cryptanalytical success, a valuable lesson was learned.

Ten years before war broke out in the Pacific, American communication intelligence experts had foreseen that cryptanalysis would be of little use during periods which immediately followed a major change in an enemy's cryptographic systems. Consequently, a method had been devised which derived intelligence from various external characteristics of the enemy's communication system -- volume of traffic, headings of dispatches, methods of routing, types of priority, use of call signs, habits of transmitters, etc. This method, called traffic analysis, was not expected to be as accurate in its forecasts of enemy plans as

cryptanalysis would be, but the experts hoped that it would have great potential value in time of war.

These hopes were fully realized in the months of July and August, 1942. The Japanese changed their main cryptographic system on May 28, 1942, and none of their messages could be read until some time later. However, traffic analysis was able to reveal the presence of the enemy in the Solomons, which occasioned the landing of the Marines there. Evidence that enemy cruisers were at sea in the vicinity of the Solomons was also discovered a few days before the Battle of Savo Island left four Allied cruisers defeated and destroyed. It is safe to say then that traffic analysis proved its worth during the Solomon Islands Campaign, for without it very little information concerning the enemy could have been furnished operational authorities.

The reader who finds time to peruse Chapter I and Appendix I of this volume will discover there hundreds of items, which had to be pieced together by traffic analysts to ascertain the enemy's plans.

Dozens of clues had to be examined and, then, they were brought in to complete the picture, which developed gradually with the passage of time.

The narrative of this period is necessarily less interesting than the story of the days before the Battle of Midway, because at Midway the whole scheme of the enemy emerged -- sometimes bit by bit, but at other times great parts of the Japanese battle plan were disclosed by a single message. However, in this account, which leads up to the Battle of Savo Island, the story deals with the day by day drudgery of painstaking traffic analysis. There were no brilliant cryptanalytical solutions to attract the interest of the general reader, though the work involved was no less difficult; there were no statements concerning the enemy's intention which could be made as confidently as was done at Midway; in fine, the period was one of much confusion and obscurity, lightened somewhat by hypotheses of the traffic analysts, which could be proved or disproved only by the passage of time. It is obvious then that

28 JAN 1943

this lack of complete clarity must be reflected somewhat in the text of Chapter I and Appendix I. A theory is never as satisfactory as certainty, and therefore, the results of cryptanalysis are always preferable to those of traffic analysis.

To return to intelligence concerning the Solomons made available to operational authorities in July, 1942, it has already been pointed out that Japanese activity there had become quite noticeable in radio traffic. The Eighth Base Force, the Fifth Air Attack Corps, the Sasebo Fifth Landing Force were all noticed at Rabaul, where fifteen enemy warships and a dozen transports had also been observed. It was known that Cruiser Divisions 6 and 18, as well as some Army and Air Group commanders, were operating in this general area.

It was evident from the first day of July, 1942 that logistic preparations were in progress for a Japanese campaign in the South Pacific. Much airplane radio traffic in the Marshall Islands indicated future operations, and the Sixth Base Force

at Jaluit and the Sixth Defense Force were engaged in preparations. A special report from Chinese Intelligence stated that Japanese strength had been reduced at Rabaul, Lae, and Koepang, but U.S. Naval Communication Intelligence insisted that enemy activity was increasing rather than decreasing in this area. In fact, it was evident that important operations were about to begin, because there were so many associations of important Japanese units in southern Pacific radio traffic.

Much convoy activity in the New Britain area did nothing to erase this suspicion, and the presence of several enemy submarines in the Marshalls indicated that preliminary scouting was probably going on. One of the most conclusive proofs of Japanese intentions to expand their sphere of influence in the South Pacific came from the fact that heavy air reinforcements were being shipped to this area. This was a significant clue for no important enemy movement had been begun during the war without heavy air protection. A further indication came from the fact that the

22 July 1944

Japanese Army units at Rabaul were in constant communication with other Army units at Davao and Palao, which indicated that they were expecting reinforcements from the Philippines.

Documents captured from the enemy in New Guinea confirmed the belief that the Japanese were planning new operations in the New Guinea, Bismarck Archipelago and the Solomon Islands areas. Orders had been issued to the Eleventh and Thirteenth Billeting Detachments to go to Guadalcanal, and the Fourteenth Billeting Force and the Fifth Special Landing Force were directed to land on the east coast of New Guinea. Furthermore, the presence of the Commander in Chief of the Fourth Fleet, who had come down from Truk to Rabaul, was a further reminder that the enemy was planning a new attack. The cruiser strength of the enemy was reinforced, for the TATSUTA rejoined Cruiser Division 18, and the KINUGASA and the FURUTAKA joined Cruiser Division 6. Destroyer Squadron 6 and Submarine Squadron 3 also were actively operating in this district.

22 JUN 1943

Though enemy air reinforcements were arriving in the Rabaul area to replace war worn air units, there was no sign of any aircraft carriers. Most of the air replacements were being made by ferry plane flights from the Marshalls to Truk, Rabaul and New Britain. A very important report on July 13 stated that the Japanese were building a landing field on Guadalcanal Island in the Solomons, and had made another landing on Rekata Bay, Santa Isabel Island.

Although Cruiser Division 6 and 18 were in the Solomons they were operating independently, which meant that both had to be watched carefully for either one could be the nucleus of an enemy striking force. The need for caution in this respect was emphasized by the fact that heavy radio traffic from the Tokyo Personnel Bureau and major commands to fleet commands and individual vessels indicated that fleet units were being regrouped into several task forces. It was also significant that many fleet units, which had recently operated in the north, were returning

to the Empire for a brief reconditioning before engaging in new operations. Furthermore, it was noted that the enemy air base at Guadalcanal was now ready for action, that additional air units had been sent to Gasmata in New Britain, that an aircraft assembly plant had been established at Kavieng, and that cruisers and destroyers were frequently present in the Tulagi area.

The presence of so many Japanese Army engineering and supply units as well as the arrival of many new warships and supply ships all throughout July supplied evidence that Japanese high naval commanders were very interested in the New Britain-Solomons area. The movement of many submarines in the south Pacific suggested their use in scouting expeditions and in the preliminary assault stages of a new operation. An estimate of the total submarine strength of the Japanese Navy declared that there were between fifty and sixty submarines, several of which were operating in the southeastern Australian waters.

22 JUN 1943

A shifting of enemy air strength from Rabaul to the vicinity of Lae, New Guinea, in addition to a heavy concentration of Japanese submarines along the Truk-Rabaul supply lines were other indications of danger. Cruiser Division 18 was also operating in the vicinity of Lae and Salamua, and Cruiser Division 6 was near Kavieng. It was estimated that in future actions the Commander in Chief of the Eighth Fleet would command the Solomons-New Guinea-New Britain area, while the Commander in Chief of the Fourth Fleet would maintain jurisdiction over the Truk area.

On July 24 a long expected change in the Japanese Navy and shore radio and high command call signs occurred, which was in accordance with the enemy's policy of increased communication security. It was apparent that enemy radio intelligence units were constantly on the alert, since frequently direction finder bearings on American planes operating from Port Moresby were intercepted.

A resume made at this time of forces associated with the Fourth and Eighth Fleets estimated

22 JUN 1943

that eight heavy and two light cruisers had been probably assigned to the Rabaul area. These included the already mentioned Cruiser Divisions 6 and 18, plus the CHOKAI, SUZUYA and possibly the <sup>A</sup>MIYA. It was noted that no additional carrier support had been assigned this large concentration of heavy warships, though now that the bases at Guadalcanal and Tulagi had been made ready, shore based enemy planes were operating from there in search of Allied ships.

The activities of Japanese radio intelligence units were watched very closely for any indication of their success in deciphering our cipher systems, but there was none, except that they were able to read some U.S. aircraft radio transmissions. As the end of July approached, many enemy messages were of an operational type. It was believed that much of the traffic was devoted to efforts of the Japanese naval radio intelligence units to locate U.S. forces prior to launching an attack.

The Commander in Chief of the Eighth Fleet, who had arrived at Truk aboard the CHOKAI, had

22 JUN 1943

relieved the Commander in Chief of the Fourth Fleet of command in the New Britain-Solomons area on July 25, and Destroyer Division 16, another unidentified Destroyer Division, as well as Cruiser Division 18 were assigned to his jurisdiction. A joint bulletin issued by the Chiefs of Staff of the Fourth and Eighth Fleets indicated that a decision concerning future operations had been made. The Commander in Chief of the Fourth Fleet had changed flagships, for he no longer used the KASHIMA, which was enroute to Truk. Cruiser Division 6 appeared to be preparing for future actions in the New Guineas by keeping in close communication with the Japanese Bureau of Aeronautics.

Many Marus were observed in the Rabaul area, and this information was passed on to U.S. naval operational authorities, for knowledge of this type was of great advantage to our Pacific submarine commanders. Many attacks on Japanese ships in the far Pacific were made possible by this information. Moreover, a plan of the enemy to attack in the vicinity of Buna on July 29 was disclosed by decipherment.

22 JUL 1943

Carriers, which were of much concern to Allied operational authorities, were discovered on July 28 to be practicing in southern Empire waters, where a major reorganization of Japanese carrier divisions was in process because of the great losses suffered at Midway.

Jurisdiction over South Pacific waters had been divided between the commanders of the Fourth and Eighth Fleets, and on July 29 the Commander in Chief of the Eighth Fleet arrived at Rabaul to take over his command, where he was to operate under a cover radio call sign. The Commander in Chief of the Combined Fleet was very anxious concerning the success of his subordinates in this area, and for that reason kept radio traffic in the South Pacific at a very high level in his efforts to keep in close communication with them at all times. The Commander of Cruiser Division 18 was also disclosed to be the Commander of the RZJ (Buna) Occupation Force.

Every day brought new Marus and new transport units into the Rabaul area, and though the presence

of a battleship in the New Guinea area was suspected, there was no further confirmation of this in enemy radio traffic. By the end of July enemy air strength had been tremendously increased in the territory around Rabaul, and new air deliveries were enroute constantly from the Empire to southern waters. The Commander of the Fifth Air Attack Force, who was in charge of the Tulagi-Guadalcanal area, received many of these additional planes.

Not only were plane, cruiser and supply units in the South Pacific being strengthened, but additional destroyers were also being sent to this region. This was also true of the enemy submarine force, and so every indication was present that a new assault would be made by the enemy at an opportune moment.

22 JUN 1942

Part B - August 1-9, 1942

New air units were discovered at many strategic locations in the Solomons area as well as in New Britain and New Guinea, and heavy radio traffic between Yokosuka and enemy aircraft factories and assembly plants in the western Mandates proved that further plane reinforcements would be shipped into the Rabaul area. It was indicated that the probable route of the planes flying down into this region from the Empire would be Chichijima, Saipan, Truk and Rabaul.

Enemy airplanes and submarines maintained close liaison near the New Guinea area, where because of the move of the Commander of Pacific Submarine Force towards the Malaya area, the Commander of Submarine Squadron 3 was raised to Force Commander status. Sudden activity in the Bungo Channel on August 3 suggested that the aircraft carriers which had been operating in the Kyushu area were now enroute to the Empire. The strengthening of their destroyer guard clearly indicated that new duties would be assigned to these carriers.

22 JUL 1943

An estimate of the location of Japanese submarines on August 3 indicated that the Commander of the Submarine Force was enroute from Yokosuka to Jaluit; two divisions of Submarine Squadron 1 were in the Empire, and one division was in the 8th Fleet area; one unit of Submarine Squadron 2 was near Kiska, four in the Empire, and one near Saipan; one and a half divisions of Submarine Squadron 3 were in the Solomons, and one and a half divisions in the Empire; one division of Submarine Squadron 5 was divided between the Saigon area and the Empire, with another division unplaced; one division of Submarine Squadron 6 was in the Bonins area, and it was possibly scheduled for removal to the Mandates; two divisions of Submarine Squadron 7 were in the Fifth Fleet area, and one division in the Solomons; two divisions of Submarine Squadron 8 were located at Saigon, and one division at Yokosuka.

After observing a new Japanese call sign for several days, American traffic analysts on August 4 revealed that the Japanese service call NATE 1 was similar to the NERK used by the U.S. Navy. This

22 JUN 1943

method, which concealed the identity of the originator, was only one of many secret measures adopted by the Japanese after publicity concerning the success of U.S. Naval Communication Intelligence at Midway had received widespread attention. Traffic analysis disclosed also that a reorganization of the Japanese carrier divisions had taken place, and that Carrier Division 1 included the ZUIKAKU, SHOKAKU and ZUIHO, and Carrier Division 2 included the RYUJO, HIYATAKA and HITAKI<sup>R</sup> plus three plane groups from the AKAGI and SORYU and an unidentified ship. The HOSHO and KASUGA MARUS were not identified definitely with either Carrier Division 1 or 2.

It was noticed that enemy convoys in the Penang, Singapore and Kamranh Bay areas were being protected by air squadrons, and that enemy aircraft patrolled the Ocean Islands. On August 4 the Japanese announced that three Allied planes had been observed over the Air Base at Tulagi.

An American summary of the position of Japanese units on August 4 disclosed among other things, that Cruiser Division 6 was believed to be in the New Britain-

---

22 JUN 1943

Solomons area, as was the TENRYU and TATSUTA of Cruiser Division 18. In the light of this information issued prior to the battle of Savo Island, it is evident that operational authorities were aware of the presence in the Solomons of the enemy cruisers which were eventually to destroy four Allied warships on the night of August 8-9. The daily bulletin which was issued by the Commander in Chief Pacific Fleet to all his subordinate task force commanders on August 4, and which was based directly on Communication Intelligence, stated in part that:

"... Crudiv 6, Crudiv 18 and Desron 6 remained in the New Britain-Solomons area. ..."

All during this period Japanese diplomats in Lisbon, Berlin and Rome were sending Tokyo much information about Allied movements and troop transports. A very important statement from Tokyo was sent to Berlin which cautioned Germany that Japan did not intend to open hostilities with Russia, unless it was forced to do so by extraordinary circumstances. Active measures had been taken to repel any Russian attacks, but Japan had no intention of weakening

22 JUN 1943

her efforts against England and the United States by extending her battle front. Thus, they rejected Germany's proposals to begin war with the Russians.

The Japanese, however, did speak of the necessity of destroying the influence of Chungking, which was the center of Anglo-Saxon activities against Japan everywhere throughout East Asia. Japan intended to continue the struggle to subjugate the Britain, but in spite of glorious victories, resistance of the United States, the ally of Great Britain, was still formidable. Furthermore, there was also the question of the procurement and use of raw materials in the Southeast area. Von Ribbentrop in reply to this stated that Germany was in no condition to say anything, and that the Japanese government had to decide for herself. Osima, the Japanese Ambassador at Berlin, reassured them that Japan was using every available means to win the war.

On August 4 it was stated that Cruiser Division 18 was in New Britain-New Guinea waters, and on August 5 it was announced that the CHOKAI and

the ACBA were at sea in the Rabaul area.<sup>1</sup> This was an indication that important Japanese operations were about to take place, since the CHOKAI was the flagship of the Commander in Chief of the Eighth Fleet. Notice was given once again on August 6 that the CHOKAI, flagship of the Commander in Chief of the Eighth Fleet, and Cruiser Division 6 were at sea in the Rabaul area.<sup>2</sup> The Bulletin issued by the Commander in Chief, Pacific Fleet to all his task force commanders on August 6 stated:

... Crudiv six in Rabaul area ...  
Crudiv eighteen Solomon Islands ...  
CHOKAI in New Britain area.<sup>3</sup>

Communication Intelligence gave detailed estimates of the Japanese units present in the Solomons Islands area during the days preceding the actual invasion of the American Forces on August 7, 1942. Specific references were made to the air units which were operating under the direction of the Fifth Air Attack Force in this area, as well as the submarine units under the jurisdiction of the Commander of

RIP 102

Submarine Squadron 3. Analysis had long since been made of the enemy's cruiser and destroyer strength in this region, and as early as July announcements had been made of the great movement of tankers and aircraft supply ships from Truk and Rabaul to the Solomon Islands.

Although very few of the enemy's messages could be deciphered at this time, there was little enemy activity unnoticed by American traffic analysts. Certainly, the invading American troops knew a great deal about the opposition they were to meet in this territory because of the success of communication intelligence. Captain Forrest Sherman, Commanding Officer of the U.S.S. WASP, who took an active part in the action at Tulagi and Guadalcanal stated in an official report on August 14, 1942 to the Commander in Chief, Pacific Fleet, via the Commander of Task Force 18 that, in addition to the work of his own Air Force officers:

Supplementary radio intelligence and the results of the photographic reconnaissance on August 2, 1942, made the familiarity of pilots with the area as complete as may normally be expected in the case of a position held by the enemy. (Pg. 2, A16-3(8)/CV 7, Doc. #62701.)

It is evident that American landing troops completely surprised the Japanese at Guadalcanal since no contact report was sent by the enemy until the actual attack on Guadalcanal and Tulagi had begun. Then the Japanese radio station at Tulagi sent out urgent operational messages announcing the beginning of the Solomons campaign, which was to lead to some very decisive sea battles. Fortunately, during later stages of the campaign, Communication Intelligence was able to intercept dispatches, which informed operational authorities of many facts concerning the battles which otherwise would never have been known, or would have been very much delayed in transmission.

The first indication of Japanese alarm at Tulagi came at 0435 (-9) on August 7. Thereafter, a steady flow of messages came from Tulagi until it went off the air some hours later. A Japanese estimate of the Allied Forces attacking in the Solomons disclosed that they thought there was one battleship, three light or heavy cruisers, fifteen destroyers and a number of merchant ships assigned

22 JUN 1943

to the landing forces. Warning was flashed to the Marshall Islands and to the Empire that Allied forces were attacking, and enemy radio intelligence units went on guard to intercept the calls of the Allied Striking Forces.

Many aircraft contact reports were made by the Japanese who sent all their available air strength to defend the Tulagi area. Numerous requests for plane reinforcements were sent to the Mandates and to the Empire while air patrols were set up to watch for the Allied Forces. Several air raids were announced during the morning of August 7. Despite the fact that there was no indication of enemy carriers in radio traffic for this day, a U.S. Army plane announced the sighting of what appeared to be a carrier. This was thought to be the KASUGA MARU or a sister ship. These were converted Marus with flight decks which were used only for the ferrying of planes, and not as combatant carriers.

Submarine Squadron 3 and the Fifth Air Attack Force were carrying on most of the defense activities

in this area, to which reinforcements of every type were being sent--planes, submarines, cruisers and destroyers. All were noticed in the traffic of August 7, and it was obvious that they were receiving urgent operational orders.

The actual operations of August 7 can be summarized briefly.<sup>1</sup> Task Force 62, under the direction of Rear Admiral Turner approached the Tulagi area from the south and west on the night of August 6. All preparations had been concluded, extensive landing exercises in the Fiji Islands had been practiced and a large number of ships and men had been trained to perform the tasks set out for them. Fortunately, both the extensive preparations and the approach to the area were well concealed, for in spite of the fact that the Japanese had radar, they were taken by complete surprise when the American forces, proceeding between the Russell and Guadalcanal Islands, struck from the flank and the rear.

Bombing and strafing of the Tulagi-Guadalcanal area was accomplished at dawn by American carrier

---

1 - Preliminary Report, Solomon Islands Operation, Document 59661.

planes, which resulted in the sinking of a small schooner, the only vessel present, and eighteen sea-planes, which were caught on the water. At 0610 (-11) the Screening Force commenced heavy bombardment which silenced most of the Japanese shore defenses. Mine sweeping was started to clear the shallow waters, and landings were begun at 0720 (-11) in the Tulagi area, and at 0910 (-11) on Guadalcanal, five miles east of Lunga Point.

There was no opposition at Guadalcanal, so that by the end of the day about 10,900 men had been ferried ashore, along a three mile beach front, and had penetrated inland about a mile and a half. But though there was very slight resistance at first on Tulagi, the Japanese fought back furiously as the day progressed, and at nightfall they still held a part of the Island. Halavo on Florida Island and Gavutu were captured on this day, but not until the next morning was Tanambogo taken after heavy losses.

At 1520, twenty-five Japanese heavy bombers passed over Guadalcanal at an altitude of eight

thousand feet in search of our carriers. Some dropped bombs on the landing area with no results, but most of them saved their bombs for the carriers, which they were not able to locate. Two were destroyed and two were damaged by anti-aircraft fire from our ships, and two were later shot down by our carrier fighters. The next attack was delivered soon after 1600 by ten enemy dive bombers who succeeded in dropping a two hundred and fifty pound bomb on the U.S.S. MUGFORD, which resulted in considerable damage and in the loss of about twenty men. However, two of the bombers were shot down by naval anti-aircraft guns.

Several engagements took place between our carrier planes and the Japanese bombers, resulting in the loss of several of our own fighters as well as some of the enemy. However, the first day ended in favor of the Allies for most of the objectives had been seized, our losses had been moderate, and enemy losses in planes, men and advantageous positions were considerable.

22 JUN 1943

On August 8 another warning was sent that enemy cruisers were at sea in the Rabaul area, and the supposition was confirmed that the Commander in Chief Eighth Fleet was aboard the CHOKAI.<sup>1</sup>

The Fleet Intelligence Summary issued by the Commander-in-Chief, United States Fleet, on August 8, 1942 stated that:

As was to be expected, the primary interest of ORANGE was in his force in the Bismarck and Kiska areas, and primary activity concerned tactical distribution of the forces in these two areas. In both places, except for movements of Crudiv 6 and 18 in the former area, ORANGE was dependent entirely on aircraft and submarines.

The Commander in Chief Combined Fleet was in constant communication with all his major commanders in the South Pacific, and it appeared evident that Commander in Chief Fourth Fleet, who had been actively concerned in the recent operations in the Rabaul-Solomon Island area, was to become the Commanding Officer in the outer South Seas.

The Tulagi area continued to be very active, and much of the radio traffic consisted of enemy

---

1 - Appendix I, Nos. 776-777.

22 JUN 1943

RIP 102

intelligence reports. The TATSUTA announced that it was being attacked by Allied aircraft. Orders were sent to the patrol boats in Empire waters to reform their lines, since the Japanese were very much concerned about the possibility of an attack on their home land by an Allied striking force. Meanwhile, reports from Kiska indicated that an attack by five American cruisers, one carrier and three destroyers was being made on Kiska Island, which was bombed for thirty minutes.

No enemy carriers were associated with either the Southern or Northern forces on August 8, although warning was issued that they might accompany Destroyer Division 17 from the Empire to Rabaul. However, the enemy was drawing air reinforcements from the Mandates into the danger zone, and it was evident that all available air strength in the South Pacific would be thrown into the attempt to repel the Allied invaders.

The Fifth Air Attack Force was mainly responsible for the Solomon Islands, and, consequently, most of the orders to attack were coming to and from

this organization. On the other hand Allied air forces were attacking various Japanese bases, and the enemy was forced to announce that the bombing of Vanakanau by thirteen Flying Fortresses had made necessary the curtailment of air protection which they were accustomed to give their convoys.

Enemy submarine activity increased tremendously in the region of the Solomons after the attack on Tulagi. The Commander of Submarine Squadron 3 was in charge, and the Commander of Submarine Squadron 7 was given the responsibility of getting together as many units as possible from the Mandates area to reinforce their submarine strength in the Solomons.

It is regrettable that one message intercepted on this day was undecipherable until August 23, 1942. If the information it contained had been known in time by United States operational authorities, it seems most probable that the disaster of Savo Island on August 8-9 would have been definitely avoided. However, several warnings had been issued before this that enemy cruisers were no longer at Rabaul

22 JUN 1943

and were probably at sea somewhere in the New Britain area. The message mentioned above was sent by the Commander in Chief, Eighth Fleet at 0800 on August 7, and stated that at 1300 on this day the CHOKAI, Cruiser Division 18 and another unidentified unit would depart from Rabaul for a rendezvous with Cruiser Division 6 in the vicinity of Bougainville, and would then proceed to Guadalcanal where subsequent operations against the enemy convoy would be based on reconnaissance reports.

The actual operations in the Solomons on August 8 were a continuation of activities begun on the preceding day.<sup>1</sup> Unloading continued all during the night at Guadalcanal and, though the beach was seriously congested by morning, there were no ill effects since the enemy was not in a position to take advantage of the confusion. However, enemy air attacks had disrupted procedure so much that only limited amounts of essential supplies and equipment had gone ashore. Many difficulties had been experienced in locating those things which were needed

---

1 - Preliminary Report, Solomon Islands Operations, Document 59661.

22 JUN 1943

first, and if enemy resistance had been stronger, the success of the landing might well have been jeopardized.

Warning was issued soon after 1100 that a large number of enemy planes had been sighted flying southeast over Bougainville. Immediately, the transport group and screening force got under way, and thus, when forty or more enemy torpedo bombers swept in at low altitude from behind Florida Island, our ships were ready for them and were able to maneuver at maximum speed. Twelve of the Japanese planes were shot down by our ships and fighters, and two others by shore batteries. Several others were destroyed to the westward by our fighter planes in combats which cost us seven of our own planes. Another air raid alarm was given that afternoon, but no attack followed.

Our losses after two days of attack by all the Japanese air strength available in that area consisted of nineteen planes, and one transport, the U.S.S. ELLIOTT, which had been destroyed by fire

SECRET

ORIGINAL  
22 JUN 1947

RIP 102

and sunk by our own torpedoes. Two destroyers, the JARVIS and the MUGFORD, were also damaged. On the other hand, our forces had increased the area under their control on Guadalcanal to include the airfield, and heavy casualties had been inflicted on the Japanese in Tulagi and Tanambogo.

Since our carrier fighter strength had been reduced by twenty-one planes, and fuel was running low, it was considered advisable to withdraw the carriers immediately, in view of the large number of enemy torpedo and bombing planes in the vicinity. This withdrawal on the night of August 8 left all the AP's and AK's to unload without air cover. It is interesting to note that reconnaissance had evidently failed to keep track of the enemy force, whose position at 1127 of that day was reported by Melbourne radio station at 1821. The message stated that at 1127 on August 8 three cruisers, three destroyers and two seaplane tenders or gunboats were at Latitude 05-49 south, Longitude 156-07 east, on course 120, speed 15. The Commander Task Force 62

23 JUN 1943

informed the Commander Aircraft South Pacific that this force might operate torpedo planes from Rekata Bay, Santa Isabel Island, and recommended that strong air detachments strike there next morning. This was the force which was to successfully attack the Allied screening force near Savo Island during the night of August 8-9.

BATTLE OF SAVO ISLAND - NIGHT OF 8-9 AUGUST (-11)

The Allied Screening Force had been divided into two groups consisting of the following:

AUSTRALIA GROUP

AUSTRALIA  
CANBERRA  
CHICAGO  
SELFRIIDGE  
PATTERSON  
BAGLEY  
BLUE  
TALBOT

VINCENNES GROUP

VINCENNES  
QUINCY  
ASTORIA  
HENLEY  
HELM  
MUGFORD  
JARVIS (Badly damaged, left  
before battle)

22 JUN 1943

Each of the two separated groups of cruisers was steaming in column at ten to twelve and one-half knots around a five mile square patrol route near Savo Island. Two destroyers were 1500 yards off each bow of the leading ship in each group. The RALPH TALBOT, patrolling to the north of Savo Island, reported at 2345 on the TBO and TBS that a low flying plane was proceeding eastward over the Island. Several ships heard the report and the BLUE, which picked up the plane by radar also heard the engines, as did the QUINCY. Neither the first report by the RALPH TALBOT, nor the later one by the BLUE, reached the Commander Task Force 62.

At 0140 the BAGLEY, stationed on the starboard bow of the CANBERRA, sighted some unidentified ships, which were very near to her and slightly to port. The destroyer swung about in an attempt to fire her torpedoes, but missed the opportunity because the primers could not be inserted in time. She passed the enemy at 1500 to 2000 yards and was thus able to identify them as two heavy cruisers of the ASHIGARA type, and two light cruisers of the TENYURU type.

RTP 102

22 000 102

Other estimates made after the battle were those of the Commander Task Force 62, who stated that three Japanese cruisers and four destroyers had probably been present, and that of the Commander South Pacific Force, who estimated that there had been three heavy cruisers, two light cruisers and five destroyers.

The PATTERSON, which was on the port bow of the CANBERRA, also sighted the enemy formation. Either she or her friendly destroyer, the BAGLEY, sent a warning signal, which was not received by Commander Task Force 62. However, since neither destroyer fired a gun or rocket, or turned a searchlight on the enemy's ships, the Japanese Striking Force steaming at high speed had all the advantage. Fully prepared and ready to open fire instantly, the enemy struck our ships, which were proceeding at slow speed and were not at general quarters.

At 0145-0150 the Japanese opened fire with their main batteries and torpedoes at a range of about 3000 yards or less, and concentrated their fire on the CANBERRA, which was hit by an early

22 JUN 1943

salvo. A heavy fire was started, other hits from shells and torpedoes struck the bridge and boiler rooms, and within a minute twenty-four hits were received before the CANBERRA's gun turrets could be trained on the enemy. The CHICAGO, which was in the same group as the CANBERRA, was also struck.

Meanwhile, the cruisers of the VINCENNES group continued on course 315 at a speed of ten knots, which was later increased to fifteen. General Quarters was sounded soon after gun fire was observed, but battle stations were not fully manned when the enemy crossed over from the port quarter, and opened fire on three of our cruisers silhouetted by Japanese search lights. Our three cruisers, the VINCENNES, QUINCY and ASTORIA, suffered innumerable eight-inch and five-inch shell hits, so that power and A.A. directors failed them very early in the battle. The Japanese received some hits from our cruisers, but no great damage was observed.

Firing ceased for a short time, but was resumed at 0210 when the Japanese formation, passing out to

sea two or three thousand yards to the northeast, reopened fire. Sometime between 0210 and 0217, as the Japanese force retired westward, the RALPH TALBOT was illuminated and fired on by friendly ships, probably two screening destroyers, the HELM and WILSON, which had been ordered by the VINCENNES to attack the enemy. Two men were killed and a torpedo tube disabled by this fire, which ceased when the identity of the TALBOT was established by TBS. The TALBOT suffered serious damage from a later hit by Japanese gunfire, but was still able to fire four torpedoes at the fleeing enemy, one of which may have taken effect.

The shattered Allied cruisers were not able to delay the end much longer, for both the QUINCY and VINCENNES sank within an hour. The ASTORIA burned all throughout the night and sank the next morning, and the burning CANBERRA was sunk by our own torpedoes about 0830 on August 9. Since the American carriers had departed the previous evening to refuel, there were no planes to harry the enemy

22 JUN 1943

RIP 102

be in a certain area, his crews were much fresher than ours after forty-eight hours of consecutive operations in support of the landing, and our forces were dispersed to cover the two transport groups, whereas the enemy was concentrated, and knew that any ship outside of his formation could readily be attacked as an enemy.

It is interesting to note that no immediate warning could be given by United States Communication Intelligence that the enemy cruisers were going to make a sweep around Savo Island, for the message which announced the intention of the CHOKAI and Cruiser Division 6 and 18 to go into that specific area was not deciphered until much later. Traffic analysis had discovered that enemy cruisers were at sea in the Solomons area, but the maintenance of strict radio silence by these units made it impossible to estimate their every move. Very little information about the attack, which took place during the night of August 8-9, could be obtained from enemy communications at that time. Later on, however, after

RIP 102

22 JUN 1942

American cryptanalysts had solved the new Japanese system, many important details concerning the surprise attack were discovered.

Thus, August 9 was marked only by some occasional enemy contact reports announcing the presence of Allied warships and transports between Tulagi and Guadalcanal. It was also noticed that many messages were forwarded to the Chief of Staff of the Eighth Fleet from Rabaul, which was another indication that the Commander in Chief, Eighth Fleet was no longer in that port. Warning had been sent as early as August 5 that the CHOKAI and AOBA were possibly at sea, and from this it had been presumed that the Commander in Chief, Eighth Fleet was aboard the CHOKAI.

This ends the summary of the highlights of communication intelligence which were made available to operational authorities during the month of July and the first few days of August, 1942. Certainly the intelligence picture in the Solomons was not as clear as was the situation just before the Battle of Midway, but in spite of some obscurities, the period

RIF 102

23 JUN 1943

was noteworthy for the development of traffic analysis as a major wartime instrument for acquiring intelligence concerning the enemy. It is regrettable that the complete success at Midway could not have been duplicated at this time, but there was still much value in what Communication Intelligence was able to offer. Complete details will be found in Appendix I.

23 JUN 1943

CHAPTER IBackground of the Landing on Guadalcanal Island  
and the Battle of Savo Island

The U. S. Marines aided by the U. S. Navy landed on the Solomon Islands on August 7-8, 1942 and in retaliation Japanese warships slipped around Savo Island on the night of August 8-9, and inflicted very severe damage on an Allied screening force. This was the first naval engagement of the Solomons Campaign - a campaign which was to include six major naval battles and many other scattered naval actions. Much has been written of the heroic exploits of American land forces on Guadalcanal Island, and this praise has been well deserved. But it takes nothing from their glory to point out that the fate of the Solomons rested finally in the hands of the U. S. Navy. Had not the enemy been constantly beaten back in their attempts to reinforce their garrisons, and had not our task forces destroyed Japanese naval units which were often superior in number and in fire power, the Solomons long since would have been once

22 JUN 1943

again under enemy control.

But everything did not go smoothly on all occasions. Confusion and disaster at one time obscured the tremendous accomplishments of our forces there. Much criticism arose because of a defeat which occurred at Savo Island just after American troops had landed on Guadalcanal and on some of the other islands. This chapter deals with the information U. S. Naval Communication Intelligence was able to supply our forces before the Savo Island battle occurred. Unfortunately, despite general warnings of the presence of Japanese ships in this area, the enemy was able to achieve a surprise, and before the attack was finished several Allied cruisers were destroyed.

The events leading up to the actions of early August, 1942, will now follow.

#### JULY 1, 1942

As early as July 1 it was reported by U. S. Naval Communication Intelligence that there was noticeable Japanese activity in the Solomon Islands.<sup>1</sup>

---

1 - See Appendix I, Message No. 1 for more details. Hereafter, all references to Appendix I will be noted in the following fashion -- I. No. 1.

These islands had been relatively obscure before this time since the attention of the world had been focused on other more important battle fronts. But full appreciation of their strategic importance in any attack on Australia had long been felt by members of Allied naval and military commands. They knew that if the enemy controlled these islands and was able to establish strong air bases on them, there would be grave danger that the American supply lines to Australia would be cut. Furthermore, it was not too unreasonable to suspect that these air fields might be used as advance bases for an invasion of the Australian mainland.

JULY 2, 1942

It was with great interest then that further reports were received of the presence of at least fifteen enemy warships and a dozen transports in the Rabaul-Tulagi area.<sup>2</sup>

---

2 - I, Nos. 2, 3.

22 JUN 1943

JULY 3, 1942

It was evident by now that important enemy operations were about to commence, and issuance of orders to a Japanese Special Landing Force to proceed to Rabaul proved the fact.<sup>3</sup> The Eighth Base Force and the Fifth Air Attack Corps were associated at Rabaul with the Sasebo Fifth Special Landing Force mentioned above.<sup>4</sup> Other Japanese units noticed in this area were an air group commander at Kavieng, an army detachment at Rabaul, Cruiser Division 6 and 18, several supply ships, two air tenders, and an unidentified warship.<sup>5</sup>

JULY 6, 1942

Practically all of the communication intelligence which was furnished to operational authorities during July and August was derived from traffic analysis rather than decipherment. It will be recalled

- 
- 3 - I, Nos. 4, 5.
  - 4 - I, Nos. 6- 8.
  - 5 - I, Nos. 9-13.

that on May 28, 1942, just a few days before the attack on Midway, the Japanese had changed the code from which American cryptanalysts had been deriving their most important intelligence. Fortunately, such a situation had long been foreseen, and a well planned traffic analysis system had been devised to estimate the location of enemy units, and to anticipate their plans by a close study of the external features of the enemy's communication procedure. Thus, without being able to decipher Japanese messages of July and August, 1942, with the exception of a few fragmentary passages, U. S. Naval Communication Intelligence experts were able to inform operational authorities of the status and plans of the enemy.

Some examples of the reasoning done by traffic analysts may be of interest. A steady stream of dispatches from the Commander-in-Chief Second Fleet to Marus disclosed logistic preparations for a campaign in distant waters;<sup>6</sup> much airplane radio traffic in the Marshall Islands indicated future operations there;<sup>7</sup> and the Sixth Base Force at Jaluit and the

---

6 - I, No. 14.

7 - I, Nos. 16-18.

22 JUN 1942

Sixth Defense Force in the Marshall Islands were also very active.<sup>8</sup> A special report from Chinese Intelligence stated that Japanese strength at Rabaul, Lae, and Koepang had been reduced, but in the light of its own observations U. S. Naval Communication Intelligence pointed out that enemy activity was increasing rather than decreasing in this area.<sup>9</sup>

The suspicion that the enemy was about to begin operations in the Southern Pacific was confirmed by many associations of important units in radio traffic from that region.<sup>10</sup> It was evident also that a reinforcing movement of enemy troops from Davao to Rabaul was contemplated.<sup>11</sup>

JULY 7, 1942

Much convoy activity in the New Britain area suggested Japanese preparations for a campaign,<sup>12</sup> and the presence of several enemy submarines in the Marshalls indicated that preliminary scouting was going on.<sup>13</sup>

- 
- 8 - I, Nos. 20, 21.
  - 9 - I, No. 22.
  - 10 - I, No. 23.
  - 11 - I, No. 24.
  - 12 - I, Nos. 26-28.
  - 13 - I, No. 29.

JULY 8, 1942

22 JUN 1943

There were further indications noted that Cruiser Divisions 6 and 18, plus Destroyer Squadron 6, were either in or proceeding to Rabaul,<sup>14</sup> and that the Yokohama Flying Boat Squadron had arrived to support the Base Force at Tulagi in the Solomons.<sup>15</sup> A Personnel Bureau dispatch from Tokyo to various air units demonstrated that air personnel would be sent as replacements to the Fifth Air Attack Force which was operating in the Truk-Rabaul area.<sup>16</sup> Increased air activity was an important clue to Japanese intentions, for during the war no important enemy movement had been begun without heavy air protection.

The Nineteenth Division of the Fourth Fleet, as well as the Chief of Staff, Seventeenth Army,<sup>17</sup> were observed to be in or near Rabaul.<sup>18</sup> Several erroneous contact reports by the Japanese in this area gave rise to the suspicion that the enemy was very anxious about the success of his new operations.<sup>19</sup>

- 
- 14 - I, No. 30.  
15 - I, No. 31.  
16 - I, Nos. 32, 33.  
17 - I, No. 35.  
18 - I, No. 34.  
19 - I, Nos. 36, 37.

22 JUN 1942

This led to the belief that the Japanese were aware that they had sent insufficient forces for a very important assignment, and were doubtful of the outcome.

JULY 9, 1942

Heavy radio traffic between Army authorities at Davao and Rabaul continued on this day,<sup>20</sup> and the presence of a fleet tanker in southern waters was also noticed.<sup>21</sup>

JULY 10, 1942

The Commander-in-Chief of the Third Fleet shifted flagships in the Dutch East Indies area,<sup>22</sup> and in the more active region of the Solomon Islands two enemy destroyer divisions, an air tender and several Marus were observed.<sup>23</sup>

JULY 11, 1942

There was no doubt by this time that the Japanese were planning new operations in the New Guinea, Bismarck Archipelago, and Solomon Islands

---

20 - I, No. 39.

21 - I, No. 38.

22 - I, No. 40.

23 - I, No. 41.

areas. Documents captured from the enemy in New Guinea confirmed this belief for they indicated that orders had been issued to the Eleventh and Thirteenth Billeting Detachment to go to Guadalcanal. The Fourteenth Billeting Force and the Fifth Special Landing Force were directed to land on the east coast of New Guinea.<sup>24</sup> The Commander-in-Chief Fourth Fleet had come down from Truk to Rabaul,<sup>25</sup> and the presence of this high ranking naval commander plus the indications of constant troop movements into this area were further reminders of the dangerous potentialities of the enemy.<sup>26</sup>

The TATSUTA rejoined Cruiser Division 18, and the KINUGASA and the FURUTAKA joined Cruiser Division 6, thus increasing the enemy's cruiser strength in the Solomons.<sup>27</sup> Destroyer Squadron 6 and two Marus were thought to be in the area between Rabaul and Tulagi,<sup>28</sup> and Submarine Squadron 3 was actively operating in the same district.<sup>29</sup> War worn air units were being

replaced and additional units were being supplied by the Japanese prior to the opening of a new air campaign.<sup>30</sup> So numerous were the responsibilities of the officer in charge at Rabaul because of the new forces that it was thought a division of authority would be effected in this area.<sup>31</sup>

JULY 12, 1942

Many details of the Japanese plans in the Solomons, which had been supplied by Communication Intelligence, were confirmed after enemy documents captured in New Guinea had been thoroughly studied. (See No. 42) The unit names of enemy forces in the Solomons, the schedule of their arrival, the table of their organization, the assignments of their aircraft support, the duties of their various units-- all these were found itemized in the captured documents.<sup>32</sup> Rabaul, Tulagi and New Britain appeared to be focal points of the enemy's activity.<sup>33</sup>

There was much Radio Intelligence activity on the part of the Japanese, which seemed to indicate that information on Allied positions was being sought

22 JUN 1942

before the beginning of their new campaign.<sup>34</sup> A message from Tokyo Registered Publications was thought to be the forerunner of a change in Japanese call signs or a modification of the code used by their submarines.<sup>35</sup> Estimates of the location of some of the Japanese naval commanders were now made since the presence of high ranking officers in an area was usually an indication of impending action. It was noticed that an extraordinary amount of traffic was being originated by the Commander-in-Chief and Chief of Staff, Fourth Fleet, both of whom were in the Rabaul area.<sup>36</sup> Admiral Kajioka, who was considered to be the Commander Eighth Base Force, was shown to be at Rabaul also,<sup>37</sup> and the Commander-in-Chief Third Fleet was thought to be at sea in the Dutch East Indies area.<sup>38</sup>

JULY 13, 1942

Though enemy air reinforcements were arriving in the Rabaul area, there was no sign of aircraft carriers.<sup>39</sup> The Yokosuka Landing Force was interested

  - 39 - I, No. 81.

22 JUN 1943

in affairs in this area,<sup>40</sup> but the principal activity on this day was by air units at Rabaul, Truk, New Britain and the Marshalls, where many replacements were being added by ferry plane flights.<sup>41</sup> In addition to air support, the enemy was increasing his cruiser and destroyer strength.<sup>42</sup>

Reports were received on this day which stated that the Japanese were building a landing field on Guadalcanal Island in the Solomons,<sup>43</sup> and had made another landing at Rekata Bay, Santa Isabel Island.<sup>44</sup>

JULY 14, 1942

There were some indications that carrier planes would operate in the New Guinea area,<sup>45</sup> and it was also thought probable that the Eighth Fleet would be used in this district.<sup>46</sup> An estimate of the Eighth Fleet suggested that it was made up of air units and was either the Combined Air Force or the organization of tenders and supply ships assigned to serve the

Combined Air Force.<sup>47</sup>

Preparations for changing Japanese communication procedure, which had been noticed before, were still in progress.<sup>48</sup> Identification of various Japanese units at Rabaul and Wake provided some helpful information, especially the fact that Cruiser Divisions 6 and 18 were operating independently.<sup>49</sup> An estimate of the location of enemy aircraft carriers disclosed their absence in the Solomons at this time,<sup>50</sup> but it was expected that enemy submarines would soon operate in the New Britain area.<sup>51</sup> Heavy radio traffic from the Tokyo Personnel Bureau and major commanders to fleet commands and individual vessels indicated the regrouping of fleet units into several task forces. It seemed apparent also that many fleet units recently operating in the North were returning to the Empire for brief reconditioning periods before engaging immediately in new operations.<sup>52</sup>

22 JUN 1942

JULY 15, 1942

Traffic analysis was able to outline some of the Japanese units in the Guadalcanal area, and it was pointed out that the enemy used the designator "R" to describe the area which included the Solomons, New Britain, New Guinea, New Ireland, Ocean Islands, and British Samoan Islands.<sup>53</sup>

Proof that the enemy air base at Guadalcanal was now ready was available.<sup>54</sup> The gathering of additional air units at Gasmata,<sup>55</sup> a place situated on the south coast of New Britain at 151° E., 07° S., and the establishment of an aircraft assembly plant at Kavieng were further signs of Japanese plans for a major campaign.<sup>56</sup>

JULY 16, 1942

Cruisers and destroyers continued to manifest their presence near Tulagi,<sup>57</sup> though enemy radio traffic was heaviest in the Rabaul area. It was deemed probable that the Commander-in-Chief Eighth Fleet would be in charge of this region, though normally it was controlled by the Commander-in-Chief, Fourth Fleet.<sup>58</sup>

22 JUN 1943

The prevalence of Japanese Army Engineering and Supply units foretold a major campaign,<sup>59</sup> and the location of so many warships and supply ships in the New Britain-Solomons area could lead only to the conclusion that the drive of the enemy would begin from there.<sup>60</sup> The growing interest of Japanese high naval commanders in southern waters only strengthened this belief.<sup>61</sup> An estimate of Japanese submarine locations demonstrated that many were either moving to or were in the South Pacific.<sup>62</sup> Such action generally preceded enemy operations, for they had made great use of submarines in scouting expeditions and in primary assault stages all during the war.

JULY 17, 1942

Many enemy supply ships were enroute to the South Pacific at this time,<sup>63</sup> and an unidentified warship was also on the way to Rabaul.<sup>64</sup> A cruiser which had received a severe battering at the hands of American forces defending Midway, and which was once again active in radio traffic was still at Truk.<sup>65</sup>

- 
- 59 - I, Nos. 120, 121.

  - 63 - I, Nos. 128-130.
  - 64 - I, No. 132.
  - 65 - I, No. 131.

22 JUN 1942

The Commander-in-Chief Eighth Fleet was very much involved in messages to and from Rabaul, and, as has been previously reported, it was thought that the Commander-in-Chief Fourth Fleet would have his headquarters at Truk while the Commander-in-Chief Eighth Fleet would exercise independent control of the Solomons-New Guinea-New Britain area.<sup>66</sup>

JULY 18, 1942

The Commander-in-Chief Eighth Fleet remained prominent in South Pacific dispatches.<sup>67</sup> Captured enemy documents confirmed some suppositions as to the patrol and supply routes of the enemy in the Rabaul area,<sup>68</sup> and traffic analysis disclosed the expansion of Japanese construction as well as the presence of several new enemy units in the area south of Rabaul.<sup>69</sup>

JULY 19, 1942

Japanese radio traffic was most active in the Southern area, and emphasis was shifting from administrative to the preoperational type of message.<sup>70</sup>

- 
- 66 - I, No. 133.
  - 67 - I, Nos. 134-137.
  - 68 - I, No. 138.
  - 69 - I, Nos. 139-147.
  - 70 - I, No. 148.

22 JUN 1942

Constant attention was paid to the route of the Commander-in-Chief Eighth Fleet for his arrival in the Solomons would mean that operations were about to begin.<sup>71</sup> A jurisdictional division of the South Seas Area into "Inside" and "Outside" Precincts was apparent, but what areas or forces were contained therein were not known.<sup>72</sup> Further indications of the presence of transport and supply ships in the Rabaul area were noticed,<sup>73</sup> as the southward movement of important Japanese warships, men and munitions continued.<sup>74</sup> Ferrying of aircraft and constant shipping of aviation supplies from the Empire to southern waters seemed to indicate future enemy action.<sup>75</sup> Though the other carriers had not left the Empire, the ZUIKAKU was thought to be on its way to Singapore.<sup>76</sup>

JULY 20, 1942

Japanese radio traffic continued to be very heavy, and especially noticeable was the activity at

- 
- 71 - I, Nos. 149-152.
  - 72 - I, No. 153.
  - 73 - I, Nos. 154-158.

  - 75 - I, No. 166.
  - 76 - I, Nos. 167-168.

Rabaul, Singapore and Yokosuka.<sup>77</sup> Merchant ships and warships were moving all along the supply line from the Empire through the Philippines, the Dutch East Indies, Truk, and eventually reaching Rabaul,<sup>78</sup> where the Japanese Army was just as active as was the Navy.<sup>79</sup> Japanese espionage reports concerning American preparations for the defense of Australia came from agents in the United States, and went to Tokyo via Madrid. Other details in these reports dealt with the precautions taken by our ships in convoy, and the construction of torpedo boats in New Orleans.<sup>80</sup> It was suspected that the enemy was attempting radio deception,<sup>81</sup> but American traffic analysts disclosed the scheme, and in addition identified many important Japanese units.<sup>82</sup> There could be no doubt, however, that the Japanese Radio Intelligence was operating in the Rabaul area.<sup>83</sup>

JULY 21, 1942

Great interest was demonstrated in Japanese aircraft and air supply movements, since these would build up enemy striking forces.<sup>84</sup> Similar attention

  - 83 - I, No. 190
  - 84 - I, Nos. 191-192.

22 JUL 1942

was paid to routes of enemy cruisers and destroyers on their way to southern waters, for by this means it was possible to estimate the course of their convoys.<sup>85</sup> A Japanese report of an American air raid on Lae was intercepted, and another stated that twelve of their ships had been sighted by Allied planes in the vicinity of Salamaua.<sup>86</sup>

JULY 22, 1942

Enemy documents, which had been recovered from a canvas handbag thrown from a Japanese naval bomber shot down at Gaille, New Guinea, confirmed some information known about the enemy's weather code and his method of reporting contacts with Allied forces.<sup>87</sup>

Destroyers and cruisers continued their convoying of Japanese Army forces into the Solomons area,<sup>88</sup> and although Cruiser Divisions 6 and 18 were quite prominent in radio traffic, they still operated independently of each other.<sup>89</sup> Cruiser Division 18

89 - I, Nos. 209-211.

22 JAN 1943

was believed to be in the vicinity of Lae-Salamaua, Cruiser Division 6 at Kavieng. Destroyer Squadron 6 had two units in this area--Destroyer Division 29 near Tulagi, and Destroyer Division 30 near Rabaul, together with two destroyers of Destroyer Division 34. The Japanese Southern Expeditionary Fleet was reported to be in Netherland East Indies waters.<sup>90</sup> A special analysis of the make-up of Cruiser Division 7 was made at this time for operational authorities by U.S. Naval Communication Intelligence. It gave reasons for the assumption by traffic analysts that Cruiser Division 7, after the sinking of the MIKUMA, consisted of the KUMANO, the SUZUYA and the MOGAMI.<sup>91</sup>

There were several more indications that the Commander-in-Chief Fourth Fleet, who had just changed flagships,<sup>92</sup> was about to resign jurisdiction over the southern waters to Commander-in-Chief Eighth Fleet.<sup>93</sup> A number of new Japanese units were shown by traffic analysis to be in the Rabaul-Guadalcanal area,<sup>94</sup> and

23 JUN 1943

the presence of enemy submarine squadrons was also noted.<sup>95</sup>

JULY 23, 1942

Japanese radio traffic was most active in the Rabaul area,<sup>96</sup> and though the messages seemed to be mainly of an administrative type there were several operational dispatches.<sup>97</sup> An Allied air attack on Japanese transports was now reported by the enemy, but the brief messages gave little information as to the outcome.<sup>98</sup> The enemy's Radio Intelligence organization proved its alertness at this point by intercepting Allied reports which announced the sighting of enemy warships.<sup>99</sup>

It was learned from traffic analysis that the Kure Third Special Landing Force had a detachment at Guadalcanal,<sup>100</sup> that part of Cruiser Division 18 was escorting Paveo Army units from the Mandates to the south,<sup>101</sup> and that the Commander of Cruiser Division 6 was still at Kavieng.<sup>102</sup> Some new Army

102 - I, No. 242.

22 JUN 1943

units were discovered at Rabaul, which was a further confirmation of the belief that heavy Army reinforcements were being brought in from the Philippines.<sup>103</sup> Some units at Tulagi were apparently of great importance, but their identity was not known at this time.<sup>104</sup> However, the progress of some destroyers and transports from the Empire to Rabaul was reported,<sup>105</sup> and the identification of some important Japanese call signs was achieved.<sup>106</sup> A shifting of enemy air strength from Rabaul to the vicinity of Lae, New Guinea,<sup>107</sup> in addition to a heavy concentration of Japanese submarines along the Truk-Rabaul line were dangerous signs.<sup>108</sup> An important resume of the location of various enemy units in the Solomon Islands area was now issued.<sup>109</sup>

JULY 24, 1942

It had been believed that the Japanese were about to change their call signs or ciphers,<sup>110</sup> and

  - 109 - I, No. 258.
  - 110 - I, No. 259.

on this day a change of the enemy's major shore radio and high command call signs occurred.<sup>111</sup> Among other duties, Japanese Radio Intelligence was taking direction finder bearings on American planes operating from Port Moresby.<sup>112</sup>

The great number of Marus enroute to the South Pacific indicated the enemy's intention of building up strong bases in this territory<sup>113</sup> to which the Commander-in-Chief of the Eighth Fleet was also proceeding aboard the CHOKAI.<sup>114</sup> A resume of the forces associated with the Fourth and Eighth Fleets disclosed that eight heavy and two light cruisers had been probably assigned to the Rabaul area. These included Cruiser Division 6, 8, and 18, plus the CHOKAI, SUZUYA, and possibly the MAYA. It was interesting to note that no adequate carrier support had been assigned this large concentration of heavy units.<sup>115</sup> The Commander of Cruiser Division 18 was quite prominent in this day's traffic, as were some of the units associated with him.<sup>116</sup> It appeared that

22 JUN 1943

an Allied attack was in progress, and that Cruiser Division 18 was much concerned.<sup>117</sup>

Cruiser Division 6 was associated with Cruiser Division 18 in a rendezvous with a fleet tanker in the Rabaul area.<sup>118</sup> The cruiser JINTSU<sup>119</sup> and Cruiser Division 7 were enroute to southern waters, and the progress of the latter was watched carefully for there were some indications that a carrier force together with additional destroyers would join it.<sup>120</sup> Evidence of liaison activities between all the Japanese commanders in the south was noticed,<sup>121</sup> though direct communications to all enemy units in the area had not yet been achieved.<sup>122</sup> Commander-in-Chief of the Eighth Fleet was still associated with the Kure Third Special Landing Force as well as two destroyer divisions.<sup>123</sup> A radio call sign frequently used by the enemy was thought to identify units which were assigned to the jurisdiction of the Commander-in-Chief of the Eighth Fleet after they had

122 - I, No. 293.  
123 - I, Nos. 294, 295.

been detached from the Fourth Fleet.<sup>124</sup> A newly commissioned unidentified enemy warship was steaming south, and it was reported that its destination was Rabaul.<sup>125</sup>

Shore based planes were operating from the Japanese bases at Guadalcanal and Tulagi in search of Allied ships.<sup>126</sup> Conferences over air power were being held at Tenian at this time, and as a result, six enemy heavy bombers were transferred from the Second Air Corps.<sup>127</sup> A very large number of Japanese submarines were either in, or enroute to the Rabaul area, and it was noticed that their activity had increased in southeastern Australian waters.<sup>128</sup> An estimate of the total submarine strength of the Japanese Navy showed it to be between fifty and sixty submarines.<sup>129</sup>

JULY 25, 1942

The center of Japanese radio activity remained in the South Pacific,<sup>130</sup> to which the Commander-in-

  - 130 - I, No. 311.

22 JUN 1943

Chief of the Eighth Fleet was heading aboard the CHOKAI,<sup>131</sup> presumably accompanied by the new unidentified warship NETU 9.<sup>132</sup> The Tainan Air Group was busy at Lae,<sup>133</sup> and the ZUIKAKU and SUZUYA were also active.<sup>134</sup> A Japanese cruiser damaged at Midway was once again ready for action,<sup>135</sup> and though Cruiser Division 18 was sending much operational traffic, there was no indication of the presence of Cruiser Division 6 at Kavieng where it was believed to be.<sup>136</sup> The association of Japanese Army units in Davao with Rabaul was becoming more noticeable,<sup>137</sup> and though enemy submarines were maintaining radio silence, many orders were being sent to them. It was quite evident that several enemy submarine divisions were operating in Australian waters.<sup>138</sup>

An important resume of recent Japanese Radio Intelligence activities was issued at this time, which

- 
- 131 - I, Nos. 312-314.
  - 132 - I, No. 315.
  - 133 - I, Nos. 318, 319.
  - 134 - I, Nos. 320, 321.
  - 135 - I, No. 322.
  - 136 - I, Nos. 323-326.
  - 137 - I, No. 328.
  - 138 - I, Nos. 329-331.

disclosed that Japanese shore stations were originating many reports of intercepted Allied radio transmissions. An enormous amount of traffic was devoted to these reports which seemed to contain principally call signs, bearings of U. S. aircraft radio transmissions and deductions therefrom. There appeared to be no sign of an enemy decipherment of our cipher systems, or of their compromise through capture.<sup>139</sup>

JULY 26, 1942

A new day brought no change in the Japanese radio situation since the Rabaul area continued to be the most active.<sup>140</sup> The arrival of the Commander-in-Chief of the Eighth Fleet at Truk disclosed that many of his subordinates were there also.<sup>141</sup> A bulletin was issued jointly on this day by the Chiefs of Staff of the Fourth and Eighth Fleets, which seemed to indicate that a decision concerning future operations had been made.<sup>142</sup> It was thought that Kure Fifth Special Landing Force had accompanied the Commander-in-Chief of the Eighth Fleet,<sup>143</sup> and that a tanker

RIF 102

22 JUN 1943

would refuel some of his units.<sup>144</sup> Part of the Fourth Fleet was engaged in convoy work,<sup>145</sup> possibly escorting some of the important Army commands which were destined to reinforce the landing forces at New Guinea.<sup>146</sup> Probable identifications were made of some Japanese aircraft units in the Rabaul area,<sup>147</sup> and though cover calls hid the identity of a few ships, Cruiser Division 18, despite its disguise, was known to be there.<sup>148</sup> An organizational outline of the Japanese Second Fleet was provided for U. S. Navy operational authorities on this date,<sup>149</sup> and a warning of possible danger was issued because of the radio silence of several enemy warships.<sup>150</sup>

JULY 27, 1942

Further evidence confirming the belief that an important enemy naval action was about to begin was found in the very heavy Japanese radio traffic

- 
- 144 - I, No. 340.
  - 145 - I, No. 341.
  - 146 - I, Nos. 343-348.

  - 149 - I, No. 355.
  - 150 - I, No. 356.

22 JUN 1943

in the southern area. Many of these messages were of an operational type, and it was believed that much of the traffic was caused by Japanese Radio Intelligence's efforts to locate United States forces prior to launching an attack.<sup>151</sup> Dispatches issued jointly from Truk by the Chiefs of Staff of the Fourth and Eighth Fleets indicated that the Commander-in-Chief Eighth Fleet, who had arrived at 1030 on July 25, had relieved the Commander-in-Chief Fourth Fleet of the command in the New Britain-Solomons area.<sup>152</sup> It was evident too that Destroyer Division 16 and Destroyer Division MAN 55 were assigned to the Eighth Fleet,<sup>153</sup> as was Cruiser Division 18.<sup>154</sup>

More Army units were being brought in to reinforce Japanese bases in the Solomons,<sup>155</sup> and after a silence of several days, Destroyer Squadron 6 was again noticed. Reconnaissance and operation reports indicated that the YUBAPI, flagship of Destroyer Squadron 6, had been engaged in supporting operations at Buna on July 22,<sup>156</sup> which accounted for its silence.

- 
- 151.- I, Nos. 357-361.

  - 155 - I, Nos. 369, 370.
  - 156 - I, No. 371.

22 JUN 1943

The cruiser SUZUYA was still near Truk despite previous indications of a move into the Malay area,<sup>157</sup> but the KASHIMA was enroute to Kure. This proved that the Commander-in-Chief of the Fourth Fleet had shifted flagships, since he was no longer aboard the KASHIMA.<sup>158</sup> Though Cruiser Division 6 was not playing an active part in the New Guinea operations, it appeared to be preparing for more direct action, since it was communicating with the Japanese Bureau of Aeronautics. The supplying of aircraft replacements has always been a prelude to Japanese campaigns.<sup>159</sup>

Traffic analysis disclosed the presence of several new warships and Marus in the Rabaul area<sup>160</sup> and much shifting of enemy air strength southward.<sup>161</sup> An important assignment of the aircraft was to conduct reconnaissance against enemy forces.<sup>162</sup> A contact with Allied planes was reported in the Mandates area in which the Fourth Air Attack Corps Commander had jurisdiction.<sup>163</sup>

Enemy submarine squadrons were still in the Eighth Fleet area, and a Japanese diplomatic message

22 JUN 1943

which complained of the great number of enemy submarines in Kamranh Bay was an indication that American submarines also were not idle. In fact, so great was the anxiety of the enemy that the departure of the TOZAN MARU was delayed until more protection could be supplied to it by the Japanese Navy. The information disclosed in these intercepted messages was of great value to U. S. Navy operational authorities, because sailing dates were furnished.<sup>164</sup>

It may be pointed out here that many successful attacks of American submarines on Japanese ships in the Far Pacific have been made possible through information furnished by U. S. Navy Communication Intelligence.

The probable organization of a Japanese Striking Force was furnished at this time, and this provided such valuable information as to the makeup of Carrier Division 2. It appeared that the HAYATAKA, HITAKA and possibly the RYUJO formed part of this group.<sup>165</sup>

A message which revealed that operations were to take place on July 29th was now deciphered. It

---

165 - I, Nos. 387, 388.

22 JUN 1943

was originated by the Commander of the RZJ Occupation Force, and was addressed to various addressees in the New Britain Area. Though the place, RZJ, was not definitely known, it was presumed to be in the vicinity of Buna.<sup>166</sup>

JULY 28, 1942

The Commander-in-Chief of the Fourth Fleet and the Commander-in-Chief of the Eighth Fleet of the Japanese Navy had parted company by this time,<sup>167</sup> and the Commanders of Cruiser Division 13 and Destroyer Division 16 were in touch with the Commander-in-Chief of the Eighth Fleet, who was on his way south to Rabaul.<sup>168</sup> Enemy Engineering Detachments in the Marshall Islands were thought to be receiving orders for the construction of new air bases in the New Guinea-Solomons area.<sup>169</sup> Army reinforcements were still pouring into this area, and as usual most of them seemed to be coming from Davao.<sup>170</sup>

Several enemy call signs were not fully understood at this time, but some tentative identifications

22 JUN 1943

were made.<sup>171</sup> Two auxiliary ships were discovered in action; one at Soerabaja, and one at Kavieng.<sup>172</sup>

It will be remembered that indications of carrier activity had been noted previously, and on this day four carriers were practicing in the southern Kyushu area.<sup>173</sup> It was thought that a major reorganization of Japanese carrier divisions was in process, because of the great losses suffered at Midway.<sup>174</sup> Air reinforcements from the Empire were being sought for the Truk-Rabaul area, and heavy radio activity in the Marshalls area suggested that a transfer of aircraft from that area to the south was in progress.<sup>175</sup>

Submarine activity was considerably increased on this day, and some of the units noted now in southern waters were Submarine Squadrons 3, 6, 7, and 8.<sup>176</sup>

22 JUN 1943

JULY 29, 1942

An important tentative outline of the Japanese First Fleet organization was issued,<sup>177</sup> and the location of many of the enemy units was also supplied.<sup>178</sup>

Traffic analysis was the source of this information, and once again the value of such a method in the absence of cryptanalysis was demonstrated. An estimate of the location of these units was also of great value to U. S. Navy operational authorities.

Finally, the Commander-in-Chief of the Eighth Fleet arrived at Rabaul,<sup>179</sup> and it was noted that Kavieng appeared to be the new control point on the route from Truk.<sup>180</sup> It was quite evident by this time that jurisdiction over the southern territories had been divided between Commanders-in-Chief of the Fourth and Eighth Fleets.<sup>181</sup>

It seemed to be the Japanese plan to leave the Commander-in-Chief of the Fourth Fleet as Senior Officer Present in the Marianas, Caroline, Marshalls area, and to establish an entirely new sphere of command, which would be centered at Rabaul, and which

22 JUN 1943

included the New Guinea-Solomons area. This probably explained the phrase "Outside South Seas Force", which had appeared so very often in enemy traffic in the southern area during the previous week.<sup>182</sup> The Commander-in-Chief of the Combined Fleet manifested his interest in the progress of activities in the southern waters, although the area was under the direct supervision of the Commanders-in-Chief of the Fourth and Eighth Fleets.<sup>183</sup>

The southern trend of many Marus continued to be very noticeable,<sup>184</sup> and Japanese aircraft carriers were still practicing off Kyushu.<sup>185</sup> These were the signs of imminent action usually noticed by U. S. Navy Communication Intelligence before every major Japanese campaign of the war. Air reinforcements continued to come into Rabaul, and some of the new units were identified.<sup>186</sup> Doubt as to the location of the carriers SHOKAKU, and ZUIKAKU, brought a request that an estimate of their approximate positions be made, though it was believed that both of them were in home waters.<sup>187</sup> A decryption revealed that an enemy

22 JUN 1943

occupation force was in the Rabaul area, and that an offensive movement would be in operation soon, if it had not already begun.<sup>188</sup>

A disturbing incident now occurred, which if continued, might have seriously interfered with communication intelligence activities. Allied Army forces in Australia-New Guinea area were jamming one of the Japanese circuits. Although the execution of this plan was theoretically advisable, in practice it shut off an important source of intelligence.<sup>189</sup>

JULY 30, 1942

Certain types of Japanese Radio Intelligence traffic decreased on this date, but direction finder traffic increased. Normal administrative and operational traffic remained high especially in the South-east Asia areas.<sup>190</sup> It was suspected that new registered publications were to be used by enemy forces in the Rabaul area.<sup>191</sup> Though the Commander-in-Chief of the Combined Fleet continued to demonstrate his interest in the New Guinea area,<sup>192</sup> it was apparent

52 JUN 1943

that the Commander-in-Chief of the Eighth Fleet was not in sole charge.<sup>193</sup>

The Commander of Cruiser Division 18, who had been at Rabaul for some time under the cover of a different call sign, was now perceived to be the Commander of Landing and Occupation Forces in Buna and the other parts of New Guinea.<sup>194</sup> Destroyer

Squadrons 6 and 29, plus troops of the Eighth Guard Force, were known to be in the Tulagi area.<sup>195</sup>

Several warships and Marus were noted at Rabaul, and other enemy units were said to be enroute to this area.<sup>196</sup> The presence of a battleship in the New Guinea region was suspected, but there was no further confirmation of this in enemy radio traffic.<sup>197</sup>

Valuable intelligence concerning the number and course of enemy warships and Marus along the Asiatic coast was furnished to American submarines.<sup>198</sup>

A partially deciphered dispatch of June 17 confirmed

the reports of American traffic analysts, who had been issuing warnings of the strengthening of Japanese air power in the territory around Rabaul,<sup>199</sup> that new air tenders were enroute from the Empire to southern waters.<sup>200</sup> It was also disclosed that the Yokohama Air Group, a part of the Fifth Air Attack Force, was at Guadalcanal.<sup>201</sup> Despite the fact that a Japanese plane near New Britain had been heard using a submarine frequency, there was no other sign of direct communication between planes and submarines in that area.<sup>202</sup>

Associations between the Army group in New Britain and the Philippines indicated that Army reinforcements were still of major interest.<sup>203</sup> Allied planes were making reconnaissance flights, for a report of theirs, which stated that aircraft had been sighted, was intercepted by the Japanese.<sup>204</sup> An important discussion concerning the identification of Japanese Fleet units now took place between American traffic analysts, and some very important

details were contained in the dispatches relating to this discussion.<sup>205</sup>

JULY 31, 1942Part A - Messages Appearing in the Summary  
of July 31, 1942

Japanese radio activity in the Southwest Pacific was so heavy that it was believed that operations would begin very soon.<sup>206</sup> Enemy forces northwest and northeast of Australia were maintaining close liaison.<sup>207</sup> The Commander-in-Chief of the Combined Fleet originated very little traffic on this date, but it was interesting to discover that he was south of home waters.<sup>208</sup>

The Commander-in-Chief of the Fourth Fleet, who was using the cover call of Rabaul still appeared in traffic, but the Commander-in-Chief of the Eighth Fleet was much more active and maintained close touch with the Commander-in-Chief of the Combined Fleet.<sup>209</sup> Several enemy units were advancing toward the Solomons-New Guinea area, and it was noticed that the TATSUTA

---

205 - I, No. 473.  
206 - I, Nos. 474, 475.

209 - I, Nos. 479-482.

was operating independently of the other ships of  
Cruiser Division 18.<sup>210</sup>

There was a great deal of radio traffic between  
the planes and carriers exercising in Southern Empire  
waters, but no change or shift of their location was  
noticed. Furthermore, a major portion of the Japanese  
heavy units were in home waters. A great number of  
messages between the carriers and planes seemed to  
indicate that intensive training exercises, especially  
in communications, were being practiced by the great  
number of new and comparatively inexperienced fliers  
who had been assigned to the carrier groups.<sup>211</sup>  
Japanese Radio Intelligence units were very busy in  
an effort to acquire as much information as possible  
concerning the Allied forces.<sup>212</sup>

Japanese place name designators were identified  
at this time as follows: The "R" area comprises the  
Solomon Islands, New Britain Island, Gilbert Islands,  
Ellice Islands, Louisiade Archipelago and Eastern

211 - I, Nos. 492-494.

212 - I, No. 495.

22 JUN 1943

New Guinea. "RY" area contained the Gilbert Islands, Ellice Islands and areas to the South. "RX" referred to the Solomon Islands and "RZ" covered Western New Guinea as well as islands off the shore. "RE" meant New Britain.<sup>213</sup>

It appeared fairly certain that at least part of the Fourteenth Air Corps had been moved to the Rabaul-New Britain area. It was evident that the increase of enemy air strength in this region had been achieved at the expense of other districts.<sup>214</sup> Intercepted contact reports seemed to indicate that Allied units were active in southern waters.<sup>215</sup> A constant stream of weather reports proved that the enemy was taking advantage of the facilities of the world-famous Manila Observatory, which they had seized in their invasion of the Philippines.<sup>216</sup>

Japanese diplomats in Lisbon, Berlin and Rome were sending Tokyo much information about Allied ship movements and troop transfers.<sup>217</sup> An unusually

22 JUN 1943

important statement of Japan's future world strategy was issued from Tokyo. It informed Berlin that Japan's intentions were not to open hostilities with Russia unless it was forced to do so by extraordinary circumstances. It pointed out that active measures had been taken to retaliate decisively in case the Russians should take the initiative, but it insisted that it had no intentions of thwarting the effort against England and America by moving their forces to the North, and, thus, greatly extending their battle front. They definitely rejected all of Germany's proposals that Japan should open an offensive against the Russians.<sup>218</sup> Immediately, a reaction was experienced from Osima, Japan's ambassador to Germany, who was a strong supporter of the Axis, and, in addition, a fervent militarist. He informed Tokio that it was absolutely necessary to inform Germany of the outlines of Japan's strategic plan so that they might be aware of what Japan intended to do, and he stressed the need for close cooperation in the future.<sup>219</sup>

22 JUN 1943

Part B - Messages Sent Out on July 31st but  
Published in the Summary of August 1st

The Commander-in-Chief and the Chief of Staff of the Eighth Fleet were still operating under the cover of a Rabaul call sign,<sup>220</sup> and an Army Commander, who had been noticed in previous traffic, was also there.<sup>221</sup> It was observed that the Japanese Army was in constant communication with Davao and Palao, which indicated that they were still interested in obtaining reinforcements from the Philippines.<sup>222</sup>

Following several days of radio silence, which indicated that it had been engaged in operations, Cruiser Division 6 was observed at Rabaul.<sup>223</sup> An unidentified enemy Man of War left Truk and announced that it would arrive at Kavieng on August 1st.<sup>224</sup> The Commander of Cruiser Division 18 had many responsibilities, for he was also the commander of the RZJ (Buna) Occupational Force, when the Commander-

22 JUN 1943

in-Chief of the Eighth Fleet ordered him to proceed to a certain rendezvous on August 4th.<sup>225</sup>

Destroyer Divisions 3 and 17 were thought to be escorting the aircraft carriers practicing off the Kyushu area.<sup>226</sup> Destroyer Division 30, a very active unit of Destroyer Squadron 6, moved from Buna to Lae, and since it had been associated in recent weeks with the Fifth Air Attack Force under the Commander of the RZJ Occupation Force, as well as the Commander-in-Chief of the Eighth Fleet, it was evident that movements of this destroyer division were indicative of enemy operations in the Buna-Lae area. The destroyer strength of the enemy in the Rabaul area had evidently been reinforced for Destroyer Division 16 of Destroyer Squadron 2 was now there.<sup>227</sup>

Nine Marus carrying supplies were coming South from the Empire at this time,<sup>228</sup> but no radio traffic was observed from the aircraft carriers which had been practicing off Kyushu.<sup>229</sup> Urgent enemy contact

ORIGINAL  
22 JUN 1943

reports sent out by the Japanese in the Lae-Suna area were proof that Allied airplanes had been sighted.<sup>230</sup> Direction finders showed that the Commander of Submarine Squadron 3 was in the vicinity of Southeast Australia and that Submarine Squadron 6 was sailing from the Empire via Truk.<sup>231</sup>

The Bulletin issued daily by the Commander-in-Chief of the Pacific Fleet, which contained a great deal of valuable communication intelligence, stated on July 31st that there were indications of further advances in the Solomons-New Guinea area, and that Destroyer Squadron 6 and Cruiser Division 18 were still in the Solomons.<sup>232</sup>

AUGUST 1, 1942

All messages discussed after August 1, 1942, will be arranged according to time of origin. Thus, some messages which were sent on August 1st to operational authorities, but which did not appear till August 2 in the Communication Intelligence Summary, Navy Department, will be discussed under the

---

230 - I, No. 527.  
231 - I, Nos. 528, 529.  
232 - I, No. 530.

22 JUN 1943

heading of the day on which they were originated.

The Commander-in-Chief of the Eighth Fleet at Rabaul, maintained constant communication with forces he had sent to Kieta, Bougainville Island.<sup>233</sup> It was suspected that a new Japanese Operations Force, called "D", might invade western or northwestern Australia, while a Striking Force had been created to disrupt Allied supply routes from India.<sup>234</sup> A warship enroute to Rabaul was still unidentified,<sup>235</sup> but Cruiser Division 6, which only recently had been at Rabaul, was now thought to be in the Truk area.

The newly arrived Destroyer Division 6 was now assigned to Destroyer Squadron 10,<sup>236</sup> two other destroyers were escorting some Marus and a tanker in the vicinity of Saipan,<sup>237</sup> and several other Marus were seen in the Rabaul area.<sup>238</sup> Japanese Army traffic between the Philippines and the Solomons continued to be heavy. All evidence pointed to the fact that the Japanese were sending troops and supplies

22 JUN 1943

into this threatened zone in increasing numbers<sup>239</sup>  
though enemy aircraft carriers had not changed their  
positions within Empire waters.<sup>240</sup>

The Commander of Air Squadron 25 was shown to  
be at Lee and a detachment of the Yokohama Air Group  
was discovered at Truk.<sup>241</sup> Heavy traffic between  
Yokosuka and enemy aircraft factories and assembly  
plants in the western Mandates proved that further  
plane reinforcements would be shipped into the  
Rabaul area.<sup>242</sup> The probable route of the planes  
flying down into this region from the Empire indicated  
that Chichijima, Saipan, Truk and Rabaul were the  
principal control points.<sup>243</sup> A contact report  
revealed that the Japanese had sighted Allied cruisers  
and destroyers in the Solomons,<sup>244</sup> where the Fifth  
Air Attack Force carried on most of the enemy's air  
operations.<sup>245</sup> An Air Tender, formerly noticed at  
Rabaul in July, was now identified at the Lee Seaplane  
Base.<sup>246</sup>

-

  - 245 - I, No. 550
  - 246 - I, Nos. 551, 552.

22 JUN 1943

Enemy submarine traffic was rather heavy on this day for Tokyo sent weather reports to Submarine Squadron 2 near Yokosuka, and also to the Commander of Submarine Squadron 6, who was thought to be in the South Pacific. Submarine Squadron 3 was operating in eastern waters, and Submarine Squadron 7 had last been heard of at Truk. In addition to this, estimates were made of locations of other submarine units.<sup>247</sup> It was evident from some of the traffic intercepted that enemy airplanes and submarines maintained close liaison in the New Guinea area.<sup>248</sup>

AUGUST 2, 1942

The Commander in Chief of the Eighth Fleet was sending numerous messages to air commanders in his area, and the Eleventh Air Fleet seemed to be receiving most of the attention. It was thought that the office in direct charge of the Outer Area Southern Force was neither the Commander in Chief

---

247 - I, Nos. 553, 554.

248 - I, No. 555.

22 JUN 1943

of the Fourth or Eighth Fleets, but the Commander of Destroyer Squadron 6.<sup>249</sup> Most of the traffic in the Fourth Fleet area seemed to be concerned principally with the administration of bases and the movement of the supplies, though the Commander of the Fourth Fleet was thought to be at sea.<sup>250</sup>

The Fifth Special Landing Force mentioned so frequently in July dispatches was now found to be the Sasebo Fifth Special Landing Force under the jurisdiction of the Commander, Cruiser Division 18, who also was responsible for the success of the Buna Occupation Force. Other units noticed at Rabaul were a battalion of engineers and the Eighty-Second Guard Force.<sup>251</sup>

The Commander of Cruiser Division 7 was still busy in Southeastern Asia, and the Commander of the Nineteenth Division was noticed in the vicinity of the Northeastern Marshall Islands. The composition of the Nineteenth Division was unknown at this time although it was very active in the Rabaul-Tulagi

---

249 - I, Nos. 557, 558.

22 JUN 1943

area.<sup>252</sup> A Maru was enroute in the Kavieng area, and another Maru was enroute from Tulagi to Rabaul.<sup>253</sup>

Much activity marked this day in the Rabaul area, and although the Eleventh Air Group was definitely known to be in the Marshall Islands, it was very evident that a part of it had come to the Rabaul-New Britain region.<sup>254</sup> Planes from the AKAGI were operating near Palao, and a detachment of the Yokohama Flying Boat Squadron was at Guadalcanal and Tulagi.<sup>255</sup>

The Japanese announced that they had sighted one Allied battleship, two carriers, some cruisers and destroyers, and a check-up of British forces indicated that this report might have been accurate.<sup>256</sup> Submarine Squadron 3 was expected to leave the Malaya area and to put in at Kure for an overhaul. The movement of the Commander of the Submarine Force towards Malaya explained the elevation of the Commander of Submarine Squadron 3 to Force Commander

22 JUN 1942

status in the southwestern sector.<sup>257</sup>

AUGUST 2, 1942

It appeared that plans had been made to coordinate operations by Japanese Southern and Southwestern Forces.<sup>258</sup> The Commander-in-Chief of the Fourth Fleet seemed to be concerned solely with administration of his base in the Marshall-Truk area.<sup>259</sup> The First Base Force at Jaluit and the Seventh and Eighth Base Forces at Rabaul were active, but nothing unusual was observed. However, the increasing prominence of enemy movements in recent weeks in the Malaya area was worthy of comment.<sup>260</sup>

The identification of some unciphered call signs revealed that the designator PY meant Jaluit, and that PX referred to the Marshall Islands.<sup>261</sup> However, there were still some unidentified call signs. It was noticed that the YUBARI and Destroyer Division 16 attempted to conceal their identity under the call sign NATE 1, as did several other units.<sup>262</sup> Three other call signs which occasioned

22 JUN 1943

comment were known to have originated from Kavieng, and tentative identifications were made.<sup>263</sup> A new Japanese Fleet was discovered at Maizuru and it was thought to be enroute to the South.<sup>264</sup>

The Japanese seemed to be planning an attack upon the Nauru and Ocean Islands from the north and west simultaneously. Three enemy tankers were heard in the Ambon area, and the Air Squadron 11 was thought to be in the Marshall Islands.<sup>265</sup> Sudden activity in the Bunge Channel suggested that the aircraft carriers which had been practicing in the Kyushu area were now returning to the Empire. Destroyer Squadron 10 had been engaged in escorting the carriers, and its strengthening by the addition of Destroyer Division 16 led to the assumption that new duties for future carrier operations would soon be assigned to them.<sup>266</sup> Destroyer Division 16 was escorting the SUZUYA in the South Pacific from the Empire, while one destroyer of Destroyer Division 30

22 JUN 1943

was found at Singapore and another at Truk.<sup>267</sup>

The KAKO of Cruiser Division 6 was thought to be in the general area of Kavieng,<sup>268</sup> the NAFUTO MARU arrived at Lae, and another ship, tentatively known as either a tender or a hospital ship, was enroute to Rabaul.<sup>269</sup> The Yokosuka Air Station was sending a new air group to Rabaul, a detachment of the Fourteenth Air Corps was operating with the Yokohama Air Group at Tulagi, while the Tenian Air Group was at Lae.<sup>270</sup>

An estimate of the position of Japanese submarines disclosed that the Commander of the Submarine Force was enroute from Yokosuka to Jaluit, and that Submarine Squadron 1 had two divisions in the Empire, and one division in the Eighth Fleet area; one unit of Submarine Squadron 2 was near Kiska, four were in the Empire, and one near Saipan; Submarine Squadron 3 controlled one and a half divisions in the Eighth Fleet area, and one and a

22 JUN 1943

to Sasebo.<sup>275</sup> Movements of ships from Rabaul to the Netherlands East Indies, or vice versa, by way of Northern New Guinea were indicated at this time.<sup>276</sup>

Traffic analysis disclosed that a very important security measure had been adopted by the Japanese. Service call "MATE 1" which had been first noticed on August 1 was now considered to be a call similar to the "NEPK" used by the United States Navy. The use of this method of concealing the originator was only one of the many secret measures adopted by the Japanese after the publicity concerning the success of United States Naval Communication Intelligence at Midway had received widespread attention.<sup>277</sup>

The One Hundred and Eighth Air Group and the Eleventh Pioneer Forces were known to be at Lunga,<sup>278</sup> and many Marus were either in, or enroute, to the Rabaul area.<sup>279</sup> The repair ship AKASHI, having made the SUZUYA ready for action, was now returning to

22 JUN 1943

Kure,<sup>280</sup> and the WARUTO MARU was also departing from this region, accompanied by the AKIKAZI.<sup>281</sup>

Although a great reduction had been noticed in carrier aircraft traffic during the preceding two weeks, the activity of Destroyer Squadron 10 had increased considerably. This suggested that more destroyer guards were being acquired previous to the beginning of a new operation.<sup>282</sup> A reorganization of carrier divisions left the ZUIKAKU, SHOKAKU and ZUIMO in Carrier Division 1, and the RYUJO, HIYATAKA and HITAKI plus three plane groups from the AKAGI and SORYU, and an unidentified ship in Carrier Division 2. The HOSHIO and the KASUGA MARU were not identified definitely with either Carrier Division 1 or 2.<sup>283</sup>

An estimation of the location of some Japanese air units found a detachment of the Chief of the Air Group at Gasmata, the Commander of the Tainan Air Group at Lae, and the Commander of the Yokohama Air Group at Tulagi.<sup>284</sup> The Eleventh Air Fleet seemed about

22 JUN 1943

to change its headquarters from Tenian prior to the commencement of new operations,<sup>285</sup> and a section of the Sixth Air Attack Force was enroute to Rabaul in company with an air tender.<sup>286</sup> Enemy convoys in the Penang, Singapore and Kamranh Bay areas were being protected by air escorts,<sup>287</sup> and enemy aircraft were patrolling the Ocean Island sector.<sup>288</sup> However, Allied planes were just as busy, for the enemy sent a contact report announcing that three Allied planes were sighted over Tulagi.<sup>289</sup> It was presumed that the Commander of the Japanese Submarine Forces was still in the Malay area for he was receiving traffic via Jaluit.<sup>290</sup>

A summary of the position of Japanese units mentioned in the regular traffic of this period disclosed, among other things, that Cruiser Division 6 was believed to be in the New Britain-Solomons area, as was the TENRYU and TATSUTA of Cruiser Division 18.

22 JUN 1943

This was important intelligence for it indicated that considerable enemy cruiser strength was available to operate as a striking force at any moment deemed opportune.

In the light of these and other dispatches sent prior to the Battle of Savo Island, it is evident that sufficient warning had been given of the presence of the cruisers which were eventually to inflict tremendous damage on the Allied screening forces at Savo Island on August 8-9.<sup>291</sup>

Traffic in the Marshall Islands and the Eighth Fleet area was confined to administrative, rather than operational messages.<sup>292</sup> Another important communication security measure of the Japanese took place at 0000, August 5, when all their major commands and shore radio call signs were changed.<sup>293</sup> The Bulletin, issued by the Commander-in-Chief, Pacific Fleet to all his subordinate task force commanders on August 4, stated in part that

... "Crudiv 6, Crudiv 18, and Desron 6 remain New Britain-Solomons Area" ...<sup>294</sup>

AUGUST 5, 1942

The missing part (2) of the message from Tokyo to Osima in Berlin was now made available. It spoke of the necessity of making tremendous efforts to destroy the influence of Chungking, which was the center of Anglo-Saxon activities against Japan everywhere throughout East Asia. The Japanese Empire was going to continue her fight to make Great Britain come to her knees, but in spite of glorious victories so far, the resistance of the United States, the ally of Great Britain, was still formidable. Not only would the Japanese have to fight the United States harder than ever, but there was also a question of the procurement and use of the raw materials in the Southeast area.<sup>295</sup> Von Ribbentrop's comment on this message, as forwarded to Tokyo by Ambassador Osima, was that the Japanese government had to decide for herself in this situation, and that Germany was in no position to say anything. However, he seemed worried about the question of Japanese joint warfare with its two Allies, and Osima

---

295 - I, No. 641.

22 JUN 1943

had to reassure him that Japan was using every available ways and means to bring the war to a victorious conclusion, and that she was determined to continue to so do.<sup>296</sup>

There was nothing unusual noted in the Fourth and Eighth Fleet areas at this time, though the movements of construction and aircraft supplies still continued.<sup>297</sup> Enemy units which had been associated with the "D" Operations Force were active in the Southwest Pacific.<sup>298</sup>

Very important intelligence was issued which stated that the CHOKAI and AOBA were at sea in the Rabaul area. Since the CHOKAI was the flagship of the Commander-in-Chief, Eighth Fleet, it was thought that some important Japanese operations were about to take place. Radio silence appeared to be maintained by some of the units of the Commander-in-Chief, Eighth Fleet, because traffic in his area was very much below par in volume.<sup>299</sup>

---

296 - I, No. 642.  
297 - I, No. 643.  
298 - I, No. 645.  
299 - I, Nos, 646, 647.

22 JUN 1943

A review of enemy radio traffic indicated that the Commander-in-Chief First Air Fleet was subordinate only to Commander-in-Chief Combined Fleet, and that, in addition to his usual chain of command, which included Cruiser Division 7 and 8, many units of Destroyer Squadrons 2 and 10 reported to him. Thus, it was assumed that the Commander-in-Chief, First Air Fleet, instead of the Commander-in-Chief, Second Fleet, would command future enemy striking forces wherever major fleets were involved.<sup>300</sup>

Destroyer Division 30 and Destroyer Squadron 6, together with Destroyer Division 8 in Destroyer Squadron 4, were in the vicinity of Truk, and Destroyer Division 16 of Destroyer Squadron 2, which had been at Rabaul, was escorting the SUZUYA from Truk to the Empire.<sup>301</sup> There were many Marus as usual sailing the route from the Empire to the Truk-Rabaul area,<sup>302</sup> and tankers were proceeding from Tokoyama to Jaluit via Caichijima and Saipan, escorted by units of Destroyer Squadron 4 for at least part of the way.<sup>303</sup>

301 - I, Nos. 649-652.  
302 - I, Nos. 653-658.  
303 - I, No. 659.

22 JUN 1943

Radio traffic between Yokosuka Aircraft Factory and assembly plants at Saipan, Ruetto and Truk indicated that a continuous flow of aviation materiel and replacements was coming from the Empire.<sup>304</sup> An air group of the Fourth Air Attack Force was searching for Allied submarines in the vicinity of Ocean Island,<sup>305</sup> and the Fifth Air Attack Force at Rabaul was also patrolling certain sectors.<sup>306</sup> Two enemy seaplanes from Rabaul reinforced the air units at Tulagi.<sup>307</sup>

A compromise of certain enciphered Japanese call signs located several enemy units in the New Britain-Guadalcanal area.<sup>308</sup> Submarine Squadron 6 was believed to be proceeding to the New Guinea-New Britain area, and a Maru subtender of Submarine Squadron 3 was about to move from Jaluit to Truk.<sup>309</sup>

AUGUST 6, 1942

There were many routine enemy reports intercepted on August 6, but the messages announcing the

  - 309 - I, Nos. 668-678.

22 JUN 1943

arrival of American forces in the Solomons and the beginning of the assault on Guadalcanal were received in the evening of August 6. The difference in time between Washington, D. C. and the South Pacific made it possible to receive on August 6, messages from Guadalcanal, which had been sent on the morning of August 7. The routine reports will be discussed first.

The Chief of Staff of the Oki Army Detachment was discovered at Rabaul,<sup>310</sup> and the Man-of-War NTEU 9, formerly reported as enroute from Truk, also arrived there.<sup>311</sup> The possibility existed that a battleship was about to move South,<sup>312</sup> but the actual sea strength of the Japanese in the South Pacific consisted of their Cruiser Divisions, which were at sea in the Rabaul area at this time. It should be noticed once more that warning was given here that the CHOKAI, Flagship of the Commander-in-Chief of the Eighth Fleet, and Cruiser Division 6 were at sea in the Rabaul area.<sup>313</sup>

312 - I, No. 674.  
313 - I, Nos. 675, 676.

22 JUN 1943

Destroyer Division 4 of the Destroyer Squadron 10 was near Saipan, and a unit of Destroyer Squadron 2 was south of Truk.<sup>314</sup> Several Marus arrived at Truk,<sup>315</sup> two others were observed in the Rabaul area, and a convoy destined for the South Pacific was forming in Yokohama.<sup>316</sup> A battalion of construction engineers was associated with the Sasebo Special Landing Force in the Rabaul area, which was still another indication that the enemy was making every effort to build air bases in that area.<sup>317</sup>

Air reinforcements for the Sixth Air Attack Forces were sailing via Truk for service at Tulagi.<sup>318</sup> The reorganized Carrier Divisions 1 and 2 had replaced the former Carrier Divisions 4 and 5 under the jurisdiction of the Commander of the First Air Fleet.<sup>319</sup> Radio traffic to the Yokosuka Aircraft Factory from the First Air Fleet bombers at their base in Tarao indicated that reports of defects or requests for immediate replacements were being made.<sup>320</sup> The Fifth

22 JUN 1943

Air Attack Force which was responsible for the defense of the New Britain territory originated most of the traffic on this day.<sup>321</sup>

The destroyers AKIKAZE and NOBE 4 were in the vicinity of Rabaul,<sup>322</sup> the KAMOI, a seaplane tender, was in the Marshall Islands,<sup>323</sup> and though the ZUIKAKU and SHOKAKU seemed to be operating in company, they were not in the South Pacific.<sup>324</sup>

An estimate of the location of other units revealed that the Tainan Air Group was at Lae, the First Air Group was at Taroa (Marshall Islands), the Fourth Air Group was in the Solomons-New Guinea area, and the Commander of the Japanese Submarine Force was still at sea in the Malay area.<sup>325</sup>

There were several enemy contact reports of "aircraft sighted" from Lae on the afternoon of August 6 at 1300, 1600, and 2212. With the exception of these contact reports, there was no unusual activity in any Japanese area up to 2000, August 6.

- 
- 321 - I, No. 691.
  - 322 - I, No. 692.
  - 323 - I, No. 693.
  - 324 - I, No. 694.
  - 325 - I, Nos. 695, 696.

However, at 0435 (-9), August 7, Japanese radio stations at Tulagi began issuing urgent operational dispatches, which stated that an Allied striking force of twenty ships was attacking the base. A report at 0700 (-9) announced "Enemy landing in progress".<sup>326</sup> These were all the enemy operational reports available on August 6, but many more were intercepted on August 7.

The Bulletin issued by the Commander-in-Chief of the Pacific Fleet for August 6 announced that Cruiser Division 6 was in the Rabaul Area, Cruiser Division 18 was in the Solomons, and the CHOKAI was in the New Britain area.<sup>327</sup> It is evident that sufficient warning had been given of the presence of these dangerous ships in the area in which Allied forces were to operate.

#### AUGUST 7, 1942

Many enemy operational reports were intercepted on August 7, for American forces were landing in the Solomons. Before the operations began, United States Naval Communication Intelligence had supplied much

---

326 - I, Nos. 701-703.

327 - I, No. 704.

22 JUN 1943

valuable intelligence concerning the enemy units  
 present in the Japanese Islands. Commanding Officer  
 Sherman, Commanding Officer of the 1st AF, was  
 had taken an active part in the action at Guadal-  
 canal. He is mentioned in an official report on  
 August 14, 1942, to the Commanding Officer, Pacific  
 Fleet via Commander of Task Force 18 that, in  
 addition to the work of his own Air Intelligence  
 Officers:

"Supplementary radio intelligence  
 and the results of the sabotage and  
 reconnaissance on August 7, 1942, with  
 the possible help of 11/10. With the  
 aid of this information it may possibly be expected  
 in the course of the action held by the  
 enemy." (P. 1, AIG-1(3)/CV 7, Rev. Ed. 1/11)

Japanese listening troops surprised the J forces  
 at Guadalcanal completely for no contact was  
 maintained by the enemy until the normal attack on  
 Guadalcanal and Bougainville had begun. Then, the Japanese  
 radio station at Bougainville began transmitting urgent  
 operational messages, and so began the Japanese  
 campaign which was to lead to some of the nation's  
 most important sea battles in World War II. United  
 States Naval Communications Intelligence was able to  
 inform our island authorities of many facts concerning

22 JUN 1943

the battles, which otherwise would never have been known, or would have been very much delayed in transmission.

Many Japanese routine messages were intercepted on this day in addition to operational dispatches. Therefore, the messages have been divided into two categories - Part A - Operational Messages, and Part B - Routine Messages.

#### Part A - Operational Messages

Enemy radio traffic on August 7 came almost exclusively from the Eighth Fleet area. The Japanese sent word that "All enemy ships have commenced firing. Landing operations begun."<sup>328</sup> As the hours passed, the enemy reported that there was no decrease in the intensity of Allied heavy bombing attacks, and a Japanese estimate of the Allied forces disclosed that they thought that there was one battleship, three light or heavy cruisers, fifteen destroyers, and a number of merchant ships assigned to landing forces.<sup>329</sup>

---

328 - I, No. 705.

329 - I, Nos. 706-710.

The Tulagi radio station went off the air early in the morning on August 7 and remained silent from that time, which indicated that American forces were having some success.<sup>330</sup> Warning that Allied forces had attacked Tulagi was sent by the Japanese Fourth Fleet to the Marshall Islands,<sup>331</sup> and enemy Radio Intelligence was on the alert for it announced that the call signs of the Allied striking forces had been intercepted.<sup>332</sup>

Aircraft contact reports were issued frequently by the Japanese<sup>333</sup> who were sending out their bombers and fighter planes to destroy the raiding Allied forces. Eighteen Zeros and seventeen bombers were among the enemy air groups sent into action in the Tulagi area.<sup>334</sup> The Sixth Air Attack Force which also had been ordered into action was requesting plane reinforcements from Rabaul.<sup>335</sup> Meanwhile, planes from the Misawa Air Group were proceeding to

-

22 JUN 1943

Rabaul.<sup>336</sup> Both the Fourth and Fifth Air Attack Forces were patrolling certain sectors of the Solomon Islands at this time,<sup>337</sup> when an air raid at an unknown position was announced.<sup>338</sup> No doubt existed that enemy carriers were not present in the Solomon Islands, but, undoubtedly, communication liaison was in progress between enemy air units and enemy submarines.<sup>339</sup>

Despite the fact that no enemy carriers were noticed in the Solomon Islands radio traffic, a United States Army plane reported the sighting of what appeared to be a carrier.<sup>340</sup> It was thought that the plane had sighted the KASUGA MARU or a sister ship. These were converted Marus with flight decks which had been used to date only for the ferrying of planes, and not as combatant carriers.<sup>341</sup>

An analysis of the Japanese counter measures to the Allied attack disclosed that Submarine Squadron 3 and the Fifth Air Attack Force had been

340 - I, No. 733.  
341 - I, No. 734.

22 JUN 1942

the principal agents of the defense.<sup>342</sup> The Commander of Submarine Squadron 3 was acting as Commander of the Southeastern Submarine Force and heavy traffic to two of his submarines indicated that they were being ordered to attack the United States Task Forces.<sup>343</sup> Submarine reinforcements were leaving the Empire to proceed to the South Pacific,<sup>344</sup> for two divisions of Submarine Squadron 3 were ordered to Tulagi as was Submarine Squadron 7, whose previous orders had been cancelled because of the emergency at Guadalcanal.<sup>345</sup> Direction finder bearings located other enemy submarines in North-eastern Australian waters and in the Gilbert Islands.<sup>346</sup>

Immediately after the attack on Guadalcanal, the Commander-in-Chief of the Combined Fleet issued a series of dispatches to all his major commanders in the South Pacific,<sup>347</sup> who ordered Cruiser Division 5 and several destroyer units to the Southeast.<sup>348</sup>

- 
- 342 - I, No. 735.
  - 343 - I, No. 736-738.
  - 344 - I, No. 739-742.

  - 346 - I, No. 744.
  - 347 - I, Nos. 746-748.
  - 348 - I, No. 749.

22 JUN 1943

It was believed that Cruiser Division 6 and the CHOKAI were not at Rabaul, and this important information was made available to operation authorities.<sup>349</sup>

The light cruiser TATSUTA was noticed in the vicinity of Rabaul, as was an unidentified warship which was escorting a Maru to that base.<sup>350</sup>

It was believed that Destroyer Division 17 and Destroyer Squadron 10 were soon to report to the Commander-in-Chief Eighth Fleet for duty.<sup>351</sup> Rabaul was the center of activity on this day, because Cruiser Division 6 was notified that it was to pick up supplies at this port, to which many merchant ships were ordered to proceed.<sup>352</sup>

It is regrettable that one dispatch intercepted on this day was undecipherable until August 23, 1942. If the intelligence it contained had been known in time by United States operational authorities, it seems most probable that the disaster of Savo Island on August 8-9 would have been definitely avoided. As early as August 4, several warnings had

---

349 - I, No. 750.  
350 - I, Nos. 751, 752.  
351 - I, No. 753.  
352 - I, Nos. 754, 755.

22 JUN 1943

been issued that enemy cruisers were no longer at Rabaul and were probably at sea somewhere in the New Britain area. But the message sent by the Commander-in-Chief Eighth Fleet at 0800 on August 7 stated that at 1300 on this day, the CHOKAI, Cruiser Division 18 and another unidentified unit would depart from Rabaul and rendezvous with Cruiser Division 6 in the vicinity of Bougainville, and would then proceed to Guadalcanal where subsequent operations against an enemy convoy would be based on reconnaissance reports.<sup>353</sup>

#### Part B - Routine Messages

A conversation between the Japanese and German ambassadors was now reported to Tokyo, which indicated that the Germans were anxious to kill any rumors which might have reached the Japanese concerning a treaty of peace between Germany and Russia. The Germans also took this opportunity to point out that many advantages would accrue, if Japan were to attack Russia at this time.<sup>354</sup> Though there was no sign of the Russians waging war against them, the Japanese were not

---

<sup>354</sup> = I, No: 756:

RIP 102

22 JUN 1943

unmindful of the fact that Russia was a bitter enemy and, therefore, kept close watch on Soviet Naval activities in Vladivostok.<sup>355</sup>

A large amount of enemy shipping was available in the Marshall-Truk and Rabaul areas, and dozens of Marus were plying sea lanes between the Empire and the South Pacific.<sup>356</sup> Engineering units were being sent into the South Pacific to construct enemy bases,<sup>357</sup> and a tanker and a hospital ship were also noticed enroute to the South.<sup>358</sup> It was thought that the Commander of the First Fleet was aboard the SHOKAKU, and it was noticed that the ZUIHO was not associated with Carrier Division 1.<sup>359</sup>

A sub tender announced that it would arrive at Truk after the thirteenth, which indicated further activity by enemy submarine forces in the Solomons area.<sup>360</sup> No submarines were heard at this time, other

RIP 102

Pacific.<sup>364</sup> The Commander-in-Chief of the Fourth Fleet, who had been actively concerned in recent operations in the Rabaul-Solomon Islands area, seemed to be assuming the duties of commanding officer in the Outer South Seas area.<sup>365</sup>

The Chief of Staff and Operations Officer of the Japanese Fifth Fleet were believed to be at or near Kiska, but after 2000 August 8th, the Aleutians Occupation Force Commander took charge of that area.<sup>366</sup> An urgent contact report from the light cruiser TATSUTA operating in the New Britain-New Guinea area possibly indicated that it was being attacked by Allied aircraft.<sup>367</sup> Destroyer Division 17 and 34, and Destroyer Division 27 of Destroyer Squadron 1; Destroyer Division 4 of Destroyer Squadron 10; and Destroyer Division 9 of Destroyer Squadron 1 were ordered south to reinforce the Japanese South Pacific Fleets.<sup>368</sup> Enemy radio traffic in the Tulagi area

continued to be very voluminous and seemed to consist principally of intelligence reports.

The Commander at Saipan was in communication with the Commander of the Seventeenth Army at Rabaul, while the Commander of the Aoba Detachment at Davao was in touch with the Oki Detachment at Rabaul.<sup>369</sup> The Commander-in-Chief of the Eighth Fleet issued orders to Special Landing Forces, which indicated that reinforcements were to be sent to the besieged Japanese units on the Solomon Islands.<sup>370</sup> The Japanese were now reforming their patrol lines in Empire waters for they were very much concerned about the possibility of an attack on the Homeland by an Allied Striking Force.<sup>371</sup> An urgent operational report from Kiska indicated that the attack of the Allied Forces in that area was in progress. The enemy reported that five American cruisers, one carrier and three destroyers bombed Kiska Island for about thirty minutes and then retired.<sup>372</sup>

Enemy Radio Intelligence was still active,

22 JUN 1943

for it reported hearing signals from the Commander of the Allied Striking Force.<sup>373</sup> Destroyer Division 29 in the Tulagi-Rabaul area announced that an Allied air raid was taking place in an unidentified spot.<sup>374</sup> Destroyer Squadrons 2 and 4 and parts of Destroyer Squadron 1 were noticed to be associated in radio communication with the Eighth Fleet, and Destroyer Division 29 of Destroyer Squadron 6 was observed at Rabaul, while Destroyer Division 30 was near Truk.<sup>375</sup> The Commander of the Tainan Air Group was now at Rabaul, and the air unit RITI 6 was thought to be at the New Guinea Air Base.<sup>376</sup>

No enemy carriers were associated with either the southern or northern forces on August 8th, although warning was issued that they might accompany Destroyer Division 17 from the Empire to Rabaul.<sup>377</sup> The AKIKAZE was active as an integral part of the Fifth Air Attack Force which was responsible for the defense of the Rabaul-Solomons area.<sup>378</sup>

377 - I, Nos. 802, 803.  
378 - I, Nos. 804, 805.

22 JUN 1943

The Commander of the Fifth Air Attack Force estimated his available strength for August 8th in a partially decipherable message as follows: 21 bombers at Vanakanau; between 10 and 20 fighters on an airfield near Rabaul, and some other planes at the Rabaul-Bougainville area.<sup>379</sup> Furthermore, additional planes were flying into Vanakanu to help repel the Allied invasion.<sup>380</sup>

Nine enemy bombers had arrived at Lse on August 7th, and the Fourth Air Group was operating with the Tainan Air Group.<sup>381</sup> The air unit RITI 6, of the Sixth Air Attack Force, had disembarked somewhere in New Guinea, possibly at Lse. It was thought that the Sixth Air Attack Force, which had been in constant touch with Rabaul just prior to the attack on Kiska, would furnish additional air reinforcements for the Fifth Air Attack Force.<sup>382</sup> The Commander of Air Squadron 25 was very active at this time and was associated with Air Squadrons 22, 23, 24 and 26. Since Air Squadron 26 was associated with the Eighth Fleet, it was thought

22 JUN 1943

that additional air strength in the Tulagi area was to be furnished by these squadrons.<sup>383</sup>

Enemy operational orders commanding the Fifth Air Attack Force to attack the American Occupation Force at Tulagi were now intercepted.<sup>384</sup> Other air units were ordered to proceed to Rabaul to participate in coming attacks.<sup>385</sup> American seaplanes were sighted at Lae on August 8th at 1700, according to an intercepted enemy contact report.<sup>386</sup> The bombing of Vanakanau by thirteen Flying Fortresses made necessary the curtailment of enemy air protection usually given to their convoys.<sup>387</sup>

It was suspected that the Commander Tainan Air, the Commander Fifth Air Attack Force, the Commander Air Squadron 25 and an air unit of the Sixth Attack Force were all using the same radio guard ship.<sup>388</sup> Evidence that enemy Radio Intelligence units were on the alert continued to pour in.<sup>389</sup>

  - 387 - I, No. 821.
  - 388 - I, No. 822.
  - 389 - I, Nos. 823, 824.

An increased volume of submarine traffic in the Eighth Fleet's operating area indicated that every effort was being made by the enemy to intercept United States Task and Occupation Forces.

The Commander of Submarine Squadron 3 was the most active, but the Commander of Submarine Squadron 7 had the responsibility of gathering together the remaining submarines in the Mandates to augment the forces of Submarine Squadron 3 in the New Britain area.<sup>390</sup> A unit of Submarine Squadron 3 was ordered to attack an Allied carrier, and it was evident from the heavy radio traffic that other Japanese submarines were in advantageous positions to attack Allied ships.<sup>391</sup> Many units of Submarine Squadrons 6 and 8, in addition to those of 3 and 7, were being ordered into the Solomon Islands region.<sup>392</sup> Some submarines, heretofore in the Aleutians, and a subtender, which had been at Jaluit, were now available at Truk.<sup>393</sup>

District on August 8, 1942, stated in part that:

...Commander in Chief 8th Fleet on 7 August shifted back aboard his flagship "Unidentified" from Rabaul and commenced originating under "NATE 1" concealment. ...Comcrudiv 6 and 18 were addressed in most headings and Comcrudiv 6 was found masquerading under the "NATE 1" cover. The only hint as to location was the inclusion of Kavieng Base (OA 6) in the headings of this dispatch. ...

(Pg. 2, Morning)<sup>394</sup>

Attempts to place him aboard a known vessel were still unsuccessful; the CHOKAI not having sent many intercepted traffic since May. ...

An item in the Evening Summary stated:

"Crudiv 6 and 18 were addressed. No indications as to their exact locations at the present time". (Pg. 3, Evening)<sup>395</sup>

The Fleet Intelligence Summary issued by the Commander-in-Chief, U. S. Pacific Fleet, on August 8, 1942 stated that:

As was to be expected, the primary interest of ORANGE was in his force in the Bismark and Kiska areas, and primary activity concerned tactical distribution of the forces in these two areas. In both places, except for movements of Crudiv 6 and 18 in the former area, ORANGE was dependent entirely on aircraft and submarines.<sup>396</sup>

22 JUN 1943

RIP 102

Part B - Routine Messages

The cruiser SUZUYA and the repair ship AKASHI were to be escorted to the Empire by Destroyer Division RIYA 77 and a unit of Destroyer Squadron 4.<sup>497</sup> The Seventh Base Force, which formerly had been at Chichijima was now at Rabaul, together with the Commander of the Thirty-Fifth Brigade.<sup>398</sup> A great number of Marus were bringing in supplies for the air units in the Solomons,<sup>399</sup> and two fleet tankers were noticed in the vicinity of Truk.<sup>400</sup>

AUGUST 9, 1942

Very little cryptanalysis was being done on enemy messages during this period, so most of the burden of supplying intelligence concerning enemy operations fell to traffic analysis. Consequently, though many important details of the enemy's plans were made available, there were many things left undiscovered.

An enemy contact report of this day stated that four Allied warships and a number of transports had been sighted between Tulagi and Guadalcanal.

- 
- 397 - I, No. 842.
  - 398 - I, Nos. 843-844.
  - 399 - I, Nos. 845-849.
  - 400 - I, Nos. 850-852.

22 JUN 1943

Allied aircraft were also sighted.<sup>401</sup> An operational message from the Chief of Staff of the Eighth Fleet disclosed what was believed to be the approximate location of the CHOKAI in the South Pacific.<sup>402</sup> Rabaul was forwarding messages to the Chief of Staff of the Eighth Fleet, which was a positive indication that the Commander-in-Chief and the Chief of Staff of the Eighth Fleet were no longer in that port. Warning had been sent as early as August 5th that CHOKAI and AOBA were possibly at sea, and it had been presumed that the Commander-in-Chief of the Eighth Fleet was aboard the CHOKAI.<sup>403</sup>

The Commander-in-Chief of the Eighth Fleet kept in close touch with the Commander-in-Chief of the Combined Fleet, while directing operations in the Tulagi area.<sup>404</sup> Japanese traffic on this day seemed to be centered on Radio Intelligence,<sup>405</sup> and it was evident that the Japanese were observing communication security measures, for Rabaul was issuing operational

messages without giving a specific address.<sup>406</sup> Two unidentified men-of-war were in the Rabaul area, and further reinforcements were considered probable, for it was believed the Cruiser Division 7 would be ordered to return from Malaya.<sup>407</sup> Other enemy warships were enroute to the south, and among them were noticed Destroyer Division 4 and two fleet tankers.<sup>408</sup> Fragmentary decipherment of an enemy message disclosed that the Japanese were planning a movement to Guadalcanal.<sup>409</sup>

Aircraft supplies were being shipped to all air units in the southern waters, and the Mandates were especially active since they were supplying reinforcements directly to the threatened zones. The AKIKAZE, which had been assigned to the Fifth Air Attack Commander to carry supplies in his area, went from Rabaul to a place in the vicinity of Bougainville.<sup>410</sup>

Communication arrangements were made for the planes flying from the Empire to the Marshall Islands,<sup>411</sup>

a new Fourth Fleet unit (NETU 99), a Fleet Tender, units of Destroyer Division (KUSE 9), and the Commander of a Destroyer Division of Destroyer Squadron 6.<sup>422</sup> It was also confirmed that the Commander-in-Chief of the Eighth Fleet was aboard the CHOKAI.<sup>423</sup>

The Bulletin issued by the Commander-in-Chief of the Pacific Fleet for 090119 August, stated in part:

Part of 6th Attack Group in New Britain. Indications Desron 6 has one Desdiv in Rabaul area, and another vicinity of Truk. ... Cinc 8th Fleet aboard flagship CHOKAI probably in Solomons area. Cinc Fourth Fleet at Rabaul. CruDiv 5 plus DesDivs may proceed Solomons from Homeland.<sup>424</sup>

This ends the information supplied by U. S. Naval Communication Intelligence from July 1, 1942 to August 9, 1942. It helped a great deal to prepare the way for the invasion of the Solomon Islands, but as stated above, it could shed little light on the Battle of Savo Island until sometime later. However, Communication Intelligence was to take a very active part in succeeding battles of the Solomon Islands campaign, and further details will be given in succeeding volumes of this series.

APPENDIX IBackground of the Landing on Guadalcanal Island  
and the Battle of Savo Island.JULY 1, 1942

Our story begins as far back as July 1, 1942 when U. S. Naval Communication Intelligence reported that there was much Japanese activity going on in the hitherto obscure Solomons Islands:

No. 1

RO (tentative Kavieng) becoming noticeably active in dispatch headings. One dispatch originated Cinc 4th (MERE 9) at 1520 29th to SOTU 935 (Collective for 4th Fleet), Info: To enciphered address Lieut. Comdr. Nomura at RO. HAKO 9 Maru at RO. Cinc Combined Flt. (HOKE 6), KORI 3 Escort Unit? and MUTIN (Tokio) may concern transportation movements to or from Kavieng. (BEL-300735-TI)

It was commented:

RO is not a Kana character but Roman letters "R" and "O". This would

JULY 1, 1942 (Continued)

No. 1 (Cont.)

make RO an area designator, and is  
questionably Ovan (Solomons Islands).  
(Summary, 010600, July, No. 39)<sup>1</sup>

-----

- 
- 1 - Summaries of operational intelligence derived from enemy communications are issued twice daily by U. S. Communication Intelligence, Navy Department, Washington, D.C. for the use of Cominch. Similar bulletins are issued by field units at Pearl Harbor for Cincpac, and in Australia to General McArthur and Cinc 7th Fleet (formerly Comsowespac). Messages of July, 1942 have been classified under the date of publication in the C. I. Summaries, but beginning with those of August 1, 1942 all messages are classified according to time of origin.

22 JUN 1943

JULY 2, 1942

Definite indications of the presence of at least fifteen warships and a dozen transports in the South Pacific demonstrated that the enemy was busy making elaborate preparations to erect an impregnable barrier across the Allies' supply lines to Australia. Heavily fortified bases in the Solomons would have provided excellent bases for attacks against Australia.

No. 2

Our latest analysis show Escort Force includes at least 15 Fleet units in four division plus minimum of 10 to 12 Marus. (COM14-012206-TI)  
(Summary, 020600, July, Pg. 11, No. 37)

No. 3

Indications are that increased activity in Tulagi area is expected shortly.  
(Cincpac - 020215-Bull.109)  
(Summary, 020600, July, Pg.11, No. 38)

-----

22 JUN 1943

JULY 3, 1942

Important operations evidently were afoot in the Rabaul area, and due notice was taken of the wide distribution of a certain dispatch:

No. 4

Rabaul Base Force WAKO 1 again active, originating apparent directives to TOE 8 Collective all units Rabaul Area(?) Comdr. 82nd Guard Force MIRO 7 in Rabaul Area originated long operational type dispatch at 0530, 1st, to Rabaul Base Force WAKO 1; info Comairron 25 NIRA 6. This apparently concerns important operations in view wide distribution later given this dispatch. (BEL 020752-T.I.)

It was remarked:

Airron 25 appears to be in Rabaul Area.  
(Summary, 030600, July, Pg. 7, No. 20)

Orders to a Special Landing Force were proof that some operation was about to occur:

No. 5

Secretary 4th Fleet, at 1330 on 2 July, addressed 82nd Guard Force (MIRO 7), info 8th Base Force. At 0800 on 2 July, the Guard Force Comdr. addressed 8th Base Force, info Chief of Staff 4th Fleet and enciphered Sasebo 5th Special Landing Force Commander. (COM14 022008-TI)

JULY 3, 1942 (Continued)

No. 5 (Cont.)

It was observed:

Bel TI on 18 June stated: "Sasebo 5th Special Landing Force which was apparently a unit of the Midway Force may be the section destined to proceed to Rabaul."

(Summary, 030600, July, Pg. 7, No. 21)

It seemed clear by now that the 8th Base Force and the 5th Air Attack Corps of the Japanese were concerned in the movement towards Tulagi via Rabaul:

No. 6

Noted that Tulagi (HANI 6) is becoming more active in association 8th Base Force. Both this Base Force and 5th Air Attack Corps frequently addressed by Air Units. (COM14-021938-TI)  
(Summary, 030600, July, Pg. 7, No. 22)

*TI Summary  
2 Jul*

No. 7

JULY 6, 1942

22 JUN 1943

It will be observed that much of the information gathered in this pre-invasion period was derived from analysis of Japanese radio traffic. Much valuable information was obtained merely by studying the origin and destination of important dispatches. All the following messages pointed to impending activity:

No. 14

*77 Summary  
received 5 July*

Cinc 2nd persistent dispatches to Marus indicates logistic preparations for Campaign in distant waters. (COM 14 060600-TI) (Summary, 060600, July, No. 26)

No. 15

Traffic routing indicates Maru tanker KOME 5 and Naval auxiliary WAFU  $\emptyset$  enroute Saipan to Truk.

It was remarked:

Maru tanker KOME 5 was associated in traffic with Yokosuka Landing Force, BRAZIL MARU (RESE 6), two Marus (EI 5 and MARO 7), Comdesrons 2 and 4, Chichijima and Saipan Base Forces on 27 June. July 4th, KOME 5 originated a dispatch to Chief of Staff 2nd Fleet, information to 4th and

22 JUN 1943

JULY 6, 1942 (Continued)No. 15 (Cont.)

5th Base Forces at Truk and Saipan respectively, a cruiser of Crudiv 6 (RASE 6), Chief of Staff 5th Fleet, and Comdr Yokosuka Landing Force.  
(Summary, 061400, July, No. 16)

Heavy air traffic in the Marshalls indicated that enemy air reserves were being built up for an emergency:

No. 16

Air traffic between units of the 4th and 5th Air Attack Forces continues heavy.  
(COM 14 052046-T.I.)

It was stated:

COM 14 suggests that association of Cinc 4th Fleet with 4th Fleet Task Force, Comdrs. 4th and 5th Air Attack Forces, info Cinc Combined Fleet, Comsubfor, and Comdr. 11th Air Fleet, is indicative of impending operations by Marshall's Command.  
(Summary, 060600, July, No. 40)

(Comsowestpacfor-060055)  
(Summary, 060600, July, No. 50)

Surmisals that Japanese operations were in process in the Southern area received tentative confirmation from the following comment:

No. 23

Seven part dispatch from Cine 4th (YUKA 4), at 1740, 5th, for action Cine Combined Fleet (AKI 2) and Naval General Staff (RETEKA), information All Southern Commanders (SOTU 935), Comdrs Subforce (KIKO 6), Combined Air Force (MIRU 5), Airron 24 (MORO 2), and Airron 25 (NIRI 6) may contain detailed report of operations in 4th Fleet areas.  
(BEL-060625-TI)

It was noted:

SOTU 9 has been tentatively identified by Opnav as a 4th Fleet Task Force.  
(Summary, 061400, July, No. 17)

Enemy dispatches to Army units at Rabaul

JULY 6, 1942 (Continued)

22 JUN 1943

aroused the interest of American observers, for it was clear that some movement of enemy troops was in the offing:

No. 24

Army addresses in Rabaul area continue actively associated with 17th Army and OKI composite Division Commanders at Davao plus Commander 35th HOSHII Brigade at Palao.  
(BEL-060625-TI)

It was mentioned:

Previous association of Rabaul and 17th Army were noted on 25 June and 5 July. Likewise, Rabaul was associated with the OKI Detachment on June 19th and 27th.  
(Summary, 061400, July, No. 18)

-----

22 JUN 1943

JULY 7, 1942

More associations of important units in enemy operational dispatches lent credence to the statement that the Japanese were about to make a new move:

No. 25

Cinc 4th under various calls for parts of lengthy 7 part message originated 1740 on July 5th, addressed tentative Cinc Combined and Naval General Staff (RETEKA), info 4th Fleet detached (SOTU 935) Comsubfor (under several calls) also 11th Air Fleet, plus Comdrs. 4th and 5th Air Attack Forces. Apparently report of past operations or future plans.  
(COM 14 062120-T.I.)

It was indicated:

The 4th Air Attack Force is indicated in the Marshall area and the 5th Air Attack Force is indicated in the Rabaul area. The 4th Fleet Task Force (SOTU 935) has been mentioned previously and its association with the same units listed above caused COM 14 to remark that this association was indicative of impending operations by Marshall commands. There are no definite indications as to the composition of this task force.  
(Summary, 070600, July, No. 23)

Frequent references in radio traffic to convoys were further indications of imminent action:

JULY 7, 1942 (Continued)

No. 26

Much convoy activity indicated by dispatches from Sasebo involving Escort Force and Southeastern Asiatic Bases. (COM 14-070622-TI)

It was observed:

There has been a great deal of convoy activity of late which has been frequently reported by all Stations.  
(Summary, 070600, July, No. 32)

No. 27

SHIRETOKO enroute to Marshalls.  
(Cincpac-070119-Bull #114)  
(Summary, 071400, July, No. 10)

No. 28

FUJIKAWA, KIYOKAWA and NOTORO  
(all Maru AV's) believed in New Britain area. (Cincpac-070119-BULL #114)  
(Summary, 071400, July, No. 12)

The presence of several enemy submarines pointed to the beginning of a campaign, since the Japanese had consistently used this type of vessel for scouting and harassing American defenders in

RIP 102

22 JUN 1943

JULY 8, 1942

The process of reasoning used by United States naval radio traffic analysts in deciding the probability of their assumptions may be observed in the following dispatches:

No. 30

Further indications noted that Crudivs 6 and 18 plus Desron 6 either in or proceeding to Rabaul area in two dispatches at ~~0900~~ and ~~2030~~ on 6 July from Rabaul (NASI 7) (might be concealed originator) addressed to Comcrudiv 6 (ORU 5), Comcrudiv 18 (MOTE ~~0~~), Comdesron 6 (KOKU 1) enciphered R (Rabaul) area and unidentified MORO 5. (BEL-C70714-TI)

It was pointed out:

Previously reported by COM14 who believed originator was Rabaul and not concealed originator. KOKU 1 was previously (21 May) thought to be Torpedo Boat Division 6, but both BELCONNEN and COM 14 now think it is Desron 6. Crudivs 6 and 18 and Desron 6 have been associated in traffic with the Rabaul area at various times since June 29th and the reported sighting of 2 CAs off Guadalcanal Island plus the possible significance of the Japanese contact report of 4 CAs on 5 July gives added weight to the probability BELCONNEN's assumption that these units are proceeding to Rabaul area.

(Summary, 080600, July, No. 23)

22 JUN 1943

JULY 8, 1942 (Continued)No. 31

Traffic headings indicate Comdr. Yokohama Flying Boat Squadron (WIRA 4) at Tulagi (HANI 6), Comdr Tulagi Base Force (NANU 8) and unidentified Maru (TOYU 8) at Kavieng (TOWA 9). Association of TOYU 8 with Rabaul Base Force (WAKO 1) may indicate that vessel may go to Rabaul. YON 1 (Hospital Ship?) apparently scheduled to proceed to Rabaul probably from Palao. OKITSU MARU (ROA Ø) at Kure. Air Tender RUWA 4 at WIN 5 (Singapore?). At least part of Crudiv 5 (ROSI 4) in Ominato area and part of Desron 2 (KOSU 3) in Yokosuka area. Traffic routing indicates Comdr. Yokosuka Landing Force (TIYO Ø) in Saipan area. WAHI 9 (KAKO) not yet in company with Comcrudiv 6 (ORU 5). (BEL-070738-070755-TI)

It was commented:

On 28 June traffic for Yokohama Air Group was relayed to Rabaul. On 6 July MARU TOYU 8 traffic from Kavieng to Rabaul. On 6 July Hospital Ship (YON 1) in Palao Communication Zone. On 29 June COM14 stated this vessel appears to be making rounds in the Mandates; Base Forces, Palao, Truk, Saipan, Rabaul and Jaluit concerned. On 26 June traffic indicated OKITSU MARU enroute Truk to Tenian. On 6 July COM14 ventured: MARU RUWA 4 may take air supplies or planes from 1st Air Attack Corps in S.E. Asia to 3rd Air Attack in Hokkaido area. WIN 5 on 4 July was Sasebo ? (Summary, 080600, July, No. 25)

22 JUN 1943

JULY 8, 1942 (Continued)

Messages from the Japanese Personnel Bureau usually indicated where reinforcements were being sent, and the following dispatches dealt with air personnel. Since the Japanese never went into important operations without furnishing as much air protection as possible, such messages provided valuable indications of impending action:

No. 32

In another dispatch Tokyo Personnel addressed Yokosuka, Kure, Sasebo and Maizuru Personnel Bureaus info Tainan Air (EKU 8), Kasumigaura Air (RETO 8), Sukugawa Air (NIRI 2), Oita Air (SAHO 7), Omura Air (NOTO 2), Yokosuka Air (NAWA 8), Kisaratsu Air (RAWA 2), Chief of Staff 11th Air Fleet (RIHE 6), 5th Air Attack (TEE 1), and one garbled call.

It was noted:

Subject may be supplying additional aircraft personnel to Rabaul area from activities listed. (COM14-072224-072228-II)  
(Summary, 080600, July, No.28)

No. 33

In connection with Tokyo Personnel message mentioned previously, the 5th Air

JULY 8, 1942 (Continued)

22 JUN 1943

No. 33 (Cont.)

Attack Force is associated in 2 dispatches with Tainan Air Group, Kanoya Air Group, Hama 8 (Section of Takao Air Group?) and 1st and 2nd Air Attack Forces. Comdr. Tainan Air Group (EKU 8) is on board KISA Ø in Truk-Rabaul area. (COM 14 072246-T.I.)

It was stated:

The Truk-Rabaul area appears as the general operating area of the 5th Air Attack Force. A detachment of Kanoya Air Group was associated with Horomushiro June 29th, and prior to this the Kanoya Air Group was indicated probably in Saipan. Comdr. Air Group Hama 8 appeared at Kendari (Celebes) July 2nd and on July 4th appeared to have joined the KAMIGAWA MARU at Ominato-one of these locations must be bad because time of transit is too short. Hama 8 has also been tentatively identified as Kisaratsu Air Group. 1st Air Attack Force appears to be in Malay-Southeast Asia area, with the Commander possibly at Sabang. 2nd Air Attack Force appeared in the NEI area with headquarters at Jogjakarta. On 26 June, there were indications of a shift of the 2nd Air Attack Force to some other place - possibly Rabaul. There has been no mention of this force since June 26th.  
(Summary, 080600, July, No. 29)

The identification of another important enemy unit at Rabaul showed increased Japanese strength in that area:

JULY 8, 1942 (Continued)

No. 34

19th Division (what formerly was called Gunboat Division 8) of 4th Fleet (NERE 6 alternate SEWI 3) using Rabaul cover 7th indicating presence that area. (COM14-072254-TI)

It was remarked:

On 6 July Communication Officer 19th Division (NERE 6) was believed in Marshalls exchanging dispatches with activities in Rabaul area.  
(Summary, 080600, July, No. 31)

The Japanese Army was also involved in the heavy radio traffic at Rabaul:

No. 35

Enciphered Chief of Staff 17th Army sent 3 dispatches to Chief of Staff 4th Fleet (RETE 9). In previous instances this officer associated with army activities at Rabaul. (BEL-070729-TI)  
(Summary, 080600, July, No. 32)

Japanese reports of the presence of American forces were erroneous, but they indicated that the enemy was on the alert. Evidently some operation was

JULY 8, 1942 (Continued)

in progress or was about to be undertaken:

No. 36

Evidence of Japanese "jitters" in Marshalls-Rabaul area shown by erroneous contact reports originating from that area lately which were based on sighting own forces. (COM 14 080626-TI)  
(Summary, 081400, July, No. 26)

No. 37

On 6th at 1445 Comdesron 6 reported sighting planes. No locations or bearings given. Above believed indicate lack of knowledge of whereabouts of U. S. Forces and nervousness undertaking some campaign with inadequate support. (COM 14 080628-TI)  
(Summary, 081400, July, No. 25)

RIP 102

22 JUN 1943

JULY 9, 1942

The progress of a Japanese fleet tanker was a matter of interest, for enemy ships would be present where oil was available in abundance:

No. 38

Tentative fleet tanker (RUHI 1) in Truk area on 4 July now indicated as proceeding to Rabaul. (BEL-080832-TI)  
(Summary, 091400, July, No. 30)

The large volume of Japanese Army traffic also continued to attract attention:

No. 39

Large volume army traffic continues between army authorities at Rabaul and Davao. (BEL-080832-TI)  
(Summary, 091400, July, No. 31)

-----

22 JUN 1943

R/P 102

JULY 10, 1942

A shift by a Japanese fleet commander from one warship to another was noticed at this time:

No. 40

Short dispatch in Movement Report form from Cinc 3rd (INU 8), at 1500, 8th, is apparently report of shift of Flag from NATORI to ASHIGARA. Shift probably occurred at Surabaya and NATORI may now be expected to depart for other duties. (BEL-090700-TI)

It was noted:

T.I. indicated ASHIGARA arrived N.E.I. Waters from Home Waters on 30 June and was possibly due Surabaya shortly after 3 July.  
(Summary, 100600, July, No. 24)

Tentative identifications of Japanese units were also made:

No. 41

Traffic routing and associations indicate Comdesdiv 29 (NOBA 8), KIYOKAMA MARU (NERA 7) and Maru air tender NENI Ø in Rabaul area. Comdesron 6 (KOKU 1) may be in Tulagi area. Maru auxiliaries? RATI 1, HOKI 8, and KORE 6 in Kavieng (TOWA 9) area. (BEL-090805-TI)

23 JUN 1943

RIP 102

JULY 10, 1942 (Continued)

No. 41 (Cont.)

It was stated:

Identification of KOKU 1 as Desron 6 is quite tentative. It has also been tentatively identified in the past as Gunboat Division 8 and Motor-Torpedo Division 6. On July 6th, KOKU 1 was associated with Crudivs 6 and 18 in a message from Rabaul. On July 8th, COM 14 reports Comdesron 6 using two new calls and associated with Jaluit and Truk and suggested possibility of activity being resumed in Ocean-Nauru Island area. (Summary, 100600, July, No. 25)

22 JUN 1943

RIF 102

JULY 11, 1942

It was evident by this date that the Japanese were expending great efforts in the New Guinea, Bismarck Archipelago, and Solomon Island areas. Captured documents supplied further confirmation:

No. 42

Operation orders found among documents captured in New Guinea indicates "Combat Section of Escort for 12th Billeting Detachment leaves PT (Truk) about 10th for MO (Kavieng)". Remaining portion of 11th and 13th Billeting Detachment leaves PT for Guadalcanal under separate orders. Same for 14th Billeting Force which will be accompanied by 5th Special Landing Force and will proceed to east coast of New Guinea (possibly Salamaua). Air reconnaissance of eastern section of Admiralty Island and Madang is to be conducted. Documents indicate considerable activity in R area and will be transmitted in later dispatch. All remaining information concerns already completed operations. (BEL-100914-DI)

It was observed:

Madang is on Northeast coast of New Guinea approximately 05° S, 146° E. R area is believed the New Guinea-Bismarck Archipelago-Solomon Island area, initial letter.  
(Summary, 110600, July, No. 41)

RIP 102

24 JUN 1943

JULY 11, 1942 (Continued)

Traffic analysis also led to the assumption that a major Japanese campaign was about to commence:

No. 43

One instance noted at 0700 on 10th wherein Truk Radio routed traffic to Rabaul for delivery to Cine 4th Fleet and Comsubron 7. If this routing is correct it probably indicates preparations are now complete for major campaign.  
(BEL-100718-TI)

It was remarked:

GT on July 10th stated his belief that Cine 4th Fleet was at Rabaul.  
(Summary, 110600, July, No. 46)

Indications of heavy troop movements from the Philippine Islands and China to Truk-Rabaul area were also noted:

No. 44

Traffic headings intercepted in Australia rather indicate probability of at least some troop movements from Saigon

RIF 102

20 JUN 1949

JULY 11, 1942 (Continued)No. 44 (Cont.)and Philippine Islands to Truk-Rabaul area.

Traffic includes:

(A) Messages from Army H.Q. Saigon to Officers in charge of anchorages at Palao, Davao and Rabaul and 8th Base Force at Rabaul.

(B) Association of 17th Army and OKI Mixed Division at Davao with 35th Brigade at Palao and with Morimoto and other Army addressees in Rabaul area.

(C) Association of Commanding Officer Detached Force at Natuna Island with 10th Base Force, 5th Minelaying Flotilla Base Force at Kamranh Bay.

ACNB NOTE: Natuna Island was used as transport R/V for transports on passage to Java. (ACNB-1053Z/8-TI)

It was commented:

phasises likelihood of convoying Army units to Rabaul from China area.

(COM14-102016-TI)

(Summary, 110600, July, No. 40)

No. 46

Volume of army traffic somewhat lighter than for previous 2 days. Enciphered "Central Army" sent one short dispatch at 1807 on 9th for action #6433 Akatsuki Detachment at Rabaul. (BEL-100718-TI)

It was pointed out:

BEL first reported 6433 Akatsuki Detachment at Rabaul on 2 July. (Summary, 110600, July, No. 43)

No. 47

From exchange of messages between, and associations of, Davao (NEWI 5), Rabaul (WAKO 1), 5th Air Attack (TEE 1), Kisaratsu Air (HAMA 8) at Kavieng (TOWA 9), Takao Air (KUMI 1) air ferry command (YUKI?), and occasionally 4th Fleet (MON 3), it appears there is considerable transfer of forces from Philippines to the South taking place. (GT 382-OPNAV 111730-T.I.)

It was indicated:

There are indications that the "forces" mentioned above include army units. (Summary, 111400, July, No. 36)

RIP 102

22 JUN 1943

JULY 11, 1942 (Continued)

No. 48

Sasebo #5 Special Landing Force in Truk Area, has been currently associated with 82nd Guard Force (MIRO 7) and Salamua Radio (KIRO 4). Associations tend to indicate this force might move to Rabaul-New Guinea area and operate in conjunction CrudiVs 6 and 18, while Airron 25 will furnish air support. (BEL. 100644-T.I.)  
(Summary, 111400, July, No. 31)

Reinforcements and replacements of air groups by the Japanese were other instances of elaborate offensive preparations in this area:

No. 49

Exchange between 4th and 5th Air Attack concerning 14th Air (MENU 5) and Yokohama Air (WIRA 4), believed may be forerunner swap of these air groups. Appears to be replacing war worn air groups which have taken battering for several months by fresh units, and also probably preliminary to opening up increased air activity Rabaul area. (COM 14 110716-T.I.)

It was mentioned:

14th Air Corps appears to be operating in the Marshall Islands and Yokohama Air Group appears to be in the Rabaul area. (Summary, 111400, July, No. 33)

23 JUN 1943

RTP 102

JULY 11, 1942 (Continued)

No. 50

Apparent reshuffling of 5th Air Attack units in progress. This includes exchange air (MUR0 5) for detachment Genzan Air (ROU 8) which believe effected by FUJIKAWA MARU last week.  
(COM 14 110716-T.I.)  
(Summary, 111400, July, No. 34)

No. 51

Dispatches received involving air bases Peleliu, Saipan, Truk, and Rabaul, with 2nd Air unit Hama 8, Tainan Air (EKU 8), following previous exchanges between 5th and 2nd Air Attack Corps believed indicate that Hama 8 will relieve Tainan Air. Latter today (Comdr. still in Rabaul area) addressed flight detachment (suffix 69) at Truk. Another includes Truk, Saipan Bases, and usual line-up of addresses involving movement of air units to and from Mandates. Therefore, believe Tainan will go to Empire.  
(COM 14 110716-T.I.)  
(Summary, 111400, July, No. 37)

No. 52

Some indication that Kaga plane group NOTI 9 and another air activity KESI 7 will operate in Rabaul area with New Guinea Occupation Force OYO 2. (COM14-102210-TI)  
(Summary, 110600, July, No. 49)

22 JUN 1943

RIP 102

JULY 11, 1942 (Continued)No. 53

Maru Air Tender NENI Ø is at Rabaul. (COM14-102210-TI)

It was remarked:

Traffic routing on 9 July indicated the above vessel in Rabaul area. (Summary, 110600, July, No. 50)

The rapid expansion of personnel at Rabaul, and the consequent additional responsibilities brought what appeared to be a reassignment of Japanese commanders in the Rabaul area:

No. 54

FROM: Cinc 4th Fleet Urgent 10 July/122Ø  
 TO : 4th Fleet Detached Units (SOTU 935).  
 INFO: Indies Force Comdr (INU 8);  
 Cinc Combined Fleet;  
 Comdr 11th Air Fleet;  
 Comsubfor;  
 Tokyo Intelligence (MUTIN);  
 Enciphered "Officer scheduled to be Chief of Staff 8th Flt."

Latter indicated at General Staff (MIYORE). Suggest 8th Base Force at Rabaul will expand its force and Staff and take on increased authority.

(COM14-102206-TI)  
 (Summary, 110600, July, No. 48)

22 JUN 1943

RIP 102

JULY 11, 1942 (Continued)No. 55

Another Combined Fleet message at garbled time on 10th, went to 11th Air Fleet, 4th Fleet, Subfor, infor Operations (MIYORE), and enciphered Chief of Staff #8 (DAI HATI). Suggested in view of other addresses that Mandate area being divided with Southeastern sector going under new command. (COM 14 110718-T.I.) (Summary, 111400, July, No. 35)

The presence of enemy cruisers near Rabaul was assumed from the following messages:

No. 56

Chief of Staff 4th Fleet originated message at 1040, apparently operation order for action Comdrs. Crudiv 18 (MOTE 0), 8th Base Force at Rabaul (WAKO 1), and Sasebo #5 Special Landing Force (TOMA 6); infor to Comcrudiv (ORU 5), Comairron 25 (NIRI 6), and Chief of Staff Combined Air Force (FUNU 2). Comcrudivs 6 and 18 noted closely associated with Rabaul in other traffic. Traffic routing now indicates TATSUTA (NORA 3) has rejoined Crudiv 18, which leads to assumption that KINUGASA (WAHI 9) and FURUTAKA (TEYO 7) have joined Crudiv 6, since all three ships appeared to be in company while enroute from Empire to Truk. (BEL. 100644-T.I.)

It was noted:

FURUTAKA and Comdesron 6 were reported July 10th, using Rabaul as a cover call. Crudiv 6 and 18 have been associated with

[ RIP 102 ]

22 JUN 1943

JULY 11, 1942 (Continued)No. 56 (Cont.)

Rabaul recently. There has also been some connection between #5 Sasebo Special Landing Force, Crudiv 18, and Crudiv 6. Documents captured in New Guinea indicate that #5 Sasebo Special Landing Force accompanying the 14th Billeting Force leaves PT (Truk) under separate orders and will proceed to East coast of New Guinea (possibly Salamaua).

(Summary, 111400, July, No. 30)

No. 57

FURUTAKA (TEYO 7) and Comdesron 6 (NERE 66) using Rabaul as cover on 9 and 10 July respectively. Also believe KORU 2 is 4th Fleet and Cinc 1 is at Rabaul.  
(GT #378-OPNAV 101950-TI)

It was mentioned:

FURUTAKA is CA of Crudiv 6.  
(Summary, 110600, July, No. 44)

Japanese destroyers and merchant ships were farther south in the Tulagi area:

No. 58

Traffic headings indicate that KO-TOKU MARU (RATE 3) and unidentified MARU ROU 4 if not already at Tulagi may proceed to that area. (BEL-100718-TI)  
(Summary, 110600, July, No. 45)

No. 59

Comdesron 6 somewhere between Rabaul and Tulagi using both stations as a cover. This command not concentrated.

(COM14-102206-TI)

(Summary, 110600, July, No. 47)

Further confirmation of the intended use of submarines in forthcoming Japanese operations in the Rabaul-New Guinea district now came:

No. 60

Associations indicate Subdiv NANO 3 of Subron 3 will assist units of Subron already indicated as assigned Rabaul-New Guinea area, probably as Submarine Screen against opposing Allied Forces in forthcoming operations. (BEL. 110800-T.I.)

It was commented:

Units of Subron 7 appear to have just returned to Truk area from Yokosuka. (Summary, 111400, July, No. 38)

RIF 102

22 JUN 1942

JULY 12, 1942

American traffic analysts reported that the occurrence of some very unusual message headings demonstrated that apparently a Japanese offensive was about to begin. Some of the units concerned were cruisers, which now seemed to be ordered into action:

No. 61

At 1400, 10th, Operations Section Naval General Staff originated URGENT dispatch; action Chief of Staff Combined (ROHO 4) and 3rd (INU 8) Fleets, information Chief of Staff 2nd (NEYO 6) and Southern (MASE 5) Fleets plus Comcrudiv 7 (ROTU 1) and Comdesron 3 (NASI 3). Desron 3 engaged in escort duties mostly in Sasebo area. Crudiv 7 enroute Empire from Chichijima. These associations unusual and may indicate sudden change of plans effecting Crudiv 7, with possibility all or part that division may return to Indies or Southwestern area. This possibility necessitated by lack of heavy units in Indies area since ISUZU (NRU 1) is now in Empire and NATORI (NIRO 7) in communication with MAIZURU, or may indicate strengthening of 3rd Fleet preparatory to offensive action Northern Australia or Port Moresby in conjunction with 4th Fleet from New Britain. Further evidence of such action is indicated by associations in heading of dispatch from Cinc 3rd (AWI 1), at 1730, 10 July; action Chief of Staff 1st (MORI 8) and 2nd (NEYO 6) Fleets, information Comdrs Crudiv 7 (ROTU 1), Desron 2 (NETI 7), Desron 3 (NASI 3) and Desron 4 (TUWI 5). (BEL-110816-TI)  
(Summary, 120600, July, No. 1)

28 JUN 1943

RIF 102

JULY 12, 1942 (Continued)

More complete information from the captured documents mentioned in No.42 (July 11) was now forthcoming. Many of the details mentioned herein had already been known through analysis of Japanese radio traffic.

No. 62

Truk, 25 June, Flagship KASHIMA, South Seas Force, Inoue Shigami Commanding.

**SOUTH SEAS FORCE ORDERS:** The reference to Secret Orders #16 for South Seas Force, covering duties for invasion and escort operations by Pioneer Force and Sasebo 5th Special Landing Force. In addition to the instructions already issued, the following has been decided: This operation (including the establishment of the Base) is to be known as "SN" Operation.

**Grouping of Force:** Part of 8th Base Force is to be altered to form a supporting unit with 1st and 2nd Escort Detachments.

**Organization and Movement Schedule:** Point of departure is Truk (PT) in every case).

- a) Large part 12th Pioneer Force departs 20 June for Kavieng (RO) arriving 22nd.
- b) 11th and 13th Pioneer Force vanguard already arrived.
- c) Guadalcanal Naval Landing Party proceed to Guadalcanal via Rabaul (RR) leaving latter place 25 June to arrive about 1 July.

RIF 102

22 JUN 1943

JULY 12, 1942 (Continued)No. 62 (Cont.)

- d) The larger section of 14th Pioneers, with portion of 5th Sasebo Special Landing Force, leave about 25 June arriving RZM (Lae) about 30th.
- e) 11th and 13th Pioneer, each less one unit, depart for Guadalcanal 29 June, arriving about 4 July (X day).
- f) Combat Section of escort for 12th Pioneer Detachment leaves PT (Truk) about 10th for RO (Kavieng).
- g) Remaining portion of 11th and 13th Pioneer Detachment leaves PT (Truk) for Guadalcanal under separate orders.
- h) Same for 14th Pioneer Force which will be accompanied by 5th Special Landing Force and will proceed to east coast of New Guinea (possibly Salamaua).
- i) Air reconnaissance of eastern section of Admiralty Island and Madang is to be conducted.

Table of Organization:

<u>Unit</u>	<u>Com. Officer</u>	<u>Organization</u>	<u>Forces to be Escorted</u>
Support- ing Force	Comcru- div 6	Crudiv 6 & 18	(Blank)
1st Es- cort Force	Comdes- ron 6	YUBARI Desdiv 29 (less ASAN- AGI & YUNAGI) UZUKI, 21st Sub Chaser Force and 23rd Sub Chaser Force (less #23).	11th & 13th Pioneers - Aboard AZUMA, HOKURIKU and KOTOKU MARUS.

RIF 102

22 JUN 1943

JULY 12, 1942 (Continued)No. 62 (Cont.)

2nd Es- Comdes- cort div 30 Force	Desdiv 30 (less #2 ships of those under her), 32nd Sub Chaser Force.	14th Pioneers & one Unit of Sasebo 5th Spe- cial Landing Force embarked in KENYOO and KINAI MARUS.
---	--	--

Notations to this table follows:

- (1) 2nd Escort Force will disband upon arrival of all transports at destination and 32nd Sub Chaser Force will be incorporated in "R" Area Defense Forces.
- (2) In case of enemy attack Comdrs Supporting Force will take under his command all boats of Torpedo Boat Squadron 6. On arrival at destination each Pioneer Unit, the KENYOO and KINAI MARUS will be incorporated in our district.

Base Air Unit will cooperate during arrival, departure and unloading of transports as follows:

- 1) At RXM (Lae) and RZL (unplaced) Base Air Unit will maintain Fighter Guard over transports in addition to usual patrol.
- 2) Cooperate with anti-submarine patrols in RR and RZM areas.
- 3) Reconnoiter eastern sector of New Guinea, including Madang and area south of Admiralty Islands.

Following is table of assignments of KIYOKAWA MARU aircraft in R area:

At Rabaul: 4 FS planes, Base personnel from KIYOKAWA MARU with 6

RIP 102

22 JUN 1942

JULY 12, 1942 (Continued)No. 62 (Cont.)

ground staff from KASHIMA.

At Salamaua: 2 FS planes with  
Base personnel from KIYOKAWA  
MARU.At Tulagi: 2 FS planes with  
Base personnel from KIYOKAWA  
MARU.At Kavieng: 3 FS planes plus  
FF/D from Fleet Headquarters  
with Base personnel from KIYOKAWA  
MARU and YONE MARU.Duties are:Rabaul Unit - Patrol as ordered.  
Salamaua Unit - Escort convoys.  
Tulagi Unit - Sea and land patrol.  
Kavieng Unit - Other duties as  
specified by Comdr  
8th Base Force.(Meaning of FS, F2/S and F/D unknown, but  
tentatively assumed to mean Patrol boat  
plane, twin-float scout seaplanes and trans-  
port plane in that order).Notations at bottom of above table applying  
to Rabaul, Salamaua, Tulagi, Kavieng groups  
are as follows:Rabaul:

1. Continue regular duties.
2. Ground staff from KASHIMA return to  
PT (Truk) following return of Sala-  
maua Expeditionary Force.

Salamaua:

1. Base personnel leave in FT/D Trans-  
port by 28 June.
2. Aircraft Units are to proceed by 28  
June, and from 29th on carry out  
duties after convoy leaves Salamaua  
to return to RR (Rabaul).

22 JUN 1943

RIP 102

JULY 12, 1942 (Continued)No. 62 (Cont.)Tulagi:

1. Base personnel proceed to Tulagi in KINRYUU MARU.
2. Aircraft Units are to move on immediately after completion of Tulagi Base.

Kavieng:

1. Continue with work in hand as before and move in to RR (Rabaul) by 25 July as arranged by Commanding Officer Amago Yane.

Translator's Note: Believe "Billeting Detachment" (Setsueitai) rendered more nearly accurate by "Pioneer Detachment".

It was observed:

The author of this document is not clear but he is presumed to be Comdr South Seas Force.

All originals of above mentioned documents are in hands of RAAF (Royal Australian Air Force) translated by them with suggestions from Melbunit (under administration of U. S. Naval Communication Intelligence).  
(Belconnen-100914-110955-111214-111322-DI)

It was also commented:

A decryption reported by Belconnen on 26 May, gave indications that RZL might possibly be Salamaua.  
(Summary, 120600, July, No. 25)

RIP 102

22 JUN 1943

JULY 12, 1942 (Continued)No. 63

Name of Commander NANYOO BUTAI given in my 112055 as Inoue Shigemitsu should be Inoue Shigeyoshi. It is interesting to note that a Vice Admiral Inoue is listed as Commander 4th Fleet in Cincpac Serial 01848 of 28 June. Officer whose number was 44 in 1940 ORANGE Naval Register is a Vice Admiral named as above and was at that time given as Chief of Staff Japanese Naval Forces in China. (BEL-120326-TI)  
(Summary, 121400, July, No. 21)

There were many indications that Tulagi was to be a focal point of the approaching action:

No. 64

Tulagi HANI 6 apparently to assume important role in impending campaign probably as rendezvous point.  
(BEL-110852-TI)

It was remarked:

Comdesron 6 has been using Tulagi and Rabaul as covers for his dispatches.  
(Summary, 120600, July, No. 27)

Movement of new units into the Rabaul-Solomons territory continued strongly as the days slipped past. The Philippines were still a principal source of supply:

RTP 102

22 JUN 1943

JULY 12, 1942 (Continued)No. 65

Chief of Staff Philippine Fleet (TATU 7) sent one at 1130 9th July (heading partly garbled) but indicates close association between Chief of Staff 4th (HIME 8) and South China (NOYO 9) Fleets plus Director of Transportation (TUWI 8), Info addressees include Operations Section, Naval General Staff (MI-YORE) and Comdr. 8th Base Force at Rabaul (WAKO 1) which may indicate further movement from Philippines to New Britain.  
(BEL-110852-TI)

It was noted:

NOYO 9 has been identified as 11th Air Fleet but it is believed it has changed and may now be South China Fleet. The call TUWI 8 is believed to be an Escort Force.  
(Summary, 120600, July, No. 30)

route Rabaul from Empire. (BEL-120728-TI)  
(Summary, 121400, July, No. 28)

RIP 102

22 JUN 1943

JULY 12, 1942 (Continued)

Enemy radio intelligence units were very busy at this time trying to learn the strength of Allied defenders before the start of the Japanese campaign in the Southwest Pacific:

No. 73

Rabaul and Truk active with intelligence traffic indicating intensive effort to obtain information on disposition of Allied Forces prior to beginning of campaign New Guinea area. Rabaul (FUN 1) was only addressee in one dispatch from Tokyo Radio Intelligence (KIMIKI) at 1500/10th. (BEL-110816-TI)  
(Summary, 120600, July, No. 29)

A very long dispatch from the Registered Publications Section in Tokyo was an omen of a future change in enemy call signs and cryptographic systems:

No. 74

Tokyo Registered Publications (NOKASE) originated extremely long 9-part message to Subforce (TOFU 5). Suspected of being details of call sign change or modification Crypto systems for subs. (COM14-120704-TI)

RIP 102

22 JUN 1942

JULY 12, 1942 (Continued)No. 74 (Cont.)

It was indicated:

TOFU 5 has been tentatively identified by Opnav as "All Ships and Stations" instead of Subforce as indicated above. (Summary, 121400, July, No. 3)

Many messages were being sent or received by the Commander in Chief of the Fourth Japanese Fleet, and, thus, he was identified as a leader in the new campaign:

No. 75

Cinc 1st Fleet (NIRA 7) originated dispatch at 1100 on 11th, action Desron 3 plus Desdivs YUMI 8 and RITE 9 less one destroyer SETI 6, info Cinc 2nd Fleet (TIE 1), Chief of Staff 4th Fleet (MITE 2), Comdesron 6 (NETO 8), Director Transportation (TUWI 8), Chief of Staff Kure (TAYUWI) and Sasebo (HOBATA), Tokyo Naval General Staff (RETEKA) and 2 unidentified calls SEMI 6 and IKE 1. This may indicate action addressees or units thereof will also take part in 4th Fleet operations possibly as escort units. (BEL-120635-TI)

Further in this connection was dispatch from Chief of Staff Combined Fleet (WAKO 504) at 2330 on 10th, for action

RIP 102

22 JUN 1943

JULY 12, 1942 (Continued)No. 75 (Cont.)

Chief of Staff 1st Fleet (MARU 704), Comdesron 3 (MENE 6), info Chief of Staff 3rd Fleet (AWI 104), Comerudiv 7 (YUMO 9), and several garbled addressees. This same dispatch was later relayed to Chief of Staff 4th Fleet (HIME 804) and Comdesron 6 (NETO 8). (BEL-120635-TI)  
(Summary, 121400, July, No.22)

No. 76

Abnormal stack of traffic being originated by Cinc and Chief of Staff 4th Fleet.  
(COM14-120708-TI)  
(Summary, 121400, July, No. 23)

Another identification was made of a prominent Japanese naval official stationed at Rabaul:

No. 77

One 4th Fleet message included enciphered Rear Admiral Kajioka as in Rabaul area. (COM14-120708-TI)  
(Summary, 121400, July, No. 24)

No. 78

Comdr 84th Guard Force (MORO 6) is at Rabaul and using the letters radio call for

RIP 102

22 JUN 1943

JULY 13, 1942

More indications of the enemy's plan to effect communication changes before the approaching conflict were appearing in Japanese radio procedure:

No. 80

In connection with lengthy Registered Publication Section dispatch noted previously and other indications agree with Washington that some communication change imminent, - probably calls.

(COM 14-121856-TI)

(Summary, 130600, July, No. 5)

Another Japanese air fleet entered the Rabaul area, but it was noticed that no air carriers were as yet assigned to the anticipated attack:

No. 81

Flag Secretary 1st Air Fleet (SEA 5) today associated in dispatch at 1520/11 July with Flag Secretary 4th Fleet (KONU 5), Staff Communication Officer Desron 6 (KOKU 1) and Tulagi Radio (HANI 6).

Rabaul address (HAWIHO) sent short code to Desron 10 (HAKA 7 in 1st Air Fleet), 4th Base Force Truk (NERE 1) and Yokosuka Communication Office (SISOA). This is first noted appearance of 1st Air Fleet with present 4th Fleet operations and may indicate

No. 81 (Cont.)

units of Desron 10 will be involved in im-  
pending 4th Fleet Campaign. There has been  
no association of carriers with these opera-  
tions. (BEL-120658-TI)  
(Summary, 130600, July, No. 25)

Another Japanese Landing Force was engaged in  
radio traffic with Rabaul on July 13:

No. 82

Yokosuka Landing Force Comdr. origin-  
ated two dispatches. One at 1230 to uni-  
identified MORO 6, Info: 8th Base Force Comdr.  
Both addressees sent Rabaul for delivery.  
Second dispatch at 1300 to MYOKO (NUYO 0),  
Info: HAKAFU. (COM 14-121904-TI)

It was mentioned:

The MYOKO has been exempted from Cru-  
div 5 traffic since 14 June. HAKAFU is Yo-  
kosuka Chief of Staff. Part of Yokosuka  
Landing Force was in Saipan area on 7 July.  
(Summary, 130600, July, No. 26)

An unidentified Japanese unit was evidently  
present near Tulagi:

RIP 102

22 JUN 1943

JULY 13, 1942 (Continued)No. 83

Unidentified SOU 8 via Tulagi (HANI 6) addressed 8th Base Force, Info: KI-YOKAWA MARU (NERA 7). (COM 14-121904-TI)

It was noticed:

SOU 8 has been tentatively identified as Ambon. Traffic routing indicated the KIYOKAWA MARU was in the Rabaul area July 9.

(Summary, 130600, July, No. 28)

Continued air activity all through this period was an indication of the impending Japanese campaign:

No. 84

Possible swap Misawa Air from 6th Air Attack and 4th Air of Rabaul Air Forces hinted. However, it may be reinforcement. (COM 14-121856-TI)

It was observed:

The Misawa Air formerly operated around Marcus Island then appeared in the Hokkaido area, operating under 3rd Air Attack Force. (Summary, 130600, July, No. 27)

22 JUN 1943

RIP 102

JULY 13, 1942 (Continued)No. 85

Active areas still Rabaul and Truk.  
Much air traffic between units in that area  
and Marshalls. Empire Aircraft Procurement  
Agencies and Truk indicate attention being  
given to replenishment that area. Yokosuka Aircraft Factory KEKAYU, at 2040, 11th, sent one to Truk Assembly Plant HOU90, another to Truk Air address UHIKA, Ruotto and Saipan Aircraft Plants, 19th Air, 6th Base Force and KIYOKAWA MARU (NERA 7).

Another dispatch indicates arrange-  
ments for a ferry flights: From Sukugawa Air Station (NIRI 2), to Chitose Air Station, Chief of Staff 11th Air Fleet, information to Communication Officer 4th Air Attack Corps, Saipan Radio, Communication Officer 5th Base Force and Kisaratsu Air Station, time - 1500, 12th. (COM 14-130746-TI) (Summary, 131400, July, No. 2)

No. 86

Exchange of New Britain area air units continues. (Cincpac-130227-Bull. #120) (Summary, 131400, July, No. 23)

Cruisers and destroyers were being added to Japanese forces in the Rabaul area:

RIP 102

22 JUN 1943

JULY 13, 1942 (Continued)No. 87

Believe Desdiv 34 now entirely clear of Marshalls and operating with 5th Air Attack Corps. (COM14-130752-TI)

It was remarked:

Desdiv 34 was actively associated with the Marshalls up to 8 July. However, on 9 July one unit of this division appeared in the Rabaul Communication Zone. On 11 July Desdiv 34 was involved in traffic between 4th and 5th Air Attack Corps. 5th Air Attack Corps is tentatively located in the New Britain area.

(Summary, 131400, July, No. 25)

No. 88

Comcrudiv 18 (NOTE Ø) and Comdesron 6 using Rabaul cover. (COM14-130752-TI)  
(Summary, 131400, July, No. 26)

Finally, definite reports were received which demonstrated that U. S. naval communication traffic analysts had been able to give a very accurate description of what had been happening in the Solomons region:

RIP 102

22 JUN 1942

Pioneer Battalions clearing area near Lun-  
ga on Guadalcanal Island, Solomons ap-  
parently for landing field.  
(Cincpac-130227-Bull.#120)  
(Summary, 131400, July, No. 24)

No. 90

Report received enemy made landing at  
Rekata Bay, Santa Isabel Island.  
(Cincpac-130227-Bull.#120)  
(Summary, 131400, July, No. 27)

-----

RIP 102

22 JUN 42

JULY 14, 1942

Carrier planes were to operate in the New Guinea area, according to the next dispatch:

No. 91

KESI 7 (New Command-Carrier Plane Group?) associated with Comdr. 1st Air Fleet, SATA 6, and other carrier plane groups in dispatch at 1900, July 12th. (BEL. 130617-TI)

It was noticed:

SATA 6 is unidentified. COM 14 says on July 10th, there was some indication that Kaga plane group and another air activity, KESI 7, will operate in Rabaul area with New Guinea Occupation Force (OYO 2). (Summary, 140600, July, No. 48)

As has been noted before, cruiser divisions were also in the region:

No. 92

Crudiv 18 is using Rabaul cover. 0910, 12th, addressed 4th Fleet Secretary, and Tokyo Personnel, suffix NEGAT. (COM 14 132202-TI)

It was indicated:

Suffix NEGAT indicates Chief or Head of a Section. (Summary, 140600, July, No. 47)

RIP 102

22 JUN 1943

JULY 14, 1942 (Continued)No. 94 (Cont.)

It was stated:

11th Air Fleet (Combined Air Force) was associated with Chief of Staff 8th Fleet on 9 and 10 July.  
(Summary, 141400, July, No. 2)

No. 95

Retransmissions of General Address traffic comprised considerable of intercepted traffic today. Tokyo Registered Publications Section (NOKASE), two 9-part and one 7-part dispatches were circulating, plus new ones from Chief of Naval General Staff (NOSAI), at 0000, 14th, to All Major Commands, and All 1st and 2nd Class Stations. At same time, RETEKA addressed same lineup with additional dispatch to Comdr Combined (TEYU 9), information All Major Commanders and 1st Class Shore Stations, Chief of Staff 8th Fleet enciphered addressed aboard tentative CHOKAI (NTI 9). Above general traffic may concern inauguration 8th Fleet.  
(COM 14-140906-TI)  
(Summary, 141400, July, No. 1)

An expected change in call signs had not yet been carried out by the Japanese, though it seemed evident that preparations were being made for the revision:

RIP 102

22 JUN 1943

JULY 14, 1942 (Continued)

The probability that the Japanese Eighth Fleet would be used in this territory was noted from its appearance in radio traffic:

No. 93

Chief of Staff 8th Fleet still subject of dispatches from Chief of Staff Combined to Chief of Staff 4th Fleet.  
(COM 14 132156-TI)  
(Summary, 140600, July, No. 48)

A suggestion was now made that the Eighth Fleet was either the Combined Japanese Air Force, or the organization of tenders and supply ships assigned to serve the Combined Air Force:

No. 94

"Officer scheduled to become Chief of Staff 8th Fleet" is now shown at Tokyo Registered Publication Section (NOKASE). Enciphered address Cinc 8th Fleet is shown to be in NTI 9 (tentative CHOKAI). Associations suggest that the 8th Fleet is composed of air units and is either the Combined Air Force or organization of the tenders and supply ships assigned to serve the Combined Air Force. (BEL-140634-TI)

23 JUN 1943

RIP 102

JULY 14, 1942 (Continued)No. 96

Staff 4th Fleet sending communication messages many commands in his area. This may be in line with suspected call change or new frequency plan. (COM 14 132158-TI) (Summary, 140600, July, No. 49)

Locations of various Japanese units, some unidentified, were now made for the Rabaul and Wake Island areas:

No. 97

Following locations noted on dates indicated:

In Rabaul Area:

FUKU 88	(unidentified)	July 12.
ORO 55	(unidentified)	July 12.
ORI 33	(Comdesdiv)	July 12.
NORE 88	(unidentified)	July 12.
HAKO 77	(unidentified)	July 12.
KOMU 22	(4th Air Group)	July 12.

At Wake:

WINE 3	(SHIRETOKO)	July 13.
--------	-------------	----------

At Kendari Air Station:

KIMI 11	(Comdr. Takao Air Group)	July 13.
HAMA 88	(Comdr. Kisaratsu Air Group)	July 13.
(GT #395-Opnav 132005-TI)		

RIP 102

23 JUN 1942

JULY 14, 1942 (Continued)

No. 97 (Cont.)

It was mentioned:

SHIRETOKO is a tanker. Comdr. Kisaratsu Air Group was indicated at Kendari, July 10, and July 11th, units of the Kisaratsu Air Group were indicated at Kavieng. Comdr. Takao Air Group was indicated at Kendari, July 4th.  
(Summary, 140600, July, No. 51)

No. 98

Desdiv 34 working with air forces in Rabaul area. (Cincpac Bull#121-140135)  
(Summary, 141400, July, No. 24)

No. 99

Crudiv 18 in vicinity of Rabaul.  
(Cincpac Bull#121-140135)

It was pointed out:

Crudiv 18 was using Rabaul Radio as a cover for dispatches 12 and 13 July.  
(Summary, 141400, July, No. 26)

No. 100

Tulagi (HANI 66), at 1950, 14th, sent (SAKI) to Comdesdiv 29 (NOSA 88), unidentified FUKU 55, and KOME 44, Marus RATE 3 and ROU 4, information Comcrudiv 6 (ORU 55), #8

RIP 102

22 JUN 1943

JULY 14, 1942 (Continued)No. 100 (Cont.)

Base Force, Rabaul (WAKO 11), 5th Air Attack (NIRI 66), Truk address (TOMENI), Chief of Staff Combined (MITE 204), and unidentified MUN 44. It is noted recently that Crudivs 6 and 18 do not appear to be associated. (GT #401/Opnav-141728-TI)

It was noted:

Crudiv 18 apparently was using Rabaul Radio as a cover on 12 and 13 July. Crudivs 6 and 18 were often associated together in June prior apparent movement to New Britain area. Last association noted in Rabaul area on 10 July.  
(Summary, 141400, July, No. 27)

An estimate of the positions of Japanese carriers was also established, since these had played a prominent part in every prior engagement:

No. 101Best estimate of carriers:

RYUJO may be in Ominato area because of delivery of traffic via that station, ZUIKAKU near Yokosuka by association Yokosuka Patrol, SHOKAKU on shakedown near Kagoshima, HIYO still fitting out in Empire port, ZUIHO probably at Kure thru association Kure Patrol and Navy Yard addresses, JUNYO probably at Kure, HOSHO (KENI 2)? indefinite.  
(COM 14-140914-TI)

RIP 102

22 JUN 1943

JULY 14, 1942 (Continued)No. 101 (Cont.)

It was noticed:

On 6 and 7 July HOSHO was associated with SETTSU in two message headings and this may have indicated possible arrangements for training exercises.  
(Summary, 141400, July, No. 7)

The arrival of another enemy submarine division in the New Britain area was foretold:

No. 102

A Subdiv expected to operate in New Britain area shortly.  
(Cincpac Bull#121-140135)  
(Summary, 141400, July, No. 30)

The formation of several new task forces by the Japanese was indicated by the heavy radio traffic between their Personnel Bureau and various commanders:

No. 103

Large number of dispatches from Personnel Bureaus, Tokyo Offices, and Major Commanders to fleet commands, and individual vessels indicate regrouping of fleet units into several task forces. Three or four ap-

22 JUN 1943

(Summary, 140600, July, No. 1)

-----

22 JUN 1943

RIP 102

JULY 15, 1942

Traffic analysis provided further information concerning Japanese units in the Guadalcanal area:

No. 104

Comdr. Yokosuka Landing Force at 1940/  
13 July sent one to MORO 6, 84th Guard Force, MYOKO (NUYO 4), Comdr. 8th Base Force, a Palao Personnel address (SOFUMU) and Yokosuka (HAKAFU). This associates him with Crudiv 5 and Rabaul where yesterday he was more associated 5th Fleet, however believe greater part his Force is in South.  
(COM 14-142108-TI)

It was commented:

There have been indications that a detachment of the Yokosuka Landing Force went north and this detachment appeared associated with Cinc5th Fleet and units of the Northern Forces. However another part of the Yokosuka Landing Force appears to be still in the Southern area. The #5 Sasebo Landing Force which was also part of the Midway Occupation Force has been operating in the Southern area and was part of the forces involved in the recent SN Operation (occupation of Guadalcanal Island).  
(Summary, 150600, July, No. 46)

It was stated:

This is further confirmation that the 8th Fleet may function in Rabaul area.  
(Summary, 181400, July, No. 18)

22 JUN 1943

RIF 102

JULY 18, 1942 (Continued)

Captured documents confirmed traffic analysis reports as to the patrol and supply routes of the enemy in the Rabaul area:

No. 138

Notes and tracks penciled in charts found among more captured documents, now in hands of RAAF indicate following:

- 1) Aircraft flights direct to Rabaul from Truk, though some go via Greenwich Island.
- 2) Grids with single Kana coordinates locating area ten navigational minutes to a side (ten each Latitude and Longitude on Mercator projection).
- 3) One track originates at Island of Oshima (off Tokyo Bay), and shows route to Tinian via Uracas.
- 4) Triangular track with base line extending from Wake to Ruotto (Northernmost projection of Kwajalein Atoll) with Pokakku at the apex to Eastward.
- 5) Many tracks to Empire and Mandate locations originate from a point of departure 4 miles Southwest of the town of Kambe (Western side of Ise Gulf, approximate position 34-51 North, 136-31 East).
- 6) Penciled note followed by rough sketch on chart of Eastern New Guinea to Northeastern Australia, reads, "For use in Patrol and bombing at Kokoda".
- 7) Track on bearing 335-155 fades out to Northward in Coral Sea, but extends down to Flinders Reef, thence direct to Townsville.

22 JUN 1942

RIP 102

JULY 18, 1942 (Continued)No. 138 (Cont.)

- 8) Many patrols from Rabaul covering majority of sector Southeast to Southwest indicate in and out logs 600 miles long with chord at extremity 100 miles long (Mercator projection).
- 9) Patrols from Lae extend to Cape York and Faimond Reefs.

Another dispatch gives circumstances of capture and description of more important items included. (BEL-170511-DI)

It was reported:

In (5) above, Kambe appears to be Kambe, Lat.  $34^{\circ}-52$  N., Long.  $136^{\circ}-35$  E.  
In (9) above, Faimond may be Diamond Reign Reefs,  $13-12$  S.,  $143-44$  E., (H.O. 3462).  
(Summary, 180600, July, No. 4)

Great activity in enemy construction in the Solomons area did not go unnoticed:

No. 139

4th Fleet activity only serves to emphasize the expansion of construction activity in Solomons-Rabaul-New Britain, preparatory to increase of Occupation Forces.  
No carriers or Major Units aside from those already associated can be definitely indicated as assigned to that area at present.  
(COM 14-170826)(Summary, 180600, July, No. 48)

23 JUN 1943

RIP 102

JULY 18, 1942 (Continued)

Traffic analysis again confirmed the presence of several enemy units in the area south of Rabaul:

No. 140

Indication CHECKAI will go to New Britain area. (Cincpac-180247-Bull.#125)  
(Summary, 180600, July, No. 39)

No. 141

Comcrudiv 6, on 14 July, was using MUNE 9 as cover. MUNE 9, by D/F, is near Guadalcanal. Comcrudiv 18 using Rabaul as cover on 17 July. (GT #418/Opnav-180301-TI)

It was observed:

Belcommen identifies MUNE 9 as Lunga.  
(Summary, 180600, July, No. 42)

No. 142

Tulagi (HANI 6) continues active with traffic for Desron 2 (NETI 7) and Desron 3 (MENE 6). (BEL-161420-TI)

It was stated:

Desron 2 appears at present to be in the Yokosuka area and Desron 3 is associated with escort duty to the Southern Asia area.

(Summary, 180600, July, No. 40)

22 JUN 1943

RIP 102

JULY 18, 1942 (Continued)No. 143

At 1100, 13th, Comcrudiv 18, using Rabaul as cover, sent message addressed to Tokyo Movement Report Section and Cinc 4th Fleet for action, and info to Chief of Staff 8th Fleet (OTT 404), Comdesdiv 29 (NOSA 88) and Cinc 11th Air Fleet (PUNA 77). This looks like Crudiv 18 is moving from Rabaul area. (GT #421-Opnav 181325-TI)

It was remarked:

On July 14th, COM 14 reported possibility that Crudiv 18 would move from Rabaul to Tulagi.  
(Summary, 181400, July, No. 19)

No. 144

RIP 102

JULY 19, 1942

A resumé of Japanese radio traffic disclosed that emphasis was shifting from an administrative to the preoperational type of dispatches:

No. 148

Traffic picture shifting from administrative to preoperational type since call change. Entire emphasis on Southern areas at present with wealth of significant material requiring caution to avoid jumping at conclusions. Northern Sector continues unchanged. Southeastern definitely hot spot with anticipated delineation 8th Fleet cognizance in next ten days, however, Cru-div 6 and 18 and other Rabaul area units reporting jointly to 4th and 8th Fleet now. Southwestern Units suddenly prominent but organization and direction as yet indefinite. No further traffic concerning ZUIKAKU connection this area since last summary.  
(CCM 14-182058-TI)  
(Summary, 190600, July, No. 8)

Constant watch was kept on the Commander in Chief of the Japanese Eighth Fleet for his arrival in the Solomons would mean that a more dangerous period had arrived:

RIP 102

22 JUN 1943

JULY 19, 1942 (Continued)

No. 149

At 2100, 17th, Cinc 4th addressed lengthy 7-part dispatch to Cinc Combined and General Staff, information 8th Fleet Detached Units OTI 435, 4th Fleet Task Force (SOTU 935), Cinc 11th Air Fleet, Comdr 4th and 5th Air Attack, Comcrudiv 6 and tentative Subfor (RETE 9).  
(COM 14-180818-TI)

It was noticed:

Inclusion of 8th Fleet, Crudiv 6 and 5th Air Attack Force continues association of 8th Fleet with the New Britain area.  
4th Air Attack Force is placed in the Marshalls but in the past has operated South over the Gilberts. Concerning tentative Subforce (RETE 9) in this message heading, the only Subforce Units so far associated in traffic with the 8th Fleet are Comsubrons 6 and 7. On 16 July Comsubron 6 included Comsubron 7 and Cinc 8th Fleet in a message heading which appeared to indicate movement of Subron 6 from the Empire to Truk. Subron 7 had appeared to be at Truk on 13 July.  
(Summary, 190600, July, No. 2)

No. 150

Cinc 8th Fleet (KAKU 7), shown proceeding to Rabaul via Chichijima and Truk, as noted in heading of Communication Zone report originated at 1200, 18th.  
(BEL. 190235-TI)

RIF 102

22 JUN 1943

JULY 19, 1942 (Continued)

No. 150 (Cont.)

It was mentioned:

The Cinc and Chief of Staff, 8th Fleet, have previously appeared in Empire area.

(Summary, 191400, July, No. 28)

No. 151

Cinc 8th Fleet (OTI 4) originated a dispatch at 1120, 16th, bearing code serial 001, and addressed to all Major Commands (AMA 5), all 1st and 2nd Class Naval Stations (RESHO) and (TATONA). Movement Report Office (SUEKO), plus unidentified YOFU 77, and Cinc Combined Fleet (NNI 4). This command is in the CHOKAI (NTI 9) and has apparently departed from Yokosuka to assume duties in Solomon area.

(BEL. 170634-TI)

(Summary, 191400, July, No. 29)

No. 152

Staff Communication Officer 8th Fleet (OTI 4), addressed one short urgent dispatch to Staff Communication Officer Southern Expeditionary Fleet (SEFU 1) at 1120, 16th. (BEL. 170634-TI)

(Summary, 191400, July, No. 30)

A jurisdictional division of the South Seas area was noticed in Japanese dispatches:

22 JUN 1943

JULY 19, 1942 (Continued)

No. 153

Enciphered "All Commanders of the Outside South Seas Force" appeared as information address in dispatch at 0800, 16th, from Rabaul Radio (HOKI 7). It has been previously noted that the South Seas Force or area, is divided into "Inside" and "Outside" Precincts, however, of what these areas or forces consist has not been determined. (BEL-180741-TI)

It was noted:

The documents relating to the "SN" Operation were headed "South Seas Force Orders". The term "South Sea Force" was also used in connection with the "MO" Campaign (Coral Sea) in May.  
(Summary, 190600, July, No. 35)

It has been already pointed out that many Marus, or transport and supply ships, were in the Rabaul district. Further indications of their presence were noted now:

No. 154

Combatant ship WIMU Ø is in Rabaul area and is associated with the AZUMA MARU (FUKE 5). (BEL-17Ø658-TI)

RIP 102

Kavieng (TOWA 9), to Chief of Staff 1st  
Fleet (ENU 1), information Tokyo Personnel

RIF 102

JULY 19, 1942 (Continued)

No. 167 (Cont.)

It was mentioned:

On 16 and 17 July ZUIKAKU originated two dispatches which gave indications of T.I. of a possible prospective trip to the Southwest Asia area.  
(Summary, 190600, July, No. 13)

No. 168

ZUIKAKU (NARE 7) appears enroute to Singapore by way of Takao as indicated by dispatch originated at 1900, 16th from ZUIKAKU (NARE 785). Action addressees were Singapore (NINO 9), Takao Radio (AFU 7), Sasebo Radio (RITS 2) plus unidentified WIMU 3 and UHE 5, info to Kure (YUME 8). Association with Desrons 2 (NETI 7), 3 (NASI 3), and 4 (TUWI 5) may indicate that vessel to be in company with Crudiv 7 and other units possibly enroute Surabaya via Takao. This apparent movement suggests two possibilities: 1st, ZUIKAKU is scheduled for docking at Singapore or, 2nd, Task Force is being formed for use in Indian Ocean or against Australia. Since no direct association has been noted between ZUIKAKU and Crudiv 7, the former assumption appears more logical.  
(BEL-180644-TI)  
(Summary, 190600, July, No. 14)

It was noticed:

TUROSU is identified as Rabaul Army Command.  
(Summary, 201400, July, No. 27)

Japanese espionage reports contained some items concerning American preparations for the defense of Australia. It is interesting to note that the next dispatch contains information gathered in America, and transmitted to Tokyo via Madrid:

RIF 102

22 JUN 1943

JULY 20, 1942 (Continued)No. 179

FROM: Madrid #763 July 16/(?)

TO : Tokyo

TO Intelligence. (New York the 15th.)

1. It has been said that a convoy which is scheduled to go to Australia, is taking extra special precautions against torpedoes and machine mines. The escort ships have a flexible net which is dropped to intercept torpedoes. According to the stories of members of the convoy's crew, this net has shown excellent results in actual tests.

\_\_\_\_\_ it is square \_\_\_\_\_ it is considered finally, to make sailing in a mass \_\_\_\_\_. The present convoy has 5 (?) nets like those (described?) above, and numbers 2ø ships \_\_\_\_\_.

2. According to confidential remarks of an American Officer who recently returned from Australia, fortifications and trenches have been built throughout Australia. If the Japanese army cannot land in Australia and New Zealand without loss of time, and incidentally, all the points of likely landings in both places have been strongly fortified, it will become absolutely impossible. There follows a gist of his report on the defense positions being constructed between Cooktown and Cairns which he saw himself (?). These defenses render the defense of the southern regions firm.

There is a strip of land mines at a point a mile from the coast. It is exploded in sections by an electric current from the encampment in the rear. Tank defenses follow the mined area. They have carried out preparations for (close range flame throwers (?)). Back of these is another mine field

RIP 102

22 JUN 1943

JULY 20, 1942 (Continued)No. 179 (Cont.)

and then barb wire entanglements. Then there are trenches, machine guns, pill-boxes, and reinforced gun emplacements. Behind these, we suppose that the enemy has made preparations in the event of a gas attack by setting up gas throwers. 3. In New Orleans they are rapidly constructing torpedo boats which will be sent to the California region after actual tests have been made.

I have passed this on to Germany and Italy.  
(GZ#5336-Opnav 192147-DI)  
(Summary, 200600, July, No. 7)

It was suspected that the Japanese were attempting radio deception during this period:

No. 180

Due contradictions confusing identifications of many new Major Force calls, suspect some apparently significant headings may be deception. Without proof so far. (COM 14-200646-TI)  
(Summary, 200600, July, No. 3)

The reader may be interested in observing the close attention paid to every message emanating from the Rabaul-Solomon Islands area, from which deductions could be drawn sometimes from the location of

No. 189 (Cont.)

possibly the NAYA. (BEL-200625-TI)

It was noted:

NAYA is evidently incorrect and may be either NAKA, a CL, which on 16 June was believed refitting in Singapore, or more likely MAYA, a CA, which on 18 July was Flag of Crudiv 4.

(Summary, 201400, July, No. 26)

Japanese Radio Intelligence was operating in this area:

No. 190

Rabaul intelligence messages include Comcrudiv 6 (CRU 55), Flagship Desdiv 29 (SAA 6), and Chief of Staff 8th Fleet (RI-TA 104) on 20 July. Also includes Comcrudiv 18 (RUHA 99) in separate RI message as though subject concerned was different than those to Comcrudiv 6. (CT#431-Opnav-201730-TI)

It was indicated:

Comcrudiv 6 on 19 July was believed aboard AOBA at Kavieng.  
Comcrudiv 18 on 18 July was indicated as still using Rabaul as cover.

-----

23 JUN 1943

JULY 21, 1942

Great interest was shown in Japanese air carrier and air supply movements, since these were helping to provide a very potent striking force for the enemy:

No. 191

Carrier traffic 19-20 July shows no further association with Indies Command. ZUIKAKU received two from Yokosuka Air (NAWA 88) Info: Plane Group Comdrs. (KESI 77) and (NOTI 99), delivered via Tokyo Broadcast. Also received one from Communication Officer Yokosuka at 1530/19 July delivered by Tokyo at 0600/20th. (GT #435-OPNAV 202015-TI)

It was commented:

Traffic associations on the 17th and 18th July strongly indicated that the ZUIKAKU would move to Southwest Asia. (Summary 210600, July, No. 17)

No. 192

MOTI Ø, Serial 65 of July 19:  
"Arrived Rabaul(?) at 0600/19th."

Comment: Believe questionable Rabaul correct as this call was observed working Rabaul on 17th and was placed in area on that date.  
(BEL-200845-DI)

JULY 21, 1942 (Continued)

No. 192 (Cont.)

It was remarked:

MOTI Ø entered Rabaul Communication Zone at 0800/18 July from Saipan Communication Zone. All associations indicate it is an air tender as partially identified by COM 14.

(Summary 210600, July, No. 31)

Knowledge of the routes taken by enemy destroyers and cruisers on their way to southern waters was of considerable value, since these indicated the paths taken by the convoys they were guarding:

No. 193

Comdesron 2, in no originator dispatch at 1900, 19th, addressed Desdiv YUMI 8, destroyer NORO 6 of Desdiv RIYU 7, information to Chief of Staff 2nd Fleet (TUE 9), Tokyo Transportation Office, Chief of Staff 4th Fleet (AKI 2), Chief of Staff KAKI 6, Chief of Staff and Transportation Office Yokosuka, 4th, 6th and 7th (HI N 9) Base Forces, Maru MASI 8 and Yokosuka Defense Force.

It was observed:

Taken to indicate that destroyer units named are to convoy from Empire to Marshalls.  
(COM 14-202002-TI)  
(Summary 210600, July, No. 27)

JULY 21, 1942 (Continued)

22 JUN 1943

No. 194

Unidentified RESO 88 (probably Indies Commander) addressed Comcrudiv 7 (ROTU 11), Cine Southern Expeditionary Force (RISU 44), info Desdiv 2 (KISE 1), Base #22 at Balikpapan (UFU 66) at 0600, 21 July. This may be indication of route being taken by Crudiv 7 vessels and Desdiv 2 now enroute Southwestern Area.  
(GT #439-OPNAV-211645-TI)  
(Summary 211400, July, No. 22)

Traffic between various southern stations was watched closely for signs of imminent action by the enemy:

No. 195

Unidentified FUN 1 now in active association in 3rd Fleet Area. This call formerly in 4th Air Attack Corps in Marshalls.  
(COM 14-202006-TI)

It was stated:

FUN 1 is tentatively identified as Rabaul Radio.  
(Summary 210600, July, No. 38)

JULY 21, 1942 (Continued)

No. 196

Liaison between Staffs 4th and 8th Fleets increasing. (COM 14-210918-TI)  
(Summary 211400, July, No. 20)

No. 197

By routing, part of Desdiv 34 is at Palao. (COM 14-202006-TI)

It was noted:

On 19 July, traffic intelligence indicated that two ships of Desdiv 34 were in the Rabaul Area.  
(Summary 210600, July, No. 28)

Allied planes attacked Japanese areas on this day according to a report from the enemy radio at Lae:

No. 198

Lae Radio (KIRO 4) at 1415, on 21st, in abbreviated contact dispatch addressed to Comcrudiv 18 (RUHA 9) indicated that air raid was in that area. Reported sighting by Allied planes of 12 ships including probable cruisers 6 hours earlier in vicinity Salamoia plus above indicates Crudiv 18 units involved. (COM 14-211202-DI)

JULY 21, 1942 (Continued)

No. 198 (Cont.)

It was mentioned:

Traffic analysis on 20 July, indicated radio intelligence messages from Rabaul include Comcrudiv 6, Flagship Desdiv 29, and Chief of Staff 8th Fleet. Also includes Comcrudiv 18 in separate radio intelligence message as though subject concerned different than those to Comcrudiv 6. Comcrudiv 18, on 18 July, was indicated as using Rabaul as cover.  
(Summary 211400, July, No. 18)

No. 199

At 1510, Lae amplified contact report to Comcrudiv 18 (MOTE 00) in short JN 24 message. (GT #439-OPNAV-211645-TI)  
(Summary 211400, July, No. 19)

American submarines had been active along the convoy routes during May, 1942 as the next message belatedly demonstrated:

No. 200

11 May/1150  
FROM: WAMU 77 (10th Base Force at Ambon)  
TO : EMA 604 (Major Shore Station)  
INFO: RATO 604 (4th Fleet)

3 submarine torpedoes which were fired at the (c.g. x52848 - ship) on the 8th were discovered near Olang Cape in Amboina Bay. They were manufactured by the Newport Torpedo Station in 1934. (GZ #2217-OPNAV-202000-DI)  
(Summary 211400, July, No. 30)

22 JUN 1943

JULY 22, 1942

Captured Japanese documents confirmed some important information known about the enemy's weather code and methods of reporting contacts with Allied forces:

No. 201

Documents referred to in Melbunit's 170511, and now being microphotographed, were recovered from canvas handbag thrown from Orange Naval bomber shot down at Gaille, New Guinea, July 10. Included among personal items, photos of Japanese and American Naval vessels at various target angles, bombing and navigation tables, etc., are photostatic copies of (1) weather code, (2) universal position grid, (3) two tables of Kana for use in radio deception, (4) organization of Combined Fleet (which looks suspicious), and (5) most important, a badly tattered code book, not a photostat, of two and three Kana groups. Full details as well as photographs will be forwarded as soon as available. Preliminary translations await development of films because originals had to be returned to RAAF. (BEL. 170548-DI) (Summary 220600, July, No. 1)

No. 202

Microfilm is on the way to Washington and Honolulu, but as prints of code book did not come out as well as expected, additional photographs have been taken

JULY 22, 1942 (Continued)

No. 202 (Cont.)

and will be forwarded if any improvement noted. Weather code and position grid do not develop into useful copy because of bad condition of subject and limitations our equipment. Former will be copied and sent. Latter can be reconstructed when it is noted that small kana in each square is repetition of rectangular coordinates and circles mark distances in units of 2 kilometers from center. Title of this grid is "Form for Use in Reporting Enemy Formation," and center is presumed to be center of enemy disposition. Title of Kana tables described as for use in radio deception translates literally as "False Dispatch Protective Signs," freely rendered as "Authenticator Signs". Method and scope of use not clear. Combined Fleet Organization List described as suspicious lacks a 3rd Fleet and appears to correspond to status of mid-1940. (Bel. 190512-DI) (Summary 220600, July, No. 2)

Enemy destroyers and cruisers continued to be active in convoying Army forces into the Solomon area:

No. 203

Army forces believed moving from Davao to New Britain Area, screened by units of Desron 5. (Cincpac 210147-Bull.#120) (Summary 220600, July, No. 48)

JULY 22, 1942 (Continued)

No. 204

Volume of Army traffic over Navy circuits continues to be heavy with addressees at Davao, Rabaul, and Empire involved. (BEL. 210650-TI) (Summary 220600, July, No. 49)

No. 205

8th Base Force still dominant originator. (COM 14-210922-TI) (Summary 220600, July, No. 52)

No. 206

Comcrudiv 18 was in dispatch which also included Koepang (TOFU 8). This considered with heavy Army traffic load between Rabaul and Davao, and association in one instance of Crudiv 18 with Davao Base Force (NENI 5) on 19th, suggests that this division may escort Army reinforcements from Davao to Rabaul. (BEL. 210715-TI) (Summary 220600, July, No. 57)

It was commented:

Comcrudiv 18 was addressed in a contact report of enemy aircraft by Lae Radio, mentioned above. It is also believed that Crudiv 18 is involved with the 12 ships sighted in Salamoa Area July 21st.

JULY 22, 1942 (Continued)

22 JUN 1943

No. 207

Bureau Military Affairs (KEOMA) still busy with bases and Base Forces along route to Singapore and NEI Area indicating extent of logistic arrangements being made. (COM 14-220616-TI)(Summary 220600, July, No. 69)

No. 208

Comcrudiv 18, 22 July, using Rabaul (KANO 1) cover, addressed Cine 4th (TEYU 99), information TUROSU at RESI Ø which by D/F is at Ø4 S., 146 E. Previous identification of RESI Ø as AIRON 25 may be incorrect, and RESI Ø actually Air Base and port in New Guinea (Lae or Salamaua). Other addressees of message (serial 312) are garbled except Tainan Air (EQU 88) and 5th Air Attack (NIRI 66). (GT #446-OPNAV-221801-TI)

It was remarked:

TUROSU is an Army Command.  
(Summary 221400, July, No. 12)

Crudivs 6 and 18 figured very prominently in enemy traffic, for each was operating separately in the Rabaul area:

JULY 22, 1942 (Continued)

No. 209

Comcrudiv 6 at Kavieng 17th to 19th, no indications whether yet departed elsewhere. (COM 14-211902-TI)

It was observed:

On July 20th, Staff Communication Officer, Crudiv 6, appeared at Kavieng. (Summary 220600, July, No. 54)

No. 210

Comcrudiv 6 (ORU 5) and Comcrudiv 18 (RUHA 9) were included as addressees in intelligence dispatches from Rebaul, but both not included in any one dispatch, further suggesting these divisions operating separately. (Bel. 210715-TI)

It was remarked:

The fact that Crudiv 6 and Crudiv 18 appear to be operating separately has been noted previously. (Summary 220600, July, No. 55)

No. 211

In connection with reported sighting enemy force including Cruisers, Salamaua Area, 21st, believed Crudiv 18 escorting transports? to New Britain. (Com-14-211902-TI)

JULY 22, 1942 (Continued)

No. 211 (Cont.)

It was stated:

Allied planes reported sighting 12 ships, including probable cruisers, about 0815, July 21st, in vicinity Salamaua. (Summary 220600, July, No. 59)

An estimate was made as to the location of various Japanese units which had been observed in radio traffic:

No. 212

Crudiv 18 now indicated in Lae-Salamaua Area. Crudiv 6 at Kavieng on 18th. Desron 6: Desdiv 29 in Tulagi Area, Desdiv 30 in Rabaul Area. One Division of Subron 8 in South Pacific. NATORI uncertain having been reported both, remaining in Indies waters and returned to Maizuru. 2 DD's of Desdiv 34 believed at Rabaul. Southern Expeditionary Fleet reported N.E.I. waters. (OPNAV-212201-ONI BULL)

It was indicated:

Traffic analysis indicated NATORI may have been in Mairuru on 10 July, but on 14 July, it appeared that she was returning to the N.E.I. Area. (Summary 221400, July, No. 11)

SECRET  
22 JUN 1942JULY 22, 1942 (Continued)No. 213

Urgent dispatch from Comdesron 5 (KOMO 5) to Comdr. Ambon Base Force (WAMU 7) and ISUZU (NRU 1); info Comdr. Makassar Base Force (ROYA 8) suggests ISUZU returning to Southern Area. (BEL. 210650-TI)

It was pointed out:

On June 26th, the ISUZU appeared possibly enroute to Yokosuka. On July 5th, BEL. reported that the ISUZU was no longer the flagship of Desron 5 and was probably enroute Yokosuka.

An analysis of the make-up of Cruiser Division 7 of the Japanese Navy was made for operational authorities by U.S. Navy Communication Intelligence:

No. 214CRUDIV 7SPECIAL NOTE FOR F-1

Prior to the Midway engagement, the calls KOSE 0, SAWA 1, MUTU 2 and RASE 6 were identified as the four ships of Crudiv 7--KUMANO, MIKUMA, MOGAMI, and SUZUYA. Which call belonged to which ship, however, had not been definitely determined, although it was thought that MUTU 2 was the MOGAMI.

During the interval between Midway and July 20, all of these calls were heard

JULY 22, 1942 (Continued)

22 JUN 1943

No. 214 (Cont.)

in traffic with the exception of SAWA 1, a fact which would indicate that three ships are still afloat, but that the latter has been lost. Assuming the correctness of the information obtained from a prisoner that the MIKUMA actually sank on June 6th, it would appear that SAWA 1 was the latter's call. This conclusion also tends to confirm the identification of MUTU 2 as the MOGAMI because (a) the prisoner also said that the MIKUMA and MOGAMI operated together independently of the other two ships of Crudiv 7, and (b) the calls SAWA 1 and MUTU 2 had been associated together prior to Midway to the exclusion of the other two calls.

While there is information from other sources suggesting the possible sinking of the MOGAMI as well as the MIKUMA, the only evidence available to date from radio intelligence sources supporting this conclusion is a single appearance, on July 15, of an enciphered call for the Commanding Officer of the MOGAMI; were the ship still afloat, it would not be usual to address the Commanding Officer in this manner. On the other hand, the call MUTU 2 has also appeared subsequent to the enciphered address of July 15. Unless deception is being practiced, or its old call has been assigned to some other ship, the MOGAMI may still be in existence.

Although by no means conclusive, the weight of the evidence indicates that Crudiv 7 now consists of KUMANO 2nd SUZUYA, and possibly the MOGAMI.  
(Summary 221400, July, No. 19)

JULY 22, 1942 (Continued)

Information concerning the actions of the  
Japanese Commanders was supplied by traffic analysis:

No. 215

Cinc 4th Fleet (TUMI 6) indicated as shifting  
flagships at 0920, 19th. At 0600, 20th  
MURO 1 (KASHIMA?) previous flagship sent  
encoded Communication Zone report indicating  
movement from Truk to Kure via Saipan and  
Chichijima, followed at 0700 by movement  
report which also indicated departure for  
Kure. (BEL. 210650-TI)  
(Summary 220600, July, No. 45)

No. 216

8th Fleet command ready assume active par-  
ticipation indicated by present inclusion  
R.I. headings from Rabaul-Truk.  
(COM-14-211858-TI)

It was mentioned:

The 8th Fleet appears concerned with  
the Southwestern Pacific Area. The Cinc  
8th Fleet with CHOKAI as flagship appeared  
enroute Rabaul, June 20th.

No. 217

Cinc 4th (HAHE 22) addressed tanker RUHI 11,  
information Cinc 8th Fleet (OTI 44), Comcrudiv 8  
(KUSA 88), Truk Base (NERI 11), Saipan Base

22 JUN 1943

JULY 22, 1942 (Continued)No. 217 (Cont.)

(YUHE 99), Rabaul Base (WAKO 11), Military Stores Section at Truk (NIMITU), Rabaul Address (HAWIHO) at 1320, 22 July. This is first association Crudiv 8 with Southern Area and appears to be strong indication this Crudiv will operate under Cine 8th Fleet. Also note further association RUHI 1 with this Force. (GT #447-OPNAV-221803-TI) (Summary 221400, July, No. 10)

No. 218

Comcrudiv 7 (ROTU 1), Comdesron 3 (NASI 3), Comdesron 5 (KOMO 5), Comairron 23 (YUHI 7), Comairron 21 (TIYU 6), Cine Combined (ROTE 5), and Chief of Naval General Staff (RETEKA), included as info addressees in dispatch from Cine 3rd (SUTU 3), to Cine Southern Expeditionary Fleet (NOSI 3), at ~~0000~~, 20th. (BEL. 210743-TI)

It was commented:

Airron 23 appeared at Kendari, July 4th. Airron 21 last placed at Sabang by Colombo on June 2nd. Crudiv 7 and Desron 3 appear enroute Singapore. Desron 5 appears engaged in convoy duty in Balikpapan-Makassar Area.

Locating several Japanese units in the Rabaul-Guadalcanal area was of help to our operational forces:

22 JUN 1942

JULY 22, 1942 (Continued)No. 219

At 0820, 21 July, Comdr. TULAGI Base Force (NANU 88) addressed 84th Guard Force (MORO 66); info Communication Officers 8th Fleet (OTI 495), 4th Fleet (MESU 195), Rabaul Base Force (WAKO 195) and enciphered "Guadalcanal Detachment, Kure 3rd Special Force" at MUNE 9. (GT #440-OPNAV 211650-TI)

It was remarked:

The 84th Guard Force on 19 July, was indicated in Rabaul Area.  
(Summary 220600, July, No. 63)

No. 220

From enciphered address Kure 3rd Special Force is at Guadalcanal.  
(COM-14-220644-TI)

It was observed:

Kure #5 Special Landing Force from associations is believed will operate within that area but nothing is known regarding the Kure 3rd Special Force.  
(Summary 220600, July, No. 65)

No. 221

Fleet Tanker (RUHI 11) addressed Chief of Staff 8th Fleet (OTI 404) and Chief of Staff 4th Fleet (TUMI 604), Rabaul Base (WAKO 11), information Comcrudivs 6 and 18 (ORU 55 and RUHA 99, respectively), at 1650, 21 July.

22 JUN 1943

JULY 22, 1942 (Continued)No. 221 (Cont.)

Obviously this tanker proceeding to Rabaul Area, if not already arrive.  
(GT #447-OPNAV-221803-TI)

It was indicated:

Tanker RUHI 1 appeared to be at Truk on 4 July and on 11 July, T.I. indicated movement to Rabaul Area.  
(Summary 221400, July, No. 9)

No. 222

Comdr. Tainan Air (EKU 88) shown at RESI Ø. (GT #447-OPNAV-221801-TI)

It was pointed out:

RESI Ø now tentatively identified as Air Base and port in New Guinea, possibly Lae or Salamaua.  
(Summary 221400, July, No. 14)

No. 223

FROM: EKU 8, #751, July 21.

Unreadable, but RZ (Blank) Occupation Force is mentioned. Assume "Blank" is either "P" or "Q" which would make it Port Moresby or place in that vicinity.  
(BEL. - 211505-DI)

It was stated:

EKU 8 is Tainan Air Group which has been placed in the New Guinea Area.  
(Summary 221400, July, No. 15)

JULY 22, 1942 (Continued)

According to the next dispatch, the enemy was sending direction finder bearings on American units:

No. 224

Between 1637 and 1850, 22 July, Horomushiro (TUI 3) originated series of 11 messages believed to be reports of D/F bearings. These were the only messages originated by this station during this period. At 1809 Marcus Island (TEA 6) originated one message of this type.  
(GT #445-OPNAV-221803-TI)  
(Summary 221400, July, No. 2)

Enemy submarine traffic was also scrutinized carefully, and the presence of these dangerous obstacles in the path of Allied ships was noted:

No. 225

At 1430, 21 July, Rabaul (WAKO 195) addressed submarine unit MIRE 11, in SUBRON 3; info unidentified RUSA 99 in operational type code. (GT #440-OPNAV 211650-TI)

It was noted:

MIRE 1 by D/F on 20th, was in 05 S., 169 E.

JULY 22, 1942 (Continued)

No. 226

Dispatches from Combined Fleet Staff concern Subron 8 and Tenders:

At 1430/21st July Secretary Combined Fleet (NNI 4) sent one to a Maru TUHE 9, ROHE 1 of Subron 8, Destroyer NIYU 3 of Desdiv 7, Info: Comdesdiv 7 (AKU 3). Suggest escort of sub units.

A message from a Desron 5 unit KERA 6 may tie in with this one addressed to Comdesdiv 7, info: Kure Personnel Comdr. 10th Base Force at Ambon (WAMU 7) and Chief of Staff Southeast Asia unit (KIKO 9) at 1750/21 July. (COM 14-220648-TI)

It was mentioned:

On June 26 DD NIYU 3 was in Ominato call up but probably shifted areas since then. Desron 5 has been associated with convoy duties in the Melanesian Area and Cincpac believes it is taking an army unit from Davao to Rabaul.

(Summary 220600, July, No. 62)

No. 227

Comsubron 7 (ENU 33) continues to be associated with units in Rabaul-Solomon Area. (GT #441-OPNAV 211655-TI)  
(Summary 220600, July, No. 70)

22 JUN 1943

JULY 22, 1942 (Continued)

No. 228

Subron 7 associated both 4th and 8th  
Fleet detached units. (COM-14-210922-TI)

It was noticed:

On July 19, Cinc 4th addressed Comcrudiv 6 and Comcrudiv 18, Rabaul, unidentified YUKI 99, Cinc 11th Air Fleet, 5th Air Attack Force and Kure 11 on MEN 4.

(Summary 220600, July, No. 71)

-----

22 JUN 1943

JULY 23, 1942

Japanese radio traffic in the Rabaul area still remained conspicuously active on July 23, as the following items testify:

No. 229

Administrative types remain much in evidence but more operationals noted.  
(COM 14-221952-TI) (Summary 230600, July, No. 4)

No. 230

Relatively quiet in all areas except 4th - 8th Fleet where traffic volume definitely overshadows others.  
(COM 14-221952-TI) (Summary 230600, July, No. 6)

No. 231

Several high precedence seen from Rabaul area. (COM 14-221952-TI)  
(Summary 230600, July, No. 43)

Allied planes had attacked some of the Japanese Occupation Forces, according to the next dispatch:

JULY 23, 1942 (Continued)No. 232

 (Summary 231400, July, No. 19)

No. 236

Rabaul RI messages were addressed to Destroyer (HOO Ø) and Maru (RISO 8) in addition to usual addressees on 23 July. These two vessels probably at sea in the area. (GT #455-OPNAV 231922-TI)  
 (Summary 231400, July, No. 21)

JULY 23, 1942 (Continued)

SECRET  
23 JUL 1942

The Kure 3rd Special Landing Force was evidently destined for the Guadalcanal area:

No. 237

Enciphered Guadalcanal Detachment of Kure #3 Special Landing Force is shown at Lunga (MUNE 9). NANU 8 may be Comdr. of this force and is currently at Kavieng. (BEL. 220809-TI)

It was observed:

The character of this force has not been determined.  
(Summary 230600, July, No. 52)

No. 238

Enciphered Kure 3rd Special Force addressed at Guadalcanal 21 July.  
(COM 14-230812-TI)  
(Summary 231400, July, No. 14)

Comcrudiv 18 was rather prominent in Japanese traffic, and it was indicated that it was in the Solomons area:

No. 239

Comcrudiv 18 under Rabaul cover originated urgent 4-Kana at 0810 22 July to all important Comdrs. Southern Theatre

JULY 23, 1942 (Continued)

22 JUN 1943

No. 239 (Cont.)

including Crudiv 6 and Comdr. Tainan Air at Vunakanau. Several high priorities subsequently sent by units in Rabaul Area to patrol Forces there. (COM 14-221956-TI)

It was stated:

Vunakanau is the airport just outside of Rabaul. Crudiv 18 is believed operating south of Rabaul in the Lae-Solomons Area on 21 July.

(Summary 230600, July, No. 49)

No. 240

Rabaul RI traffic going to Comcrudiv 18 as addressee and some short priority same type going to him, 4th and 8th Fleets Chiefs of Staff and KIMIHI only readdressed to 4th Task Force (SOTU 9). (COM 14-221956-TI)

It was indicated:

KIMIHI is Tokyo Radio Intelligence.  
(Summary 230600, July, No. 50)

No. 241

Part of Crudiv 18 may escort Davao army units from Mandates southward.  
(Cincpac Bull. #130-230435)  
(Summary 231400, July, No. 18)

Comcrudiv 6 was believed to be still at

Kavieng:

JULY 23, 1942 (Continued)

22 JUN 1942

No. 242

Dispatch from Kavieng (TOWA 9) with concealed originator Comcrudiv 6 indicates that command still at Kavieng at 2300, 21st. (BEL. 220809-TI)

It was pointed out:

On July 21st, COM 14 reported Comcrudiv 6, at Kavieng 17th to 19th, with no indications whether or not he has departed. (Summary 230600, July, No. 53)

Some information concerning the Japanese Army units in the region of the Solomons was learned from the day's traffic:

No. 243

Army Command (TUROSU) apparently divided between RESI Ø (On New Guinea?) and Rabaul Base (WAKO 1). (GT #454-OPNAV 231917-TI) (Summary 231400, July, No. 23)

No. 244

"Comdr Ikuta Force", apparently at Palao, addressed "Chief of Staff Oki Force attached to 4th Fleet" on 23 July. Message in Army cipher delivered to Truk but ultimate relay may have been to Rabaul. (GT #454-OPNAV-231917-TI)

22 JUN 1943

JULY 23, 1942 (Continued)No. 244 (Cont.)

It was noted:

Ikuta Force not previously noted.  
Oki Army Detachment appeared by T.I. to  
be at Davao as late as 9-10 July and has  
been associated with the New Britain area  
frequently during the past month.  
(Summary 231400, July, No. 24)

Unidentified calls of some importance were  
noted coming from Tulagi and Rabaul:

No. 245

Unidentified NATO 2 used Tulagi cover  
15-20 July. (COM 14-230814-TI)

It was remarked:

NATO 2 has appeared to be a Major  
Command or Shore Station call during the  
past, but it's identity for the current  
call period is not yet known.  
(Summary 231400, July, No. 16)

No. 246

Dispatch of highest precedence from  
Comdr. 8th Base Force (WAKO 1) at 1530  
#122? 22 July? went to unidentified MERE 3,  
Info: Chief of Staff 8th Fleet (NISE 1),  
Comdr. 5th Air Attack (NIRI 6), Maru air  
tender (RISO 8), AKIKAZE (HOO Ø) and 4th  
Fleet Communication Officer (OA 5).  
(COM 14-222046-TI)

22 JUN 1943

JULY 23, 1942 (Continued)No. 246 (Cont.)

It was indicated:

The 8th Base Force and 5th Air Attack Force is based at Rabaul. MERE 3 is one of the major command Shore Station calls and has not been identified since the last change. It has been an action addressee used on Rabaul dispatches the past few days which indicates it is a major fleet call. (Summary 230600, July, No. 57)

An enemy destroyer division and also a few Marus were noticed enroute to Rabaul:

No. 247

Desdiv MAN 5 of Desron 4 received traffic in care of ENO 3 (8th Fleet) and is probably in company with Cinc 8th in CHOKAI enroute Rabaul Area. (BEL.-220825-TI)  
(Summary 230600, July, No. 51)

No. 248

Maru (YUKA 3) addressed by Chief of Staff 4th Fleet (HAHE 204), information Chief of Staff 8th Fleet (OTI 404) and Rabaul Base (WAKO 11). Possibly this Maru enroute from Empire to Rabaul. (GT #454-OPNAV-231917-TI)  
(Summary 231400, July)

JULY 23, 1942 (Continued)No. 249

KAMIKAWA MARU (RISO 8) believed under escort AKIKAZE (HOO Ø), indicated enroute from Empire to Rabaul Area.  
(COM 14-230814-TI)

It was commented:

May not be KAMIKAWA MARU. Opnav identifies RISO 8 only as a Maru and has call RIYO 8 for KAMIKAWA MARU. KAMIKAWA MARU appears by TI to be in or near Home Waters while Maru RISO 8 and AKIKAZE are associated with Rabaul Radio in another item on this day indicating probable presence in Rabaul Area.

(Summary 231400, July, No. 20)

Important identifications were made through a compromise of an enciphered message heading:

No. 250

Compromise of enciphered SOTO NAN YOO BUTAI KAKU SIREI KAN and enciphered SOTO plus SOTU 935 indicates real meaning of suffix 35 is "All Commanders of Units in (Blank) Force", and SOTU 9 as "South Seas Force" rather than 4th Fleet Task Force. Same probably applies suffix 12 used by 5th Fleet. (COM 14-230814-TI)

It was observed:

SOTU 935 has appeared frequently in the past month usually as an addressee from Cinc

JULY 23, 1942 (Continued)

No. 250 (Cont.)

4th Fleet and associated with the New Britain area. South Seas Force has been concerned with the "SN" operation.  
(Summary 231400, July, No. 22)

Part of the enemy air strength at Rabaul was shifted to the vicinity of Lae, New Guinea:

No. 251

Traffic association suggests replacements or reinforcements for Yokohama Flying Boat Squadron (WIRA 4) are being drawn from Yokohama Air Station ? (NAWA 8) and ferried South via Saipan. (BEL. 220809-TI)

It was remarked:

Yokohama Air Group appears to be part of 5th Air Attack Force which is operating in the Rabaul Area.  
(Summary 230600, July, No. 54)

No. 252

Comdr. 82nd Guard Force (MIRO 7) is associated with Lae (RESI Ø) and Tainan Air Group and appears to remain in the Rabaul Area. (BEL. 220809-TI)  
(Summary 230600, July, No. 55)

23 JUL 1943

JULY 23, 1942 (Continued)No. 253

Between 0800 and 1200, 21st Comdr. Tainan Air (EKU 8) shifted from Rabaul to Lae as indicated by traffic routing.  
(BEL. 220809-TI)

It was observed:

On July 22nd, Tainan Air Group appeared at RESI Ø (Air Base at Lae or Salamaua).  
(Summary 230600, July, No. 56)

Heavy concentration of Japanese submarines along the Truk-Rabaul line was a noteworthy feature of the day's traffic:

No. 254

Staff Communication Officer 8th Base Force at Rabaul (WAKO 1) sent operational type dispatch to Comsubdiv 33 (SUE 3) at 1430, 21st. This division recently returned to Truk from Sasebo now apparently at or proceeding Rabaul. (BEL. 220746-TI)

It was stated:

Subdiv 33 appeared about to enter Truk harbor July 16th.  
(Summary 230600, July, No. 48)

29 JUN 1943

JULY 23, 1942 (Continued)No. 255

Subdiv SUE 3 of Subron 7 is using  
Truk cover along with Comsubron 7.  
(COM 14-230808-TI)

It was noticed:

Subdiv SUE 3 arrived in Truk area  
from Sasebo about 16 July.  
(Summary 231400, July, No. 32)

No. 256

Subron TEKA 9 indicated in Truk Communi-  
cation Zone today. (COM 14-230856-TI)

It was pointed out:

TEKA 9 is identified by OPNAV as  
Subron 6. (Summary 231400, July, No. 33)

No. 257

Part of Subron 6 may proceed Rabaul  
shortly. (Cincpac Bull. #130-230435)  
(Summary 231400, July, No. 34)

In an important resume, U.S. Navy traffic  
analysts disclosed the probable location of some  
enemy units in southern waters at this time:

JULY 23, 1942 (Continued)No. 258Locations of Units in Southeast:

Comcrudiv 6 is aboard AOBA probably accompanied by KAKO (SESI 1) in Kavieng Area 17-19 July. Second Section Crudiv 6, KINUGASA (WAHI 9) and FURUTAKA (TEYO 7) used Rabaul cover on 22nd; WAHI 9 (KINUGASA) used Truk cover 4 July and originated one under own call 6 July, indicating probably at sea that date. TEYO 7 (FURUTAKA) used Truk cover late June. Comcrudiv 18 using Rabaul cover in spite of fairly definite location in Salamaua Area; KASHIMA in Truk Area; believe TENRYU and TATSUTA are the two cruisers sighted Salamaua vicinity. Comdesron 6 aboard YUBARI (MEN 4) was in Tulagi Area using Tulagi cover 10-15 July. Comdesdiv 29 (NOSA 8) same area 14 July, apparently at sea 18 July. DD Unit KUMU 5, in Desron 6, originated operational type traffic 22nd and therefore believed concerned in New Guinea Area action, probably destroyer escort with Crudiv 18. 19th Division (NERE 6) used Rabaul cover 7 July and own call 10 July, possibly at sea. (COM 14-230812-TI)

It was mentioned:

KUMU 5 is identified as Desdiv 30 in Desron 6.

(Summary 231400, July, No. 13)

-----

22 JUN 1943

ORIGINAL  
SECRETJULY 24, 1942

It was believed that the Japanese were about to change their call signs or ciphers, and, in very short order, confirmation of this belief came:

No. 259

Tokyo Naval Communications (HIKUWI) continues to send long headings. Believe major communication change impending.  
(COM 14-232306-TI) (Summary 240600, July, No. 4)

No. 260

Major Shore Radio and High Command Call Signs changed at 0000/25 July (-9).  
(GT #472-OPNAV 241824-TI)  
(Summary 241400, July, No. 1)

Use of Radio Intelligence by the enemy was very common as the following messages demonstrate:

No. 261

Fragments indicate that on 21 July, Tokyo issued a directive regarding use of SC (Merchantmen to Navy) Code.  
(COM 14-240956-DI)  
(Summary 241400, July, No. 8)

22 JUN 1942

JULY 24, 1942 (Continued)No. 262

Truk originated highest precedence R.I. report at 2230, 23 July.  
(GT #461-OPNAV 240310-TI)  
(Summary 240600, July, No. 30)

No. 263

Fragments indicate that on 22 July Koepang gave D/F bearings of American planes operating from Moresby.  
(COM 14-240956-DI)  
(Summary 241400, July, No. 43)

It has been already noticed that a great number of Marus were enroute to the southern area. This heavy traffic was a clear indication of the enemy's intentions to build strong bases in this territory:

No. 264

Maru YON 4 addressed 34th Defense Force (MIMO 55), and message passed to Truk for delivery to South Seas Force by Tokyo. Furthers belief this Maru enroute Southern Area. (GT #460-OPNAV 240320-TI)

It was remarked:

34th Defense Force appears to be part of the 4th Base Force at Truk. A movement report from YON 4 on July 23rd indicated this Maru was enroute Palao to Rabaul via Truk. (Summary 240600, July, No. 31)

22 JUN 1942

JULY 24, 1942 (Continued)No. 265

Traffic routing and association indicates following: Maru NUSA 9 and Naval Auxiliary Y00 7 in Rabaul Area. Detachment of Yokohama Flying Boat Squadron (WINA 4) at Gasmata (MURO 5) SHINSEI MARU at Ambon (TUHA 2). (BEL.-230857-TI)

It was noticed:

A detachment of the Yokohama Flying Boat Squadron appeared at Truk on July 22nd. (Summary 240600, July, No. 47)

No. 266

FROM: Cinc 4th Fleet (HAHA 2) 22 July/1320  
 TO : Maru (RUHI 1)  
 INFO: Cinc 8th Fleet (OTI 4),  
 Comcrudiv 8 (KUSA 8),  
 Base Force Commanders at Truk (NERI 1),  
 Saipan (YUHE 9),  
 Rabaul (WAKO 1),  
 Chief of 4th Military Stores Section  
 at Truk (NIMITU),  
 Rabaul address (HAWIHO).

This is first noted association Crudiv 8 call with 4th Fleet activities and if call is not garbled association may indicate that Maru RUHI 1 will service that Crudiv in Truk or Rabaul Area. (BEL.-230816-TI) (Summary 240600, July, No. 53)

JULY 24, 1942 (Continued)No. 267

Maru (KIN Ø) now appears to be between Saipan and Truk enroute Rabaul; message addressed to Comcrudiv 6 (ORU 5) shows this vessel has something for the cruisers. (GT #467-OPNAV 211442-TI)  
(Summary 241400, July, No. 26)

No. 268

BRAZIL MARU indicated for trip to Truk on 23 July. No longer associated with Comdr. Yokosuka Special Landing Force (TIYO Ø). (GT #470-OPNAV-241812-TI)  
(Summary 241400, July, No. 32)

No. 269

Fragments indicate on 22 July a Maru who has been associated with 1st Air Fleet departed Palao for Rabaul. (COM 14-240956-DI)  
(Summary 241400, July, No. 35)

The activities of the Commander in Chief of the Eighth Fleet continued to attract attention, and it seemed certain that he was proceeding southward aboard the CHOKAI:

JULY 24, 1942 (Continued)

No. 270

Saipan Radio was in communication with CHOKAI (NTI 9) at 0230/23rd on 5375 kcs. Cine 8th Fleet is in the CHOKAI and evidently proceeding south as scheduled. Slight association also noted between CHOKAI and ABUKUMA (AKO 2). (BEL.-230800-TI)(Summary 240600, July, No. 37)

No. 271

Commander in Chief 8th Fleet is using Saipan Radio as cover originated three long priority dispatches to MIYORE (General Staff) and Chief of Staff Combined and Chief of Staff 4th. (COM 14-240858-TI)

It was commented:

Cine 8th Fleet believed in CHOKAI (CA) proceeding south was also in communication with Saipan Radio on the 23rd. (Summary 241400, July, No. 29)

No. 272

Truk Radio (TAHA 8) calls 8th Fleet (KAKU 7) to deliver to 8th Fleet Secretary (OTI 4) at 1515/24 July, indicating progress of Cine 8th in CHOKAI, enroute southward. (GT #467-OPNAV 241442-TI) (Summary 241400, July, No. 31)

22 JUN 1942

JULY 24, 1942 (Continued)

An estimate of the forces assigned to the Japanese 4th and 8th Fleets was given in the following dispatches:

No. 273

Association of SUZUYA (RASE 6) with Chief of Staff 8th Fleet (OTI 4) in heading of dispatch from Chief of Staff Combined Fleet (ROTE 5) suggests this vessel may be assigned to 8th Fleet. A total of 10 cruisers (8 CA's and 2 CL's) have been associated with Cinc 4th and 8th Fleets and indicated as possibly assigned to Rabaul Area. These include Crudivs 6, 8 and 18, plus CHOKAI, SUZUYA and possibly MAYA (AME 5). Still no evidence noted of adequate carrier support for such large concentration of heavy units.  
(BEL. 230832-TI)

It was commented:

Comcrudiv 6 was indicated by TI in Kavieng Area 17-19 July, 2nd Section used Rabaul cover on 22nd. Comcrudiv 18 using Rabaul cover in spite fairly definite location in Salamaua Area on 22 July, association of Comcrudiv 8 with Cinc 4th and 8th Fleets was first noted here, on 19 July TI indicated belief Crudiv 8 in Empire waters. CHOKAI, Flag of Cinc 8th Fleet, on June 20 with AME 8 was scheduled to proceed Rabaul. AME 8 has not been identified here. On 18 July BEL. stated SUZUYA at Truk and might proceed individually to Soerabaya.  
(Summary 240600, July, No. 43)

22 JUN 1943

JULY 24, 1942 (Continued)No. 274

FROM: Truk #055  
 TO : Cinc 8th Fleet (KAKU 77),  
 Comdesron 6 (KOKU 11),  
 Comcrudiv 6 (ORU 55),  
 Comcrudiv 18 (MOTE 00),  
 Comsubron 7 (AHI 44),  
 Division 19 (NERE 66),  
 5th Air Attack,  
 Truk Base Force (NERI 11),  
 Rabaul Base Force (WAKO 11),  
 Cinc 4th Fleet (AKI 22),  
 Unidentified (RUSA 99).

This appears to be complete lineup of combat units of 4th Fleet plus Subron 7 and Base Forces. (GT #457-OPNAV 240310-TI)  
 (Summary 240600, July, No. 45)

An urgent dispatch, which had been intercepted on July 22nd, indicated that an American attack had occurred in the Solomons area:

No. 275

Urgent contact type codes originated between 1130 and 1530, 22nd, and involving Maru HOKI 8, Salamaua Radio (KIRO 4), Desdiv 30 (KUMU 5) and man-of-war FUNI 6 (possibly cruiser of Crudiv 18). May indicate these units were attacked in Salamaua Area. (BEL.-230832-TI)

JULY 24, 1942 (Continued)

22 JUN 1943

No. 275 (Cont.)

It was commented:

HOKI 8 is tentatively identified here as 11th Air Fleet. COM 14 on 23 July stated DD unit KUMU 5, in Desron 6, originated operational type traffic 22nd, and therefore concerned in New Guinea traffic 22nd, and therefore concerned in New Guinea Area action, probably destroyer escort with Crudiv 18. (Summary 240600, July, No. 40)

Comcrudiv 18 still appeared prominently in enemy traffic, and units associated with it were thought to be near Rabaul.

No. 276

Several units using Rabaul cover. Comcrudiv 18 continues as in the past. Unit believed destroyer (MOO 8) in Desdiv ORI 3 of Desron 6 was at Tulagi cover on 13 July now at Rabaul. KUSU 2 in 19th Division 4th Fleet also under Rabaul cover. His last appearance was on 17th under own call addressing 4th and 8th Fleets Chief of Staff and 8th Base Force. (COM 14-240904-TI)

It was observed:

Division 19 had the OKINOSHIMA (listed as CM-6) as one of its units. (Summary 241400, July, No. 36)

JULY 24, 1942 (Continued)

No. 277

Sasebo #5 Special Landing Force (TOMA 6) has moved to unidentified Base (NOTA 7) - never noted before. Commander Tainan Air (EKU 8) at (RESI Ø) - New Guinea? - both included in address of Comcrudiv 18 (under Rabaul cover) dispatch at 1420/24 July. (GT #466-OPNAV 241442-TI)

It was remarked:

On 18 July BEL. stated Commander Sasebo #5 Special Landing Force was shown at Rabaul while his Force was probably at Salamaua. According to captured documents this Landing Force was scheduled to operate in eastern New Guinea - perhaps Buna. BEL. says RESI Ø is Lee, New Guinea. The Tainan Air Group has been operating in the vicinity of Rabaul and Lae. (Summary 241400, July, No. 37)

No. 278

Command KURE 11 shown on board Flagship Desron 6 (YUBARI?) (MEN 4), in message from Cine 4th (TEYU 99), also to Comcrudiv 6, Comcrudiv 18, Rabaul Base, AZUMA MARU (FUKE 55), Truk Base, unidentified combat ship NIMU ØØ; info 8th Fleet. (GT #459-OPNAV 240315-TI)

It was stated:

These forces appear to be operating in the Rabaul-Truk area. (Summary 240600, July, No. 41)

JULY 24, 1942 (Continued)

SECRET  
22 JUL 1943

Indications of difficulties experienced in the Rabaul region by Commander of Cruiser Division 18 on July 24th were now seen:

No. 279

At 0600/24 July, Comcrudiv 18, under Rabaul cover, originated most urgent to Destroyer (KUMU 5) in Desdiv 30, enciphered "Comdr. Seaplane Force at Salamaua." Info: Chief of Staff 8th (KAKU 7), 4th (AKO 9), unidentified SAYO 6 and RO-1 on board SA 6. (GT #471-OPNAV 241812-TI)  
(Summary 241400, July, No. 38)

No. 280

Comcrudiv 18 under Rabaul cover apparently in difficulty all day 24 July, judging from high precedence traffic originated. (GT #472-OPNAV 241824-TI)  
(Summary 241400, July, No. 39)

No. 281

KUSU 2 (in Division 19) using Rabaul as cover on 24th July, and was associated with Crudiv 18 and others in area. (GT #471-OPNAV 241812-TI)  
(Summary 241400, July, No. 40)

JULY 24, 1942 (Continued)

22 JUN 1949

Cruiser Division 6 was also in this area, and the presence of a tanker there led to the conclusion that a fueling rendezvous had or would take place:

No. 282

Second Section of Crudiv 6 (ORU 575) was addressed by Rabaul (HAME 4) in Weather Report at 0800, 22nd. Message numbers indicate KINUGASA (WAHI 9) was at Rabaul (KANO 1) at 2000 same date. That Crudiv now apparently split with Commander of one section at Kavieng and one at Rabaul. (BEL.-230816-TI)

It was indicated:

TI indicated Comcrudiv 6 aboard AOBA and probably accompanied by KAKO in Kavieng area 17-19 July. Second section Crudiv 6, KINUGASA and FURUTAKA used Rabaul cover on 22nd. (Summary 240600, July, No. 42)

No. 283

Fleet tanker (RUHE 1) appeared again in dispatch from 8th Base Force to 4th and 8th Fleets; info Crudivs 6 and 18, and Rabaul Supply (HAWIHO) at 22/1430. Probably in connection fueling rendezvous for those Crudivs. (COM 14-230852-TI)

JULY 24, 1942 (Continued)

No. 283 (Cont.)

It was pointed out:

On 22 July, Cinc 4th addressed Fleet Oiler RUHI; information Comcrudiv 8, Cinc 8th Fleet, 4th, 5th, and 8th Base Forces, Truk and tentative Rabaul Military Stores. (Summary 240600, July, No. 44)

The cruiser JINTSU also seemed to be in this vicinity:

No. 284

Rabaul Base Communication Officer (WAKO 195) addressed JINTSU (YUWI Ø) and unidentified combat ship (NEU ØØ). JINTSU (YUWI Ø) was last seen with Comdesdiv RIYU 77 on board. (GT #459-OPNAV-240315-TI)

It was stated:

The Cruiser JINTSU appeared in Ominato area July 18th, with one division of Desron 2. On July 21st, the JINTSU was an info addressee from Comdesdiv KIYU 7, which appeared enroute Sasebo to Truk. JINTSU appeared to be flagship of Desron 2. This possibly indicates these ships proceeding to Rabaul area.

Cruiser Division 7 was enroute to southern waters, and its progress was watched very carefully.

JULY 24, 1942 (Continued)22 JUL 1942  
SECRET

Units associated with it in radio traffic were also important, for there were some signs present that a carrier force as well as additional destroyers would join it:

No. 285

At 2000, 21st, Secretary Combined Fleet sent one to 1st Air Fleet Tender SESI 3, care Crudiv 7 (YUMO 9), two unidentified shore calls HANORA and HOKENI, and flagship Airron 11 (23?). SESI 3 is a tanker, she may be fueling Crudiv 7, but more likely is in company, which gives further indications of carriers of 1st Air Fleet going to Truk. (COM 14-232306-TI)

It was commented:

Crudiv 7 appears to be enroute Soerabaya but the route to be travelled is still uncertain.

(Summary 240600, July, No. 29)

No. 286

Dei Force (SEA 5) addressed Crudiv 7 (YUMO 9), Desron 5 (INE 4), and Kendari Base Force (MERE 6) at 1000/24th. Seems possible Desron 5 units have joined this Force. Kendari Base adds one more step to indicate route of Crudiv 7.

(GT #464-OPNAV 241429-TI)

(Summary 241400, July, No. 46)

JULY 24, 1942 (Continued)ORIGINAL  
SECRET  
22 JUN 1943No. 287

Unidentified Fleet Secretary (RUTO Ø) probably in Indies - addressed Comcrudiv 7 (ROTU 1), Comdesdiv 2 (KISF 1), Unidentified (TEHI 7) - Fleet Command or Major Shore Radio Stations, Info: Soerabaya Base Communication Officer (TAYU 3) at 1300/24 July. Appears Crudiv 7 goes to Soerabaya from Kendari. (GT #464-OPNAV 241429-TI) (Summary 241400, July, No. 47)

No. 288

Destroyer (NURU 6) originated apparent enciphered communication zone change to Communication Officer Crudiv 7 (ROTU 1), Comdesdiv (WINA 2), Tokyo Radio (TIHO 5), Singapore Radio (NINO 9), and Unidentified Radio (UHE 3) - probably in Indies - at 2000/23 July, indicating this destroyer setting out after Crudiv 7 and his Division Commander. (GT #468-OPNAV-241542-TI)

It was mentioned:

WINA 2 has not been established as Desdiv Commander but has been established as a part of Desron 2. (Summary 241400, July, No. 49)

No. 289

One Division of Desron 2 escorting to Rabaul area. (Cincpac 240235-Bull. #131) (Summary 240600, July) (No. 54)

JULY 24, 1942 (Continued)

Some traffic associations were indicative of possible battle alignments, and, in addition, they demonstrated that liaison was being carried out by several commanders in the South:

No. 290

Cinc Southern Expeditionary Fleet (RIHE 6) addressed Comcrudiv 7 (ROTU 1), Comdesrons 3 and 5 (NASI 3 - KOMO 5), Comdr. 1st Air Attack (TIYO 6), Info: High Command (HOFU 2) on 23rd July.  
(GT #471-CPNAV 241812-TI)  
(Summary 241400, July, No. 44)

No. 291

Fragments indicate on 20 July Cinc 1st Fleet issued a radio order directing movement of a part of Desron 3.  
(COM 14-240956-DI)

It was noticed:

Traffic associations have indicated Desron 3 is about to go to Singapore.  
(Summary 241400, July, No. 48)

No. 292

Cinc 3rd Fleet (?) (HAMA 5) addressed extremely long 2-part dispatch to Cinc

20 JUN 1943

JULY 24, 1942 (Continued)ORIGINAL  
SECRETNo. 292 (Cont.)

Combined (TIWI 8), Info: 3rd Fleet(?), (HAMA 5), Cine Philippine Fleet (SOTI 5), Southern Expeditionary Fleet (SIFU 1), 4th Fleet (TUMI 6), 8th Fleet (OTI 4), Navy General Staff and two unidentified Bureaus. Indicates liaison southern commands at present time.  
(GT #472-OPNAV-241824-TI)  
(Summary 241400, July, No. 50)

However, direct communications between all Japanese units had not yet been achieved:

No. 293

Chief of Staff N.E.I. Force (WIMA 904) addressed collective NOSI 3 (identified as Southern Expeditionary Fleet, but possibly "All Ships Southwestern Area"), Info Chief of Staff All Major Commands (AMA 504), Unidentified (SEWI 2), and Tokyo Communication Section (HIKUWI) on 23 July. Tokyo put this message on high frequency broadcast, double-headed to Crudiv 7, Desron 3, and Desron 5 at 1300, 24 July. Apparently direct communications between Southwestern Commands and Crudiv 7, plus ships in company, has not yet been established.  
(GT #469-OPNAV-241552-TI)  
(Summary 241400, July, No. 45)

It seemed clear that the enemy Destroyer Divisions mentioned in the next dispatch were with the Commander in Chief of the Eighth Fleet:

JULY 24, 1942 (Continued)No. 294

Comdesdiv (MAN 5) in Desron 4 and Comdesdiv (RIYU 7), both info addressees of Jaluit message to Chief of Staff 8th Fleet (ENO 3) and 2nd Fleet (TUE 9), Info: 4th Fleet (AKI 2) indicating both Desdivs with Cine 8th. (GT #468-OPNAV 241542-TI) (Summary 241400, July, No. 30)

The Kure #3 Special Landing Force was also associated with the Eighth Fleet.

No. 295

Kure #3 Special Landing Force (HEKO 3) which apparently contributed something to Kiska Occupation, addressed Chief of Staff 8th Fleet on 24th July, in long 2-part message. (GT #470-OPNAV 241812-TI)

It was remarked:

On 22 July BEL. reported "Enciphered Guadalcanal Detachment of Kure #3 Special Landing Force is shown at Lunga." No other detachments of this force have been noted. (Summary 241400, July, No. 42)

The use of a certain heading in Japanese dispatches was explained tentatively:

ORIGINAL  
SECRETJULY 24, 1942 (Continued)No. 296

Heading referred to in Part 3 should be SOTO SOTU 935. Use of SOTO probably means detached and SOTO SOTU 935 probably refers to units detached from 4th Fleet cognizance to that of 8th Fleet.  
(COM 14-230852-TI)

It was commented:

Heading referred to above appeared in R.I. Summary 231400/Q July and is quoted: "Compromise of enciphered SOTO NAN YOO BUTAI KAKU SIREI KAN and enciphered SOTO plus SOTU 935 indicates real meaning of suffix 35 is "All Commanders of Units in (Blank) Force", and SOTU 9 as "South Seas Force" rather than 4th Fleet Task Force. Same probably applies suffix 12 used by 5th Fleet." (COM 14-230814-TI)  
(Summary 240600, July, No. 55)

A newly commissioned Japanese warship was moving southward:

No. 297

New fleet unit NETU 9 indicated in Saipan Zone. (COM 14-240906-TI)

It was remarked:

NETU 9 has been indicated as being fully commissioned sometime between 29 June and 1 July. Both BEL. and COM 14 have reported an association with 4th Fleet and Rabaul and believe it is enroute there.  
(Summary 241400, No. 25, July)

22 JUN 1943

RIP 102

ORIGINAL  
SECRET

JULY 24, 1942 (Continued)

It was fairly certain that enemy shore based planes were operating at this time in the Solomons:

No. 298

On same frequency, Guadalcanal (MUNE 9) and Tulagi (HANI 6) working planes and each other. No attempt these groups to work each other. Third group on this frequency was command 11th Air Fleet, unidentified SUKE 5 and WOKA 4, and MARU TEKA Ø.  
(COM 14-232306-TI)

It was observed:

Guadalcanal and Tulagi are in Solomon Islands area. The Comdr. 11th Air Fleet appears to command all shore based plane groups. (Summary 240600, July, No. 51)

No. 299

NANU 8, previously called Tulagi Base Force, upon recheck appears to be entirely associated with Kavieng (TOWA 9), only appearance noted at Tulagi (HANI 6) was with 69 suffix. (COM 14-230852-TI)

It was indicated:

NANU 8 is tentatively identified as Tulagi Base?, here.  
(Summary 240600, July, No. 52)

21 JUN 1943

R/P 102

ORIGINAL  
SECRET

JULY 24, 1942 (Continued)

No. 300

Fragments indicate on 11 July air searches from Guadalcanal included at least 3 sections. (COM 14-240956-DI) (Summary 241400, July, No. 41)

Conferences over the aircraft situation seemed to have been in progress about this date at Tenian, and, perhaps, as a result, six heavy bombers were transferred from the Second Air Corps:

No. 301

Fragments indicate on 22 July Chief of Staff 11th Air Fleet directed an Air Commander to fly from Rabaul to Tenian for conference. 8th Fleet and 4th Fleet also mentioned as was Tulagi. (COM 14-240956-DI) (Summary 241400, July, No. 23)

No. 302

Fragments indicate on 22 July 6 heavy bombers were ordered transferred from 2nd Air Corps. (COM 14-240956-DI) (Summary 241400, July, No. 51)

There was a decided increase in dispatches concerning enemy submarines, and it was interesting to note that an unusual number were on their way south or were already there:

JULY 24, 1942 (Continued)

20 JUN 1943

No. 303

Enemy submarines resuming activities  
in southeast Australian waters.  
(Cincpac 240235-Bulletin #131)  
(Summary 240600, July, No. 36)

No. 304

Subron 1 Flagship MERU 5 associated  
Desdiv MAN 5 of Desron 4. (COM 14-232308-TI)

It was commented:

On 17 July TI indicated MERU 5 at  
Yokosuka. On 22 July Desdiv MAN 5 of  
Desron 4 received traffic in care of  
8th Fleet and was probably in company  
with Cine 8th Fleet in CHOKAI enroute  
Rabaul Area. (Summary 240600, July, No. 38)

No. 305

Subdiv NANO 3 in Subron 3 addressed Rabaul  
(WAKO 11), Chief of Staff 4th (TUMI 604),  
5th Air Attack (NIRI 66), unidentified  
RUSA 9; info Chief of Staff Subforce (HOKU  
904) and Communication Officer Subron 3  
(TOYA 495). Submarine activity in Rabaul  
area is increasing. (GT #458-OPNAV 240315-TI)  
(Summary 240600, July, No. 49)

No. 306

One Division of Subron 7 enroute  
Rabaul area. (Cincpac 240235-Bulletin #131.)  
(Summary 240600, July, No. 50)

22 JUN 1943

JULY 24, 1942 (Continued)No. 307

Jaluit (NOYO 9) addressed Comsubron 7 (AHI 4), Info: Desdiv (MAN 5) in Desron 4. Association this Desdiv with Southern Area previously commented upon.  
(GT #471-OPNAV 241812-TI)  
(Summary 241400, July, No. 33)

No. 308

Penang Base Force (MEN 8) originated three involving Subron 8 and apparently pertaining communications Subron 8 and informing KOU Subron 8 of shipping movements in that area. (COM 14-240904-TI)

It was observed:

"KOU" means "A".  
(Summary 241400, July, No. 52)

No. 309

Chief of Staff Southern Expeditionary Fleet (RIHE 604) addressed long dispatch to "KOU" Subron 8 on 24 July.  
(GT #469-OPNAV-241552-TI)

It was observed:

Penang also sent dispatch to "KOU" Subron 8.

22 JUN 1943

JULY 24, 1942 (Continued)No. 307

Jaluit (NOYO 9) addressed Comsubron 7 (AHI 4), Info: Desdiv (MAN 5) in Desron 4. Association this Desdiv with Southern Area previously commented upon.  
(GT #471-OPNAV 241812-TI)  
(Summary 241400, July, No. 33)

No. 308

Penang Base Force (MEN 8) originated three involving Subron 8 and apparently pertaining communications Subron 8 and informing KOU Subron 8 of shipping movements in that area. (COM 14-240904-TI)

It was observed:

"KOU" means "A".  
(Summary 241400, July, No. 52)

No. 309

Chief of Staff Southern Expeditionary Fleet (RIHE 604) addressed long dispatch to "KOU" Subron 8 on 24 July.  
(GT #469-OPNAV-241552-TI)

It was observed:

Penang also sent dispatch to "KOU" Subron 8.

JULY 24, 1942 (Continued)

An estimate of the total number of submarines  
in operation with the Japanese Navy was now made:

No. 310

Review of Submarine Force shows that  
probably between 50 and 60 submarines in  
Jap Navy today. (COM 14-240908-TI)  
(Summary 241400, July, No. 54)

-----

JULY 25, 1942

Most of the Japanese radio traffic was centered in the southern area. The Commander in Chief of the Eighth Fleet was still coming south, and evidence of his approach was found in the routing of messages addressed to him:

No. 311

Chief center radio activity remains southern theatre. Comdr. 8th Base at Rabaul included as addressee with same importance 4th and 8th Fleet Staff. (COM 14-240854-TI) (Summary 250600, July, No. 18)

No. 312

Definite evidence now that Desdiv RIYU 7 has left Desron 2 and become attached to Desron 10. Desron 10 engaged in plane guard and carrier escort. RIYU 7 apparently on escort job temporarily in southern theater but evidently remaining in organization as Desron 10 was addressed collectively less Desdiv RIYU 7. (COM 14-240854-TI)

It was pointed out:

TI on 24 July indicated Desdiv RIYU 7 with Cinc 8th Fleet.  
(Summary 250600, July, No. 19)

22 JUN 1943

RIP ICE

JULY 25, 1942 (Continued)No. 313

Enciphered service dispatch from Rabaul to Truk Radio states secret calls for Flagship (CHOKAI) of 8th Fleet were NEKO and SUKE. (BEL.-240645-TI)

It was mentioned:

This may further the indications of the southward movement of the CHOKAI to the Rabaul area, probably going via Truk or through the Truk Communication Zone. (Summary 250600, July, No. 24)

No. 314

Truk Radio on 9880 kcs and Saipan Radio on 5375 kcs are in communication with CHOKAI (NTI 9). (BEL.-240645-TI)

It was commented:

Cinc 8th Fleet in CHOKAI originated encoded movement report at 1700, 19th and is evidently moving southward to Rabaul area as previously indicated by TI. (Summary 250600, July, No. 25)

It was thought that the new unidentified warship (NETU 9) was going south in the company of the Cinc 8th Fleet:

REF 102

22 JUN 1943

JULY 25, 1942 (Continued)

No. 315

Man-of-War NETU 9 apparently departed Saipan for Truk and Rabaul at 1300, 23rd, and might be in company with CHOKAI (NTI 9). (BEL.-240645-TI)

It was observed:

Man-of-War NETU 9 first appeared in traffic about 29 June and since 5 July has been shown as enroute Rabaul via Chichijima and Saipan. Previous association to the 4th Fleet has been noted by TI. (Summary 250600, July, No. 26)

An association of Japanese units in the following message revealed the enemy fleets in the South Pacific area:

No. 316

FROM: Comdr. 8th Base Force  
TO : Chief of Staff 4th Fleet.  
Chief of Staff 8th Fleet.  
Tokyo Operations (MIYORE).

This was a three part 5-numeral message, and probably a battle report.  
(COM 14-242034-TI) (Summary 250600, July, No. 23)

Traffic analysis also disclosed the presence of a Maru at Palao, and the continued activity of the Tainan Air Group at Lae:

22 JUN 1943

JULY 25, 1942 (Continued)No. 317

Traffic routing and association indicate Maru YON 4 is at Palao enroute Mairuzu. (BEL. 240651-TI)

It was noted:

On July 23rd and 24th, Maru YON 4 appeared at Palao with indications of going south to Rabaul via Truk. She appears to have departed Mairuzu July 4th for Palao. (Summary 250600, July, No. 11)

No. 318

Traffic routing and association indicate Comdr. Tainan Air Group (EKU 8) at Lae (RESI Ø). (BEL. 240651-TI)

It was mentioned:

Comdr. Tainan Air Group has previously appeared at Lae. (Summary 250600, July, No. 20)

No. 319

Comdr. Tainan Air (EKI 8) originated a dispatch aboard unidentified Fleet line call KISA Ø, as well as being addressed at RESI Ø (Lae? Vunakanau?). He may intend to come north as indicated by one at 1430, 24th, to Chitose Air (NOWA 5); info to 4th and 5th Air Attack Corps. (COM 14-250554-TI) (Summary 251400, July, No. 30)

09 JUN 1943

JULY 25, 1942 (Continued)

Surmisals were made concerning the activities of two Japanese aircraft carriers:

No. 320

SUZUYA (RASE 6) shown to be concealed originator at Truk. Dispatch originated at 1630, 22nd, by this vessel was addressed for action Comdr 1st Air Fleet (RORU 2) and Comcrudiv 7 (YUMO 9), information Chiefs of Staff Combined (TIWI 8), 2nd Fleet (HIMO 4) and 4th Fleet (TUMI 6), Comdesdiv RIYU 7, Air addresses at Kure (MARAKI) and Tokyo (NISUKO) plus Chief of Staff Sasebo (HOTOSO) and Sasebo Navy Yard (TAYO 1). This may indicate (1) Planes or aircraft equipment are to be transported to SUZUYA by some unit of 1st Air Fleet or (2) Contrary to previous indications the SUZUYA will return to Sasebo Navy Yard rather than proceed to Rabaul in company with Desdiv RIYU 7. (BEL.-240645-TI)

It was noted:

SUZUYA has been placed by TI in the Truk area since July 16th.  
(Summary 250600, July, No. 12)

No. 321

Nothing to be added remarks of NSS (Washington) and T2W (Belconnen), regarding Crudiv 7 and Desron 3 except to suggest Java area as possible destination of ZUIKAKU through previous association this vessel with Desron 3. (COM 14-250554-TI)

22 JUN 1943

JULY 25, 1942 (Continued)No. 321 (Cont.)

It was mentioned:

On July 18th and 19th, there were indications that ZUIKAKU was enroute Singapore via Takao possibly in company with Crudiv 7, but since that time there have been no further indications to confirm this movement. To the contrary, the ZUIKAKU still appears to be in Empire waters. (Summary 251400, July, No. 32)

The enemy cruiser damaged at Midway was once again ready for action:

No. 322

Tentative Crudiv 7 unit RASE 6, which has been in Truk since shortly after Midway Battle, originated under Truk cover to Comcrudiv 7 and others. Indications this vessel will soon return to active duty after completions repairs by AKASHI and will probably join Comcrudiv 7 in Malay area operations. (COM 14-242032-242034-TI)

It was remarked:

The status of RASE 6 is still vague. There have been indications that this ship might return to the home yard and there have also been indications that she might go to Rabaul and operate with the 8th Fleet. Crudiv 7 appeared to have retired

RIP 104

JULY 25, 1942 (Continued)No. 322 (Cont.)

to Truk following the Midway Battle for emergency repairs. After those repairs the ships of Crudiv 7, with the exception of RASE 6, returned to the Empire Navy Yards. This fact suggested that RASE 6 was very badly damaged and could not complete her initial emergency repairs as quickly as the other ships. RASE 6 is tentatively identified as the SUZUYA. (Summary 250600, July, No. 13)

Cruiser Division 18 was sending out much operational traffic, but though Cruiser Division 6 was thought to be in the region of Kavieng, there was no radio indications of its presence:

No. 323

Much traffic under Rabaul calls. With exception of RI reports most of this traffic originated by units covering under Rabaul. These include Comcrudiv 18, Destroyer KUSU 2, and possibly Destroyer MOO 8 of Desdiv ORI 3. KINUGASA and FURUTAKA of Crudiv 6 used Rabaul cover on the 22nd. (COM 14-242034-TI)  
(Summary 250600, July, No. 22)

No. 324

Highest priority operational traffic was originated by Comcrudiv 18 (under Rabaul cover) as Commander of Landing and Occupation Forces in Buna, New Guinea Area. (COM 14-242032-TI)

RIP 102

20 JUN 1943

JULY 25, 1942 (Continued)

No. 324 (Cont.)

It was pointed out:

TI, previously on 24 July, indicated Comcrudiv 18 (under Rabaul cover) apparently in difficulty all day, judging from high precedence traffic originated.  
(Summary 250600, July, No. 27)

No. 325

Comcrudiv 6 last in Kavieng Area.  
(COM 14-242034-TI)

It was stated:

To date there has been no definite indication that Comcrudiv 6 has departed Kavieng. Comcrudiv 6 was placed at Kavieng on July 18th, and on July 21st, appeared to be still there.  
(Summary 250600, July, No. 21)

No. 326

No sign of Crudiv 6.  
(COM 14-250558-TI) (Summary 251400, July, No. 34).

The Kure Special Force was still active at Guadalcanal, and the traffic of many Army units with Rabaul was noticed:

RIP 102

22 JUN 1943

JULY 25, 1942 (Continued)

No. 327

Kure Special Force is at Guadalcanal (Solomon Islands). (COISEF 1554z/23-OPNAV 251612)

It was indicated:

This is Kure #3 Special Landing Force. (Summary 251400, July, No. 33)

No. 328

Association Army units in Davao area with Rabaul becoming more pronounced. (COM 14-250540-TI)

It was remarked:

This association has been mentioned previously. (Summary 251400, July, No. 31)

Japanese submarines were maintaining radio silence, but many orders were being sent to them. An estimate of their position divulged that several groups were operating in Australian waters:

No. 329

Considerable traffic addressed to submarines but units themselves remain fairly silent. (COM 14-240854-TI) (Summary 250600, July, No. 33)

JULY 25, 1942 (Continued)

No. 330

High volume of submarine activity. Subron 2 units indicated by DF bearings to be working down from Alaska-Aleutians toward the Marshalls. Continued associations indicate movement of RO Divisions of Subron 7 into Northern area. Two divisions of Subron 3, NANO 3 and NUTU 6, plus Comsubron 3 were very active with bearings indicating them to be operating in Australian waters. (COM 14-242038-TI)

It was stated:

Subron 2 (RUTO ) and MASA 6 (Div. in Subron 2) were in 39 N - 174 W, and 40 N - 172 W, respectively, by DI on 23 July. Comsubron 2 had traffic delivered by Ominato on 24 July. On 23 July, TI, indicated Subdivs NANO 9 and AKI 1 both of Subron 7, with the Northern Forces. On 21 July, TI indicated Subron 7 associated with both 4th and 8th Fleets detached units. On 24 July, Subdiv NANO 3 in Subron 3 addressed Rabaul, Chief of Staff 4th Fleet, 5th Air Attack Force, one unidentified, info CofS Subforce and Comm. Officer Subron 3. Comsubron 3 was indicated with Subdivs NUTU 6 and NANO 3. (Summary 250600, July, No. 34)

No. 331

Units of Subron 3 believed operating off eastern Australia. (Cincpac Bull. #132-250303) (Summary 251400, July, No. 40)

22 JUN 1943

JULY 25, 1942 (Continued)

A very important resume of Japanese Radio Intelligence activities was now issued by U. S. Naval Communication Intelligence as follows:

No. 332

Numerous Jap shore stations are originating what we identify from addressees KI MI HI (Tokyo Naval Intelligence) and RARU 3 (Tokyo) Radio Intelligence Section) as being reports of intercepted radio transmissions. From translations available during May this identification of subject matter appears to be correct, as messages of this type from Jaluit almost invariably were reports and bearings of U.S. aircraft radio transmissions. If such is the case at present, Allied radio traffic is providing the Japanese with at least a great deal to talk about, for the volume of this type of traffic is enormous, relative to any other particular type. Each station has a fairly stereotyped list of addressees. The following is a partial list of stations originating such traffic with the dissemination from each indicated:

- (1) From: Jaluit  
To : R.I. Tokyo  
Cinc 4th Fleet  
4th Fleet Task Forces (or  
all ships in South Seas  
area)  
ONI Tokyo  
Info: Chief of Staff Combined Fleet  
Chief of Staff 11th Air Fleet

R.F. 102

Chief of Staff 5th Fleet  
(not always included)  
4th Air Attack Force  
5th Air Attack Force

(2) From: Palao  
To : ONI Tokyo  
RI Tokyo  
Cinc 4th Fleet  
4th Base Force, Truk  
Rabaul Base Force  
(Cinc 4th almost invariably has  
this type retransmitted by Truk  
to all stations in South Seas?  
(SOTU 9))

(3) From: Rabaul  
To : ONI Tokyo  
Chief of Staff 4th Fleet  
Comcrudiv 6 and 18  
Info: Chief of Staff 8th Fleet  
Kendari Base Force  
Truk  
(This type fairly recent in origin  
and addressees not as stereotyped  
as in other cases. This type also  
broadcast by Truk as directed by  
Cinc 4th Fleet)

(4) From: Truk  
To : RI Tokyo  
All Stations South Seas  
Cinc 4th Fleet  
Info: ONI Tokyo  
Palao  
Jaluit

22 JUN 1943

JULY 25, 1942 (Continued)No. 332 (Cont.)

(5)(a) From: Tokyo RI  
 To : 5th Fleet (or all ships  
 Northern area)  
 Kiska  
 Info: Chief of Staff Combined Fleet  
 Comdt. Ominato

(b) From: Tokyo RI  
 To : Cinc 5th Fleet  
 All Major Commands less  
 N.E.I. Force  
 Info: Ominato  
 All RI Stations?  
 Horomushiro

(Tokyo's RI messages seem to be altered as to addressees as circumstances require. However, the above two types are fairly constant).

(6) From: Kiska  
 To : ONI Tokyo  
 Chief of Staff 5th Fleet  
 Ominato Radio  
 Horomushiro  
 Info: 5th Fleet

It was commented:

It is not believed that the vast volume of enemy communication intelligence traffic is indicative of a break into any of our cipher systems or of their compromise through capture. Subject matter is chiefly call signs, of above messages, bearings and other items and deductions based on radio intelligence.

(GT #443-OPNAV 251512-TI)  
 (Summary 251400, July, No. 1)

-----

JULY 26, 1942

The coming of a new day brought no change in the Japanese radio picture for much attention was being paid to southern waters:

No. 333

Rabaul area continues most active.  
(COM 14-260718-TI)(Summary 261400, July, No. 17)

The arrival of the Cine 8th Fleet at Truk, and the presence of some of his subordinates were noted:

No. 334

Cine 8th Fleet originated under Truk (FUWI 3) cover at 1030, 25 July. Addressed Cine Combined (NETI 88), unidentified Fleet Cine (KERU 11), Tokyo Movement Report Office (SUEKO), information Comdesron 4 (TUWI 55), and All Commanders 8th Fleet (HIYO 335).

It was commented:

Undoubtedly this is report of arrival Truk at 1030, 25th. Further indicates that 8th Fleet has some subordinate Commanders.  
(GT #474-OPNAV 251937-TI)  
(Summary 260600, July, No. 22)

JULY 26, 1942 (Continued)

No. 335

Cinc 8th Fleet at Truk associated with Comdesron 4 and Tokyo Movements plus several unidentified major commands. (COM 14-251906-TI) (Summary 260600, July, No. 23)

No. 336

Truk Harbor master (EMO  $\emptyset$ ) addressed short dispatch at 0800/24th to CHOKAI (NTI 9) (Flagship 8th Fleet), Info: Chief of Staff 4th Fleet (TEYU 9) and Staff Communication Officer Truk Base Force (NERI 1) which suggests arrangements for entering Truk Harbor. (BRL.-250645-TI) (Summary 260600, July, No. 23)

No. 337

Cinc 8th Fleet appeared today under Truk cover. (COM 14-251904-TI)

It was remarked:

This previously noted by Opnav.  
Cinc 8th arrived Truk at 1030, 25th July.  
See No. 334 above.  
(Summary 260600, July, No. 25)

A bulletin issued jointly by the Chiefs of Staff of the Fourth and Eighth Fleets was a sign that a decision concerning future operations had been made:

RIF 102

JULY 26, 1942 (Continued)

No. 338

At 1700, 25 July, Chiefs of Staff 4th and 8th Fleets (WIMI 104) (RIYO 304) jointly originated a dispatch to Chiefs of Staff all Fleets (ROA 104) and "Outside Commanders South Seas Force," info: Naval General Staff, 5th Air Attack Force (NIRI 66), Comsubron 3 (MINE 55), and unidentified (YOHIFU).

It was observed:

Following arrival of Cine 8th at Truk at 1030 same date, this is probably an announcement of future command relationship. Who takes charge remains to be seen.  
(GT #476-OPNAV-260258-TI)

It was thought that the Kure #5 Special Landing Force had come to Truk with the Commander in Chief, Eighth Fleet:

No. 339

Further association of Kure #5 Special Landing Force (EKO 3) with 8th Fleet (KAKU 7) noted in long 2-part dispatch from that Command to Chief of Staff 8th Fleet, at 0800, 23 July. (BEL.-250710-TI)

It was remarked:

The Kure #5 Special Landing Force has appeared in much traffic since 10 July.

22 JUN 1943

JULY 26, 1942 (Continued)No. 339 (Cont.)

This traffic has been associated with Cinc 4th and 8th Fleets. As yet, the Force has not been located, but may be enroute with Cinc 8th Fleet who is indicated by T.I. as being at, or near Truk.  
(Summary 260600, July, No. 28)

A tanker associated with the Cinc 8th Fleet was in the area for a fueling rendezvous:

No. 340

Tanker RUHI 1 prominent in correspondence involving 8th Base Force, Comcrudiv 18, Cinc 8th Fleet, and garbled address at Kavieng; suggest fueling rendezvous in that area.  
(COM 14-260718-TI) (Summary 261400, July, No. 18)

The Fourth Fleet had to guard convoy operations:

No. 341

On 24 July, Secretary Combined Fleet (YUHA 706) addressed 4th Fleet Staff Suffix 64, a message in minor cipher which was rerouted on 25th to "Convoy Control Officers" of the Escort Force (MIRE 8) at Kure, Bako, and unidentified (YURORU).

It was observed:

Evidently of interest to Convoys to 4th Fleet area. (GT #476-OPNAV-260258-TI)  
(Summary 260600, July, No. 40)

22 JUN 1942

JULY 26, 1942 (Continued)

Cruiser Division 18 was noticeable again in the day's traffic:

No. 342

KUMU 5 (Destroyer in HAWI 6 (Desron 6)) associated Crudiv 18 and addressed with him by Comdr. 8th Base Force in 4-kana at 0700, 25th. (COM 14-251906-TI)

It was mentioned:

At 0600 on 24th, Comcrudiv 18 under Rabaul cover originated most urgent to Destroyer KUMU 5. (Summary 260600, July, No. 38)

Japanese Army traffic continued to be heavy, and a dispatch from an important Army originator was deemed significant because in the past his messages had preceded other enemy operations:

No. 343

Army address at Tokyo (WAORO) originated 3 messages to Chief of Staff Oki Force at Rabaul enciphered address. (COM 14-251904-TI)

It was observed:

According to TI: "This call has been addressing Army units and was most active in

29 JUN 1942

JULY 26, 1942 (Continued)No. 343 (Cont.)

period preceding Coral Sea Battle with units in Rabaul Area. Lately addressed Attu Force and others in north. It is suggested that he may be Army Liaison Officer with Navy or Chief of Army General Staff." (Summary 260600, July, No. 4)

An important Army commander seemed to be on his way to Rabaul, and reinforcements from Davao arrived there also:

No. 344

Maru MARO 7 under escort 2 destroyers NEU Ø and YURI Ø in RIYU 7 appears have possible Army command MOKUWA on board.  
(COM 14-251906-TI)

It was commented:

Associations on 21 July indicated Comdesdiv 8 (RIYU 7) as escorting Maru MARO 7 to Rabaul via Palao.  
(Summary 260600, July, No. 42)

No. 345

Usual volume of Army-type traffic with new addressees including enciphered Commander Adachi and Ineta Detachments at

22 JUN 1943

JULY 26, 1942 (Continued)No. 345 (Cont.)

Davao associated with Army Headquarters at Rabaul. Permanent detail in Rabaul of the 17th Army Communication Force also appeared in enciphered address.  
(BEL.-250710-TI)

It was remarked:

17th Army, at Davao, has been actively associated in radio traffic with Rabaul for the past month. This heading now seems to indicate arrival of at least part of the 17th Army in the Rabaul Area.  
(Summary 260600, July, No. 44)

No. 346

FROM: Unknown Army Originator (Rabaul or New Guinea).  
TO : Davao 1st Landing Force (Army).

It was pointed out:

Evidently some more Amphibious Army to come from Davao. (GT #476-OPNAV-260258-TI)  
(Summary 260600, July, No. 45)

The reinforcements noted above were destined for the landing forces on New Guinea:

No. 347

Comdr. Yokohama Detachment and Comdr. Sasebo #5 Special Landing Force both at

JULY 26, 1942 (Continued)

No. 347 (Cont.)

new station NONU 7 (believed Buna) as first appeared 23 July. (COM 14-260718-TI)

It was observed:

These detachments were indicated at NONU 7 July 25th.  
(Summary 261400, July, No. 13)

No. 348

Comdr. Sasebo #5 Special Landing Force (TOMA 66) becoming fairly heavy originator, addressing Crudiv 18, Rabaul, 5th Air Attack and unidentified MOKUWA. Comdr. Sasebo #5 Special Landing Force (TOMA 66) addressed unidentified MOKUWA on board Maru (MARO 7); info Communication Officers Crudiv 18 (MOTE 095), 8th Fleet (NEU 195), Rabaul Base (WAKO 195) and Maru RIRO 3, at 1200, 26 July. MARO 7 was previously believed under escort two units of Desron 2 underway in Palao area destined for Rabaul. Apparently this convoy bringing reinforcements for the landing forces on New Guinea.  
(GT #478-OPNAV-261635-TI)  
(Summary 261400, July, No. 14)

A dispatch from Guadalcanal to a long list of addressees was considered to be a progress report:

22 JUN 1943

JULY 26, 1942 (Continued)No. 349

Guadalcanal (HARENU) originator sent 3-parter at 25/0530 to Chiefs of Staff Combined, 4th, 8th Fleets, Combined Air Force; info long list Empire Supply and Construction addresses, BUMIL, 5th Air Attack Force, and 8th Base Force, probably further report of progress.  
(COM 14-260718-TI)(Summary 261400, July, No. 15)

Probable identifications were made of some enemy aircraft units in the Rabaul area:

No. 350

A detachment of Yokohama Air Group is shown at Rabaul area Base (RISA 7?).  
(COM 14-242036-TI)

It was indicated:

RISA is believed Airon 25 which was placed by D/F in 6° S, 154° E, in Rabaul area. On July 17 a questionable translation of an enciphered address placed a section of Yokohama Air Group at Tulagi.  
(Summary 260600, July, No. 41)

No. 351

Officer-in-Charge Seaplane units at Salamaua appeared in enciphered address, associated with Comdesdiv 30 (KUMU 5) in Urgent dispatch at 0600, 24 July.

22 JUN 1943

JULY 26, 1942 (Continued)No. 351 (Cont.)

It was stated:

This was also noted by OPNAV. Reports of possibly Allied action at this time have not yet been received.  
(Summary 260600, July, No. 43)

A Maru was acting as a cover in accepting radio traffic for an unidentified unit in the Rabaul Communication Zone:

No. 352

KIYOKAWA MARU (NERA 7) in Rabaul Communication Zone accepting traffic for unidentified (NISE 3). (BELI-250645-TI)  
(Summary 260600, July, No. 36)

Another ship was acting in similar fashion for the Cruiser Division 18:

No. 353

HAN 7 (Combatant ship-tender?) in Rabaul area accepted traffic for Staff Communication Officer Crudiv 18 (MOTE Ø).  
(BEL.-250645-TI) (Summary 260600, July, No. 35)

An Operational Order of Cruiser Division 18, which was issued under a covering address at Rabaul, outlined some of the Japanese forces in the vicinity:

23 JUL 1942

JULY 26, 1942 (Continued)No. 354

Comcrudiv 18, under Rabaul cover at 1630, 25 July, originated lengthy dispatch Operation Order, to following:

Action: Destroyer (SAA 6) in Desdiv 29, Sasebo #5 Special Landing Force (TOMA 66) at new shore station (NONU 7), judged to be in New Guinea.  
Comdr. Seaplane Base Force at new station (ROSE 9), also judged to be in New Guinea.

Info: New tactical call SAYO 6 followed by enciphered "Senior Commander, Yokoyama," also at (NONU 7), Chief of Staff 4th Fleet (WIMI 104), Chief of Staff 8th Fleet (RIYO 304), Comdr. 5th Air Attack at Lae (?) (KIRO 4), Comdr. Tainan Air Group (EKU 88), Army Commander TUROSU at Rabaul (WAKO 1), "All South Seas Commanders 'Outside'."

Rabaul Radio (NOYO 9) in delivering this message on 5375 kcs, called Sasebo #5 Special Landing Force, Destroyer (KUSU 2), Destroyer (KUMU 5), and KIYOKAWA MARU (NERA 7). (GT #475-OPNAV-251937-TI)

It was noted:

YOKOYAMA is probably a personal name or force title.  
(Summary 260600, July, No. 37)

22 JUN 1942

JULY 26, 1942 (Continued)

Further information, concerning some of the Japanese forces, was given in organizational outline, which was issued by U.S. Naval Communication Intelligence at this time:

No. 355

## 2nd Fleet Organization by Names and Calls:

Batdiv 3 - No change from listing given in Organization Bulletin #4 (KURO 6 identification as KIRISHIMA has been confirmed in message wherein name is divided into two groups, thus, call signs and names in this division are all correctly associated).

Crudiv 4:

1st Section - CHOKAI (NTI 9), ATAGO (MANU  $\emptyset$ ).  
2nd Section - MAYA (SASI 2), TAKAO (HIKA 5).

Crudiv 5: (WAYO 2 and ROSI 4).

HAGURO (NITE 5), MYOKO (NUYO  $\emptyset$ ), NACHI  
(YAKA 3).

Crudiv 7: (ROTU 1 and YUMO 9).

MCGAMI (KOSE  $\emptyset$ ), KUMANO (MUTU 2), SUZUYA  
(RASE 6), (MIKUMA was SAWA 1).

Crudiv 8: (KUSA 8 and HIKI 7) Shifted per  
OPNAV 282228

TONE (NO 6), CHIKUMA (SEI 2) in lieu of  
COM 14 262336

JULY 26, 1942 (Continued)No. 355 (Cont.)Desron 2: (NETI 7 and KOSU 3).Flag - JINTSU (YUWI  $\emptyset$ ).

Desdiv 15 (WINA 2).

Desdiv 16 (RIYU 7).

Desdiv \_\_\_ (RASO 8). Deleted per same.

Desron 4: (HIKU 9 and TUWI 5).

Flag - YURA.

Desdiv 8 (KERU  $\emptyset$ ).

Desdiv 4 (TATO 3).

Desdiv 2 (KISE 1).

Desdiv \_\_\_ (MAN 5).

Desron 10: (HAKA 7 and MISE 6).

Flag - NAGARA (MISU 9).

Desdiv 7 (AKU 3).

Desdiv 3 (RETO 2).

Desdiv 17 (MEMU 3). shifted.

It was commented:

Crudiv 4 identifications may appear strange but are believed accurate. There has been definite shift of Desdivs between our old Desron 2 and 4 organizations. Although this shift is difficult to follow accurately, we believe that Division numbers assigned above are good, but we welcome evidence for, and against, and suggestions for blanks. On 20 May, Flagship of Desron 4 was shifted to ship that in June, 41, was Flag of Subron SUKA  $\emptyset$  (carried in our lists as "YURA").

(GZ Organization Bull. #5) (OPNAV-260031-DI)  
(Summary 260600, July, No. 5)

20 JUN 1943

JULY 26, 1942 (Continued)

The radio silence of several groups of enemy warships brought a warning of possible danger:

No. 356

Crudiv 6, Desron 6, Division 19, silent several days and may be engaged in invasion movement, unknown direction. This based only on past performance when lack radio traffic indicated preliminary action. (COM 14-260718-TI)  
(Summary 261400, July, No. 19)

-----

RIP 102

JULY 27, 1942

Japanese radio traffic in the southern areas was very voluminous and, thus, the belief arose that an important action was in the offing:

No. 357

Heavy R.I. traffic noted Washingtons 1512 of yesterday, continues. Believe making intensive effort to locate U.S. heavy forces, prior to making another Midway mistake. (COM 14-260708-TI) (Summary 270600, July, No. 1)

No. 358

Area south of Truk quieting down somewhat. Cinc 4th and 8th apparently originating traffic jointly from Truk. (COM 14-262116-TI) (Summary 270600, July, No. 30)

No. 359

Greater part of intercepted traffic still coming from Truk-Marshalls-New Britain area. 8th Base Force heaviest originator as well as being most popular addressee. Nearly all traffic confined to that area hence few new associations found. This activity interpreted to indicate accelerated movements between Truk and Rabaul. Ponape (UHO 5) unusually prominent AE ES.AS (?) tentative Air Base YUI 5 which may be at Ponape. (COM 14-232302-TI)

It was remarked.

DI on 14 July placed YUI 5 at  $\phi 8^{\circ}$  N,  $153^{\circ}$  E. (Summary 270600, July, No. 49)

22 JUN 1943

JULY 27, 1942 (Continued)

No. 360

Heavy traffic volume in all areas except North Pacific where D/F dispatches and RI reports were prominent. 11th Air Fleet heaviest originator but traffic appeared routine. (COM 14-270712-TI)

It was observed:

On 26 July TI indicated a very heavy volume of intelligence traffic from Jaluit, Truk, and Rabaul. Some of these reports, from Rabaul, were in operational-type code, indicating they contained information of operational value connection current activity.

(Summary 271400, July, No. 2)

No. 361

Relatively heavy volume traffic concerning Southeast Asia sector, indicating continued and increased interest in that area. (COM 14-270824-TI)  
(Summary 271400, July, No. 36)

The Chiefs of Staff of the Fourth and Eighth Fleets were issuing dispatches jointly at Truk, and it was suggested now that the Cinc Eighth Fleet, who had arrived at 1030 on July 25, had relieved the Cinc Fourth Fleet of the command in the New Britain-Solomons area:

JULY 27, 1942 (Continued)

No. 362

At 1700, 25th, Chief of Staff 4th (WIMI 1) and 8th (RIYO 3) Fleets appeared as joint originators of dispatch addressed to Chief of Staff All Major Commands (ROA 104), All Southern Forces (SOTU 9), plus enciphered "'Outside' Southern Force", information to Tokyo Naval General Staff Operations Section (MIYORE), Comairon 25 (NIRI 6), Comsubron 3 (MINE 5), and unidentified YOHIFU.

It was commented:

Cincs of both, 4th and 8th Fleets are apparently at Truk and foregoing dispatch suggests Cinc 8th Fleet has relieved Cinc 4th of Command in New Britain-Solomons area. (BEL.-260612-TI)  
(Summary 270600, July, No. 25)

No. 363

Cinc 8th Fleet appeared as concealed originator at Truk (FUWI 3) of a Movement Report addressed for action Cincs Combined (NETI 8) and 2nd Fleet (KERU 1), plus Tokyo Movement Report Office (SUEKO), and information to Comdesron 4 (TUWI 5) and All 8th Fleet Commanders (RIYO 335). Dispatch was originated at 1030, 25th, indicating that to be time of arrival of CHOKAI (NTI 9) at Truk. (BEL.-260612-TI)  
(Summary 270600, July, No. 26)

JULY 27, 1942 (Continued)

No. 364

Cinc 8th Fleet still under Truk cover at 1800, 26 July. Takes active direction Southern affairs in dispatch to "All Outside Commanders South Seas", Flagship Desron 6 (MEN 44), ship NSO 55, Desdiv 29 (NOSA 8), Maru(?) HOKI 8 at Rabaul (WAKO 1), garbled UTI 1 at Rabaul (WAKO 1), information Cine Combined (SOU 88), All Shore Stations(?) (KEME 66), and Naval General Staff. (GT #480-OPNAV-262005-TI)  
(Summary 270600, July, No. 28)

Two Destroyer Divisions were definitely associated with the Commander in Chief, Eighth Fleet after a period in which they had been only tentatively identified:

No. 365

At 2130, 26 July, Cine 8th at Truk (SIYU 3) addressed Comdesdiv 16 (RIYU 77), information Comdesdiv MAN 55, Rabaul Communications (WAKO 195) and CHOKAI (NTI 99). Tokyo Broadcast for delivery to two Desdiv Commanders, indicating they are not at Truk. This appears to eliminate any doubt that these Desdivs now assigned 8th Fleet. (GT #480-OPNAV-262005-TI)  
(Summary 270600, July, No. 27)

22 JUN 1943

RIF 102

JULY 27, 1942 (Continued)

Cruiser Division 18 was still trying to hide under a cover call at Rabaul, but traffic analysis had penetrated this disguise some time before:

No. 366

Comcrudiv 18 (Rabaul cover) addressed Cine 8th (RIYO 33), enciphered "Comdr. Landing Party", "Comdr. Seaplane Base Force"; info Comdr. Tainan Air Group (EKU 88) at unidentified base (RESI Ø), Chief of Staff 4th Fleet (HAKO 704) and "All Outside Comdrs. South Seas Force" at 1250, 26th July. (GT #477-OPNAV 261630-TI)

It was noted:

RESI Ø is tentatively identified as Lae. (Summary 270600, July, No. 38)

No. 367

Crudiv 18 and Subdiv SUE 3 of Subron 7 using Rabaul call. (COM 14-262122-TI)  
(Summary 270600, July, No. 39)

No. 368

Enciphered "All Outside Commanders South Seas Force (Lae)" was information addressee of very long 3 part message from Comcrudiv 18 (no originator; action to

22 JUN 1943

RIP 102

JULY 27, 1942 (Continued)No. 368 (Cont.)

Cinc 8th Fleet, originated at 1600, July 27.  
Probably battle report to Cinc 8th, but  
usual Tokyo addressees missing.  
(GT #482-OPNAV 271530-TI)

It was noted:

This means all Outside Commanders  
South Seas Force who are at Lae.  
(Summary 271400, July, No. 31)

Messages to enemy land forces were also  
noticed, and it seemed clear that more strength  
was being added to their bases in the Solomons:

No. 369

The "#44 Kotei Commander of the 6th  
Army" shown at unidentified YOFU 2, some-  
where near Rabaul, on 25 July.  
(GT #479-OPNAV-261945-TI)

It was mentioned:

"#44 Kotei" is not understood.  
(Summary 270600, July, No. 41)

No. 370

Enciphered address Commander Yokoyama  
Vanguard Detachment appeared in heading of  
dispatch from Commander Sasebo #5 Special

RIP 102

22 JUN 1943

JULY 27, 1942 (Continued)No. 370 (Cont.)

Landing Force (TOMA 6), at 0600, 24th, associated with Keiyo Maru (RIRU 3) and Rabaul Base Force (WAKO 1). This detachment probably part of Sasebo #5 Special Landing Force aboard KEIYO MARU.  
(BEL.-260634-TI)

It was remarked:

Enciphered address "Senior Commander Yokoyama" was noted as one of the information addressees in a message heading reported previously. Message was from Comcrudiv 18 and Commander Sasebo #5 Landing Force was an action addressee.  
(Summary 270600, July, No. 43)

After a silence of several days, Destroyer Squadron 6 came back into the radio picture:

No. 371

Desron 6 Commander believed using Guadalcanal cover as dispatch from that call at 0700, 26th, to Cine 4th (MARO 9), information 5th Air Attack Corps, 8th Base Force, Comcrudiv 6 (ORU 5), unidentified MATE 4, Chief of Staff 8th Fleet (FURO 6), Chief of Staff 11th Air Fleet (IMA 4), Comdesdiv 29 of Desron 6 (NOSA 8) and KIYO-KAWA MARU (NERA 7) was intercepted.  
(COM 14-262122-TI)

It was pointed out:

RIF 102

22 JUN 1942

JULY 27, 1942 (Continued)No. 371 (Cont.)

Desron 6 has previously been silent for several days. Reconnaissance and Operations Reports indicate YUBARI (Flagship of Desron 6) was engaged in supporting operations at Buna on 22 July. Also, T.I. noted that a Tactical Force Commander (NURU 99) was on board YUBARI at 2000, 25 July. (Summary 270600, July, No. 47)

The cruiser SUZUYA had remained in the vicinity of Truk, despite previous indications of a move into the Malay area:

No. 372

Chief of Staff TAYA 404 included SUZUYA (RASE 66) as information addressee on 27th. This ship definitely remains Mandate Area and not accompanying Comcrudiv 7 to Southwest.  
(GT #483-OPNAV 271530-TI)

It was remarked:

The SUZUYA (RASE 6) appears in Truk area and on July 24th, there were indications that she might join the rest of Crudiv 7 in Malay area.  
(Summary 271400, July, No. 23)

The Commander in Chief, Fourth Fleet had changed his flagship:

RIF 102

22 JUN 1942

JULY 27, 1942 (Continued)No. 373

A dispatch for KASHIMA from Chief of Staff 4th Fleet was forwarded that vessel by Truk, indicating Chief of Staff not aboard Flagship. (COM 14-262122-TI)

It was observed:

On 22 July, Belconnen reported indications that Cinc 4th had shifted Flagships on 19 July and that the KASHIMA had made a Communication Zone report indicating movement to Kure via Saipan and Chichijima. (Summary 270600, July, No. 37)

Though Cruiser Division 6 was not playing an active part in the New Guinea operations, it was dealing with the Japanese Bureau of Aeronautics. This was probably a prelude to more direct action:

No. 374

Appears Crudiv 6 (ORU 5) not taking part in New Guinea operations. (GT #479-OPNAV-261945-TI)

It was commented:

Comcrudiv 6 appeared to be at Kavieng on 19 July and the 2nd Section of Crudiv 6 (KINUGASA and FURUTAKA) used Rabaul cover on 22 July. Since that time no traffic originated by Crudiv 6 has been reported. (Summary 270600, July, No. 42)

RIF 102

22 JUN 1943

JULY 27, 1942 (Continued)No. 378

Heading of Communication zone report at 0600, 25th, indicates man-of-war NETU 9 as proceeding Rabaul via Truk. This vessel recently arrived in Saipan area from Empire. (BEL.-260659-TI)  
(Summary 270600, July, No. 36)

There was also much shifting of enemy air strength southward into the Rabaul area. This was usually a certain indication of imminent action:

No. 379

Detachment of 14th Air Corps (MENU 569) at Truk Air Station on July 26.  
(GT #477-OPNAV 261630-TI)

It was noted:

The 14th Air Corps was placed by D/F at 08° N, 172° E on July 21st. On July 18th, there were indications that units of the 14th Air Corps might be enroute Rabaul.  
(Summary 270600, July, No. 32.)

No. 380

Units Marshalls Air becoming more prominent in traffic with 1st and 14th Air, Chitose Air and Wake Unit (KOSE 6) on receiving end from 4th Air Attack Corps Commander. (COM 14-262116-TI)

RIP 102

22 JUN 1943

No. 380 (Cont.)

It was mentioned:

1st Air Group has not been noted in traffic since 11 June. Last indications placed it at Taroa. Transfer of 14th Air Group from the 4th Air Attack Force in the Marshalls, to 5th Air Attack Force in Rabaul, in exchange for Yokohama Air Group appeared to be a possibility on 10-11 June, but there have been no indications that it has happened other than that a detachment of Yokohama Air Group appeared by T.I. to be at Truk on 22 July. (Summary 270600, July, No. 35)

No. 381

Associations indicate that units of the Misawa Air Group (ROYO 2) may reinforce Airon 4 (KOMU 2) and Tainan Air (EKU 8) in the Lae-Salamaua area. (BEL.-260612-TI)

It was mentioned:

On July 24th, traffic routing and associations indicated Comdr. Misawa Air Group was at RETA 1 (an air station in the Marshalls). On 20th July, there were indications that some part of the Misawa Air Group was at Gasmata, New Guinea. (Summary 270600, No. 40, July)

RIP 102

22 JUN 1943

JULY 27, 1942 (Continued)No. 382

Comdr. Tainan Air (EKU 88) shown at enciphered "Lae" on 27th, which probably confirms RESI Ø as Lae Base.  
(GT #483-OPNAV 271530-TI)  
(Summary 271400, July, No. 32)

No. 383

WAKO 1 serial 072 of 26 July is "R" Area Defense Force dispatch order number 165 (?) stating RZ (?) (blank) Air Detachment will arrive Rabaul at 0500 (?) tomorrow 27th and starting at 1600 (?) from point 30 miles south of (very questionable) Dampier Island using 2 planes will conduct reconnaissance for unknown purpose possibly involving convoy movements, though wording suggests possibility reconnaissance intended as search for enemy forces. (BEL.-270311-DI)

It was remarked:

WAKO 1 is believed the call for the 8th Base Force at Rabaul.

A contact with American planes was reported on this day:

No. 384

Contact report originated by plane call sign KUMI 1 at 0700/27th containing kana signal SUTA followed by several

RIF 102

22 JUN 1943

JULY 27, 1942 (Continued)

No. 384 (Cont.)

4-kana groups. Questionable signal translation is "see over (20) enemy planes". Apparent contact occurred in area under cognizance Comdr. 4th Air Attack. (COM 14-270712-TI)

It was reported:

The 4th Air Attack Corps Comdr. has cognizance in the Mandates area. (Summary 271400, July, No. 24)

The presence of enemy submarine squadrons in the Eighth Fleet area was confirmed:

No. 385

Apparent Operation Order from Comsubforce at Jaluit, to Comsubron 3 (TOYA 4), information Chief of Staff Combined (OSE 8), 4th (NISE 1) and 8th (NEU 1) Fleets, Comsubron 7 (ENU 3) and Operations Section Naval General Staff (MIYORE) further associates Subrons 3 and 7 with 8th Fleet operating area. (BEL.-260634-TI)

It was indicated:

T.I. indicates that part (Subdivs NANO 3 and NUTU 6) of Subron 3 is operating off Eastern Australia. Subron 7 may be divided as two Divisions (NANO 9 and AKI 1) were associated with the Northern Forces

29 JUN 1943

REF 102

JULY 27, 1942 (Continued)No. 385 (Cont.)

on 23 July, but Comsubron 7 and Subdiv SUE 3 appeared to be at Truk the same day and Comsubron 7 has recently been associated by T.I. with the 4th and 8th Fleets. OSE 8 has now been identified by OPNAV as Combined Fleet.  
(Summary 270600, July, No. 57)

On the other hand, American submarines were not idle, as the following Japanese diplomatic message indicates:

No. 386

FROM: Hanoi #796(?) 24 July 1942  
TO : Tokyo

Request message.

To East Asia Navigation Company  
(Toa Kaiun).

As there are a great many enemy submarines in Kamranh Bay we have been ordered to delay the departure of the TOZAN MARU until receiving instructions from the local Navy authorities. Therefore we are waiting.

Please approve.

East Asia Navigation Co.  
Relayed to the home office.  
(GZ #5505-OPNAV 271750-DI-Jap. Dip.)

R/P 102

22 JUN 1942

JULY 27, 1942 (Continued)

No. 386 (Cont.)

It was stated:

The TOZAN MARU sailed from Hongkong at 0900, 13th, and is to arrive at Haiphong at 1100, 13th, Cargo, 1,062 tons; passengers disembarking, 34.  
(Summary 271400, July, No. 34)

The probable organization of a Japanese Striking Force was furnished by traffic analysis after the interception of two significant dispatches. The headings of these messages supplied valuable information:

No. 387

Possible exercise group or Task Force suggested in dispatch at 0600, 26 July, serial 137:

FROM: HAO 33 (Unidentified).  
ACTION: Cardiv 1 Collective (MASA 7),  
Cardiv 2 Collective (SOI  $\emptyset$ ),  
SETTSU (NISI 11),  
HOSHO (KENI 22),  
Unidentified Fleet ship ORO 44.  
INFO: Cinc Combined (SISU 55),  
Cinc 1st Fleet (MOSA 22),  
MUNO 99 (Unidentified),  
Combatdiv 3 (WIN 11),  
Combatdiv (UWI 44),  
Comcrudiv 5 (WAYO 22),  
Carrier Plane Groups NOTI 9,  
RIA 3, TUKA  $\emptyset$ ,  
Air units KESI 66 and SOHA 11 in  
care Carrier Group YAHA  $\emptyset$ .

RIF 102

22 JUN 1942

JULY 27, 1942 (Continued)No. 387 (Cont.)

It was pointed out:

Belconnen identifies HAO 33 as Cine 1st Air Fleet, but HAO 3 Collective has been shown to include Crudiv 7 and Desdiv TIKA 8 in earlier traffic. Message number series is not that of any identified Fleet Cine. The composition of new Cardiv 1 is not indicated, but there is much evidence that HAYATAKA, HITAKA and possibly RYUJO have been reassigned in new Cardiv 2. HOSHO does not appear to be in either Cardiv 1 or 2 from above message.  
(GT #481-OPNAV-262351)  
(Summary 270600, July, No. 4)

No. 388

Fair estimate Major Units now involved carrier tactical exercises Kyushu area, shown in two dispatches originated by tentatively identified Cine 1st Air Fleet (TUWI 88) and HAO 33. First message showed lineup of Cardiv 1 (MASA 7), Cardiv 2 (SOI 0), Crudiv 8 (KUSA 8), heavy unit or Batdiv ? SIHO 9, NAGARA (MISU 9), unidentified SOHA 1, and enciphered all Base Commanders. Second dispatch shows following association: Cardiv 1, ISOKAZE (SITO 6), SETTSU (NISI 1), CV HOSHO? (KENI 2), 1st Fleet unit ORO 4, Batdiv 1 (UWI 4), KAGA Plane group, AKAGI Plane group, HITAKA Plane group, and SOHA 1 in care of HIRYU Plane group. The above could be viewed as possible Striking Force organization with Cine 1st Air Fleet as commander.  
(COM 14-270822-TI)

RIF 102

22 JUN 1943

JULY 27, 1942 (Continued)No. 388 (Cont.)

It was indicated:

There have been indications that Cardiv 1 and 2 are being reformed. The composition of Cardiv 1 is not known. There is evidence that HAYATAKA and MITAKA will be in the New Cardiv 2. Another suggestion for this Cardiv is RYUJO and HITAKA. The NAGARA, light cruiser, is the flag of Desron 10. ISOKAZE is a destroyer of Desdiv 1 of Desron 4. The assignment of the HOSHO is still in doubt, but she appears to be in Empire waters. There have been indications that KAGA and AKAGI plane groups will reinforce the plane groups on other carriers (especially ZUIKAKU, ZUIHO, and SHOKAKU). The HIRYU plane group has not been previously noted.  
(Summary 271400, July, No. 9)

A message outlining operations which were to take place on July 29 was deciphered at this time:

No. 389

FROM: HIRE 1 #338 26 July/0750

Only fragmentary, indicates as follows:  
Hidden originator was Commander RZJ (Buna) Occupation Force, addressed to various New Britain addressees. States that "Y"

RIF 102

22 JUN 1943

JULY 27, 1942 (Continued)

No. 389 (Cont.)

Day is 29th, and outlines operations based on that date. Convoying of certain units and at least one unit passing to North of (New Britain?).

It was mentioned:

Obviously some operations scheduled for July 29. RZJ is not definitely located. The originator of this dispatch was noted by the Washington unit as Comcrudiv 18.  
(COM 14-270834-DI-OPNAV Memo 27-1)  
(Summary 271400, July, No. 28)

-----

RIP 102

JUN 1943

JULY 28, 1942

The Commander in Chief, Fourth Fleet and  
Commander in Chief, Eighth Fleet had parted company  
according to traffic analysis reports:

No. 390

Dual originator message from Chief of  
Staff 4th (NISE 1) and 8th (KONO 9) Fleets  
at 1600/26 July to Rabaul (HIRE 1), Palao  
(SAHI 8), Truk (TIHO 5), Saipan (NURO 2)  
and Jaluit (NTO 7), Info: Operations  
Section Naval General Staff (MIYORE), Com-  
munication Director Naval Communications  
(ROSE 3) and Chief of Staff Combined  
(KESE 5). Cinc 4th and Cinc 8th apparently  
not now in company as indicated by traffic  
routing, sent on Truk broadcast for Cinc  
8th with delivery already indicated to  
Cinc 4th. (BEL-270646-TI)  
(Summary 280600, July, No. 4)

The Commander of Cruiser Division 18 was in  
touch with Commander in Chief, Eighth Fleet, who was  
on his way south to Rabaul:

No. 391

Comcrudiv 18 under Rabaul sent long  
4-parter at 0600/27 July to 8th Fleet  
Commander, Info: Staff 4th and Combined  
Air Force, Comdr. Tainan Air (EKU 8)  
shown at enciphered Lae, 8th Base Force,

JULY 28, 1942 (Continued)

No. 391 (Cont.)

5th Air Attack Commanders, and Collective  
SAYO 6 believed Task Force call for present  
operations. (COM 14-271904-TI)

It was commented:

Both the 8th Base Force and 5th Air  
Attack Corps are based at Rabaul.  
(Summary 280600, July, No. 35)

No. 392

Cinc 8th Fleet using Rabaul cover at  
1430, 28 July. No arrival report intercepted  
as yet. (CF #492-OPNAV-281710-TI)

It was remarked:

On 27 July TI indicated Cinc 8th  
remained under Truk cover at 1500, July 27th.  
(Summary 281400, July, No. 17)

The Commander of Destroyer Division 16 also  
issued a movement report which was sent to the  
Commander in Chief, Eighth Fleet:

No. 393

Comdesdiv 16 (RIYU 77) originated  
movement report possibly arrival Truk at  
1240, 28 July, addressed usual Movement  
Report Offices and Chain of Command

20 JUN 1942

JULY 28, 1942 (Continued)No. 193 (Cont.)

(including 8th Fleet) and SUZUYA (BASE 66). Also at 1240, originated urgent to Cinc Combined (KISE 66), 8th (FURO 66), unidentified WAKA 77 (Cinc?), and Comdesron 2 (KOSU 33), info Comdesdiv MAN 55, CHOKAI (NTI 99), Chief of Staff 4th Fleet (NISE 104), and Rabaul Base (WAKO 11). Deduction that Comdesdiv 16 at Truk somewhat weak since Truk does not transmit message for about 4-5 hours after origin. However, Truk handles before Tokyo. Third message from Comdesdiv 16 at 1430, 28 July, addressed to Cinc 8th, info Comdesdiv MAN 55.  
(CT #490-OPNAV-281710-TI)

It was commented:

On 26 July, Cinc 8th addressed Comdesdiv 16 (RIYU 77), info Comdesdiv MAN 55, Rabaul Communications, and CHOKAI. Tokyo broadcast to two Desdiv Comdrs. indicating they were not at Truk. Desdiv 16 is believed in Desron 2. The SUZUYA is believed by TI as remaining Truk and not accompanying Comcrudiv 7 to southwest.  
(Summary 281400, July, No. 15)

Messages involving engineering detachments in the Marshall Islands seemed to indicate that their future assignment was to build new air bases in the Solomons:

99 JULY 1943

JULY 28, 1942 (Continued)No. 394

Chief of the 4th Civil Engineers at Truk (MURORI) addressed Officer in Charge Transportation Sections (SEMSI) at enciphered Kavieng, Rabaul, Guam, Lae, Rongelap, Surumi and Utirik.

Officer in Charge Transportation Section at Wake (OTOROISHIMA) associated with Comairron 25 at Rabaul, Tokyo Naval General Staff and Commander Jaluit Base Force (MUTR 3). Since a detachment of Chiba Air (MENU 5) is shown today at MURU 5 (Gasmata?) foregoing associations may indicate withdrawal of engineers from Marshalls for construction new air bases in New Guinea-Solomons area. (BRL.-270638-TI)

It was remarked:

MENU 5 has been identified as the 14th Air Corps not Chiba Air and at least a section has been transferred from the Marshalls to the Rabaul area since the middle of July.

(Summary 280600, July, No. 31)

The Japanese Army still continued to be interested in the New Guinea area, and heavy enemy reinforcements seemed to be enroute from the Philippines:

JULY 28, 1942 (Continued)

22 JUN 1942

No. 395

Army Headquarters Rabaul addressed enciphered Commander Adachi Detachment care of 1st Landing Force at Davao. This, plus other references to 1st Landing Force in headings of Army traffic, suggests this Force being prepared at Davao for use in New Guinea area. (BML.-270658-TI)

It was pointed out:

Starting about 25 June traffic between the Army Detachments at Davao and Rabaul became very heavy. It has been noted repeatedly by all stations with the expectation that Army units at Davao would soon be transferred to the Rabaul-New Guinea area. (Summary 280600, July, No. 32)

No. 396

Hanking (Army?) addressed "Comdr. South Seas Gendarmes Detachment".  
(CT #490-OPNAV-281700-TI)  
(Summary 281400, July, No. 19)

Several call signs were not fully understood by U.S. Naval Communication Intelligence at this time, but some tentative identifications were made:

JULY 28, 1942 (Continued)

REF ID: A61049

No. 397

Routing indicates new FUNI 6 and YUKE 2 in Rabaul area. (BML-270709-TI)

It was observed:

FUNI 6 has been noticed in the Rabaul area since 24 June and appeared more recently in the action reports of the fighting in the Salamaua sector. YUKE 2 shifted from Saipan to Truk Communication zone at 2000/2 July and was included with Sasebo #5 Special Landing Force as action addressee in urgent message from Cine 4th which lead to the belief that YUKE 2 might possibly be an escort for the Landing Force.  
(Summary 280600, July, No. 28)

No. 398

Unidentified NURU 9 addressed aboard YUBARI (MEN 4) Flag of Desron 6 believed another Occupation Force Command.  
(COM 14-271904-TI)

It was mentioned:

Both COM 14 and Washington Unit believe this call is for an Occupation Force Commander. (Summary 280600, July, No. 34.)

No. 399

Believe SONA 1 has been assigned as call for "Outside South Seas Force" as it appears with suffix 35 followed in parenthesis by enciphered "All Comdrs. 'Outside' South Seas Force." (GT #489-OPNAV-281700-TI)  
(Summary 281400, July, No. 18)

JULY 28, 1942 (Continued)

15 JUL 1942

Two auxiliaries were discovered in active areas of the South Pacific:

No. 400

Auxiliary (HORN 1) at Soerabaja.  
(BSL-270709-TI) (Summary 280600, July, No. 29)

No. 401

Auxiliary (RATI 1) at Kavieng.  
(BSL-270709-TI) (Summary 280600, July, No. 30)

Carrier exercises were going on in the southern Kyushu area in accordance with indications previously noted:

No. 402

What appeared to be four carriers plus at least three plane flights were working on 7110 kcs. using single, double and triple Kana calls. SE, SI, SO, SU. Last two believed represent SROKAKU and ZUIKAKU worked SUMAMU, SIMIMU, SURUMU with SIMAMU making apparent arrival report "1925 TIYA."  
(COM 14-271906-TI)

It was commented:

TIYA abbreviation for Chiyaku - meaning arrive. (Summary 280600, July, No. 15)

JULY 28, 1942 (Continued)

It was thought that a major revision of Japanese carrier divisions was in process to replenish the strength lost at Midway:

No. 403

Comdr. 1st Air Fleet (TUWI 8) at 2250/25 July sent short message to Cardiv 1 (MASA 7), Cardiv 2 (SOI 0), Crudiv 8 (KUSA 8), NAGARA (MISU 9), Unidentified SIHO 9 and enciphered All Air Base Commanders at Air Station SOHA 1.

SIHO 9 was previously associated with Cardiv 2. Latter command also appeared as action addressee in dispatch from Tokyo Supply address (NISUKO) at 1300/25 July, Info: HITAKA (KUNA 7), RYUJO (RARO 3), HAYATAKA (UMI 2), plus Chief of Staff Combined (NETI 8) and 1st Air Fleets (TUWI 8). RYUJO and HAYATAKA have previously appeared with Cardiv 2 without mention of Comcardiv 4 (MOSE 5). Suggest possibility complete reorganization of Cardivs due Midway losses possibly discontinuing higher number Cardivs and using available vessels to reform Cardivs 1 and 2. (BEL.-270709-TI)

It was remarked:

SIHO 9 has not been identified as yet. It was originally guessed as a carrier for Cardiv 2, then a BB and finally a questionable Batdiv.

(Summary 280600, July, No. 17)

JULY 28, 1942 (Continued)

29 JUL 1942

Air reinforcements from the Empire were being sought for the Truk-Rabaul area:

No. 404

Truk Air (MURO 5) in Rabaul area at 0430/27 July addressed regular plane flight line-up Empire to Rabaul. Believed arranging reinforcement flight south rather than movement to Empire since fairly recently arrived Rabaul from Truk area.  
(COM 14-271904-TI)

It was observed:

MURO 5 is identified by COM 14 as Truk Air which appeared in the Rabaul area about 6 July about the same time as the FUJIKAWA MARU. COM 14 further suggested Truk Air replaced Genzan Air. Belconnen claims MURO 5 has a better chance of being Gasmata. The records are very few but seem to favor COM 14's identification.  
(Summary 280600, July, No. 36)

No. 405

Large amount of activity in the Marshalls area suggesting transfer of aircraft that area to South. Both 4th and 6th Base Forces circulating much traffic in their areas. Air tender NOTORO at unidentified location NIRE 1. (COM 14-280802-TI)

It was observed:

JULY 28, 1942 (Continued)

22 JUN 1943

No. 405 (Cont.)

4th Base Force is believed in Truk area. 6th Base Force is believed in Jaluit area. NOTORO noted previously in this place, apparently received traffic from Chinkai on 28 July. NIRE 1 Communication Zone is not known except that a movement report on 27 July stated "\_\_\_\_\_ left Shenghai Communication Zone and entered NIRE 1 Communication Zone." (Summary 281400, July, No. 11)

The Japanese High Command was much concerned with its submarine radio traffic, and an estimate of the enemy submarine forces in the Solomons area was now made:

No. 406

Submarine traffic considerably increased in volume. Concerns operations Subrons 3 and one division Subron 7 (Mabaul area) plus Subron 8 (Saigon area) with indications that some of Subron 8 may be operating out of Penang (MEN 8). Subdivs 26 (AKI 1) and 27 (NARO 9) of Subron 7 now apparently in Northern area by traffic routing. (BEL.-270646-TI) (Summary 280600, July, No. 41)

22 JUN 1943

JULY 28, 1942 (Continued)No. 407

Submarines in New Britain and Australian waters include one division each Subrons 6 and 7, possibly two divisions Subron 3 and possibly one division Subron 8. (Cincpac Bull. #134-270631) (Summary 280600, July, No. 42)

No. 408

Units of Subron 3 still active in New Britain general area. (COM 14-270832-TI) (Summary 280600, July, No. 44)

No. 409

FROM: Chief of Staff Combined Fleet  
27 July/2300  
TO : BuMil.  
General Staff.  
INFO: Chief of Staff Sub Force (IMS 9),  
Comsubron 2 (ROA 8).

This and other dispatches to Comsubfor indicate present interest of Combined Fleet Staff in Submarine Operations. (COM 14-280804-TI)(Summary 261400, July, No. 28)

-----

JULY 29, 1942

SECRET

A tentative outline of the organization of the Japanese First Fleet was also made available:

No. 410

The following organization of the 1st Fleet is the result of research by OPNAV and has been sent to the Field Units for comment and criticism:

1st Fleet

Flag - YAMOTO (MISO 8)

Batdiv: (ENO 6)

BB (TEFU 6), BB (ENO 2), BB (MONA 3),  
BB (YOKE 3)

Batdiv: (UWI 4)

BB (RISU 7), BB (WISA 3), BB (MUN 1),  
BB (OSE 7)

Crudiv 6: (ORU 5) (NIYO 2)1st Section

AOBA (NITA 4)  
KAKO (SESI 1)

2nd Section

KINUGASA (WAHI 9)  
FURUTAKA (TEYO 7)

Desron 1: (KIO 4) (KARO 0)

Flag - ABUKUMA (AKO 2)  
Desdiv 6 (TIKA 8)  
Desdiv 97 (YUMI 8)  
Desdiv 21 (WAHE 8)  
Desdiv 27 (RITE 9)

JULY 29, 1942 (Continued)

JULY 1942

No. 410 (Cont.)

<u>Desron 3:</u>	(NAMI 3)	(MENE 6)
Flag -	SENDAI	(RESI 6)
Desdiv 19?		(RISE 4)
Desdiv 20		(RIYA 5)
Desdiv --		(NOMU 1)
Desdiv --		(SOHO 8)

It was commented:

In Cradiv 6 KAKO and FURUTAKA calls are accurate. The other two may possibly be interchanged. Desdivs assigned specific numbers are believed fairly accurate. At present we are unable to offer more on BB's. Our research fails to disclose anything definite enough to warrant any conclusions as to probable identities.

(CG Organization Bull. #6-OPNAV 282212-DI)  
(Summary 290600, July, No. 1)

No. 411

No changes in 1st Fleet except Desron 3, less one division, on escort duties from Japan to Malay-Indies waters with at least portion arrived. Desron 4 now believed consist of YURA plus Desdivs 2, 4, 8, and 9 or 24; likewise on escort duties to the south. Desdiv 2 believed in company Cine 8th. Desron 10 believed composed of NAGARA, Desdivs 3, 7, 17 and one other, also on escort duties to the south with Desdiv 17 in Philippine Units and other Units in home waters. (OPNAV-282100-CNI Bull.)

JULY 29, 1942 (Continued)

No. 411 (Cont.)

It was observed:

Desdiv 2 was associated with Cine 8th on 26 July. On the 24th and previously, however, this Division was associated with Crudiv 7 in the movements to the M.E.I. - Malay area. (Summary 290600, July, No. 3)

The location of many other enemy units was also supplied through traffic analysis:

No. 412

Batdiv 3 remains home waters, mostly in Kure area. Although new carrier organization formed, old set-up retained pending clarification of assignments. Cardivs 4 and 5 concentrated principally Kyushu waters with SHOKAKU now flying flag of Comdr. 1st Air Fleet. HITAKA fitting out period nearly or entirely completed. Crudivs 4 and 5 believed in home waters, but possible one unit with Cine 8th. Crudiv 8 in home waters or in company Cine 8th. Desron 2 now considered consisting of Desdivs 15, 16 and 18; all on escort duties. KASHIMA appears have arrived Kure. ABURUMA, Flag of Desron 1, returned Yokosuka. Subron 1 believed returned home waters. One division of Subron 8 at Yokosuka. CHITOSE probably Yokosuka. CHIYODA indicated returned home from Aleutians. KAMOI scheduled for Marshalls, still at Yokosuka. NOTORO at Basebo. FUJIKAWA MARU possibly returning Raizuru from Northern area. COSHU MARU at Yokosuka. SHINETOKO returned home port. HAYATOMO in Kyushu area. (OPNAV-282100-ONI Bull.)

JULY 29, 1942 (Continued)No. 412 (Cont.)

It was remarked:

CHOKAI of Crudiv 4, indicated by T.I. to be Flag of Cinc 8th and to have arrived at Truk 25 July. Crudiv 8 was associated with the 4th and 8th Fleets in a message on 22 July and a future move may be intimated, however, on 25 July Crudiv 8 was associated with the carriers and Comdr. 1st Air Fleet whom T.I. indicated were conducting training exercises south of Kyushu. NOTORO indicated by traffic routing as being at Chinkai on 28 July.  
(Summary 290600, July, No. 18)

No. 413

4th Fleet Cinc at Truk. Subron 2 appears in Marshalls. 8th Fleet Cinc in CHOKAI at Truk. Desdiv 34 now believed moved back to Marshalls. KAMIKANA MARU arrived at Truk. (CPNAV-282100-ONI Bull.)  
(Summary 290600, July, No. 45)

No. 414

JINTSU, Flagship of Desron 2, and one division believed in Rabaul area. TENRYU and TATSUTA in southeast New Guinea waters. Crudiv 6 last reported with two ships at Havieng on July 19 and in Rabaul area on July 22. Desron 6: YUBARI possibly in New Guinea waters with Desdiv 30; Desdiv 29

JULY 29, 1942 (Continued)

29 JUL 1942

No. 414 (Cont.)

in Tulagi vicinity. 19th Division in general Rabaul area. Task Force under Comsubron 3 operating southern Pacific with Subron 3 having units still in New Britain area. At least one division of Subron 6, Subdiv 33 of Subron 7 in Rabaul area and one division of Subron 8. (OPNAV-282100-ONI Bull.)

It was mentioned:

Cinopac bulletin of 27 July reported possibly one division of Subron 8 in Australia-New Britain waters, however, no indication of this in T.I. has been noted by OPNAV. (Summary 290600, July, No. 53)

No. 415

Destroyer (KUMU 55) believed at Buna. New type call (SA 61) identified as destroyer (KUMU 5) carrying Commander (RO 172) who was shown at (NONU 7) on 24 July. Commander Sesebo #5 Special Landing Force also at (NONU 7) and enciphered "Comdr. Landing Force" shown at enciphered "Buna". Thus NONU 7 probably Buna. (GT #500-OPNAV-291420-TI) (Summary 291400, July, No. 29)

No. 416

Singapore (KISI 5) dispatch 2010/28th, to Comdr. Malay Force, Comcrudiv 7 and Comdesdiv KISE 1 is believed an acknowledgment of arrival arrangements. (COM 14-290706-TI)

22 JUN 1943

JULY 29, 1942 (Continued)No. 416 (Cont.)

It was stated:

Desdiv KISS 1 is believed Desdiv 2  
in Desron 4, which on 28 July was believed  
on escort duty to the south.  
(Summary 291400, July, No. 34)

No. 417

Traffic for tentative ONITOSE (MITS 1)  
and SENDAI (RESI 6) routed via Takao. Pro-  
bably for relay south since Comdesron 3 in  
SENDAI believed in company with Crudiv 7.  
(COM 14-290706-TI)

It was indicated:

On 28 July Men-of-War MITS 1 was indi-  
cated by TI in Yokosuka Area. SENDAI  
(RESI 6) was, by traffic routing, in Takao  
area or further south, on 28 July. Cru-  
div 7 on 28 July was an information addressee  
in a dispatch from Saigon addressed to  
western portion Subron 8. The other info  
addressees were Comdesron 3, 1st and 2nd  
Air Attack Forces and Suffix 12 of 3rd Fleet.  
(Summary 291400, July, No. 33)

There were no new developments noticed in  
the development of an enemy Striking Force:

No. 418

Nothing further noted regarding the  
formation of any Striking Force.  
(COM 14-290658-TI) (Summary 291400, July, No. 2)

JULY 29, 1942 (Continued)

The Commander in Chief, Eighth Fleet had arrived at Rabaul, and it appeared that Kavieng had become the new control point on the route from Truk to Rabaul:

No. 419

Cinc 8th further using Truk cover sent long 3-part dispatch to enciphered outer area Southern Force (HOTO MANYO BUTAI) at 1200/27th which may be operational plan or detailed report of command to be exercised by Cinc 8th. (BEL-280750-TI)  
(Summary 290600, July, No. 8)

No. 420

Cinc 8th Fleet (concealed originator at Truk) sent movement report at 1500/27 July which may be departure from Truk. Dispatch addressed Cinc Combined and 2nd Fleets (ESSE 1) and (YOFU 7), Tokyo Movement report office (SUKKO), Info: Cinc 4th (SAKO 7) enciphered Southern Force and Commander Desdiv (RIYU 7) (Rabaul area). (BEL.-280750-TI)

It was noted:

Cinc 8th Fleet was reported as arriving Truk July 25th and since that date has used Truk as cover until 1430/28 July TI indicated Cinc 8th now using Rabaul as cover. (Summary 290600, July) (No. 6)

22 JUN 1942

JULY 29, 1942 (Continued)No. 421

Cinc 8th still under Truk cover and  
Comerudiv 18 at Rabaul. (COM 14-281915-TI)

It was mentioned:

Cinc 8th Fleet was noted using Rabaul  
cover at 1430/28 July.  
(Summary 290600, July, No. 7)

No. 422

Cinc 8th Fleet shifted cover from Truk  
to Rabaul radio, indication arrival at  
latter communication zone. (COM 14-290658-TI)  
(Summary 291400, July, No. 23)

No. 423

Kavieng appears to be new control point  
on the route from Truk to Rabaul area.  
(COM 14-290706-TI) (Summary 291400, July,  
No. 26)

An intercepted operational message indicated  
that a division of enemy forces was in the New Guinea  
area:

No. 424

Enciphered "South Seas Detachment  
Commander" (KANKAISSETAISU) and "97th Army"

RIP 102

JULY 29, 1942 (Continued)

22 JUN 1943

No. 424 (Cont.)

shown at Rabaul Base (WAKO 11) at 1700, 29 July. Message from DD (KUMU 55) addressed TATSUTA (?) (HORA 3), Comdr. Tainan Air (KMU 88), Comdr. Sasebo #5 Special Landing Force (TOMA 66), and Comdr. Crudiv 18 (NOTE ~~ØØ~~) was double-headed to above enciphered addresses plus Chief of Staff 8th Fleet (REMA 304). This message was in operational code and indicates some division of forces in New Guinea area. Probably Comdr. Destroyer (KUMU 55) is in command some portion of operations. TATSUTA is probably separated from Comcrudiv 18. (GT #499-OPNAV-291410-TI)

Several messages were sent from the Commander of Rabaul Base to the Commander in Chief, Eighth Fleet. Kavieng was also active:

No. 425

Rabaul (WAKO 11) originated to unidentified Collective (HIFU 6), Info Chief of Staff 8th Fleet (RIYO 304) at 0830, 29 July. At 1000 to Chief of Staff Combined (TOYA 704), Info Tokyo Transport Section (REWIRE), Comcrudiv 18 (NOTE ~~ØØ~~), and Maru (WAKO 7). At 1340 to HIFU 6 again, Info CHOKAI (NTI 99), Comdesdiv 16 (RIYU 77), Comdesdiv (MAN 55), and Comdr. 5th Air attack (NIRI 66). At 1530 and at 1610 to

JULY 29, 1942 (Continued)

22 JUL 1942

No. 425 (Cont.)

Communication Officer 8th Fleet. These messages all from Commander Rabaul Base and not tactical commander covering under Rabaul. They seem to be informative to 8th Fleet Command and Desdivs. In the case of the one at 1000, probably report of movements of Maru (MARO 7) - perhaps releasing this vessel from assignment or report of damage to this vessel. (GT #500-OPNAV-291420-TI)

It was pointed out:

On 27 July TI indicated MOKUSA (suspected Army Command) on board Maru (MARO 7) escorted by two destroyers, NEU 4 and RIYU 7, believed in Falso general area.  
(Summary 291400, July, No. 30)

No. 426

Enciphered "Kavieng Base Comdr." addressed Comm. Officer Rabaul Base Force (WAKO 195), info enciphered and not understood "KAMI", Comm. Officer 8th Fleet (REHA 395) in care of Rabaul Base Force, Comdesdiv 16 (RIYU 77) and Comm. Officer 5th Air Attack (NIMI 695) at 1000, 29 July.  
(GT #504-OPNAV-291450-TI)  
(Summary 291400, July, No. 31)

Other Japanese dispatches were quite important, since they gave further grounds to assume that the jurisdiction over the southern territories had been divided between the Commander in Chiefs of the Fourth and Eighth Fleets:

JULY 29, 1942 (Continued)

22 JUN 1943

No. 427

Naval General Staff at 2000/28 July issued lengthy 4-part directive, or plan, in high command cipher to Chiefs of Staff Combined, 8th, and 11th Air Fleets; Info: Rabaul Base Force (WAKO 1), and Commander 5th Air Attack (TAM 1). The 4th Fleet command was notably missing from address. This must be change or modification of plan for operations in South. The replacement of Cinc 4th Fleet as S.O.F. would appear to indicate that it is the Japanese plan to leave Cinc 4th as S.O.F.A. in Mariannas, Caroline, Marshalls area and establish an entirely new sphere of command centered at Rabaul, and including the New Guinea-Solomons Area, and possibly more. It may be that the Japanese attempt to express this area has resulted in the phrase "Outside South Seas Force" so prominent in southern area traffic for the past week or ten days. (CI 3496-OPNAV 282124-TI) (Summary 290600, July, No. 4)

No. 428

Tokyo Radio addressed short 5-numeral to 4th Fleet flagship (TAYA 4), Info: Flags of Combined, Subforce, 8th Fleet and 11th Air Fleet. Contains new communication dope for 4th-8th Fleet operations. (COM 14-291906-TI) (Summary 290600, July, No. 5)

29 JUN 1943

JULY 29, 1942 (Continued)No. 429

Comdesdiv MAN 55 at 1600, 29th, addressed Chief of Staff Subforce (RATA 104), Comdr. Jaluit Base (MUTE 33), info Chiefs of Staff 8th (RIYO 304), 4th (TAYA 404). Previous messages from Comsubforce at Jaluit to this Desdiv Comdr. have indicated this Desdiv enroute Jaluit. Association with 8th Fleet Command indicates this Desdiv will later go to 8th Fleet area of operations. (OT #501-OPNAV-291430-TI) (Summary 291400, July, No. 19)

No. 430

FROM: Chief of Staff 4th Fleet 27 July/1200  
 TO : TOYA 7 (Chief of Staff Combined),  
 YOFU 8 (Unidentified Chief of Staff),  
 INFO: TUWI 8 (Chief of Staff 1st Air Fleet),  
 Sasebo,  
 Comdesron 2,  
 Comdesdiv RIYU 7,  
 RIYO 3 (Chief of Staff 8th Fleet),  
 Cruiser RASE 6.

This may relate to movement of RASE 6 but inclusion of 1st Air Fleet command as associated 4th Fleet may be significant. This sent to Rabaul for RIYU 7 and also to Palao. (COM 14-280808-TI)

It was noted:

On 28 July, Comdesdiv 16 (RIYU 77) originated a movement report possibly arrival at Truk. (Summary 291400, July, No. 18)

22 JUN 1943

JULY 29, 1942 (Continued)

The Commander in Chief, Combined Fleet was also interested in the progress of activities in southern waters:

No. 431

Chief of Staff Combined (KURE 104) sent short one in high command cipher to Chief of Staff 4th (TAYA 404), info Chiefs of Staff 11th Air (IMA 404) and 8th (FURO 604) at 1030, 29 July. Apparently Cinc Combined putting his ear in in connection long dispatch from Naval General Staff at 2000, 28 July, reported previously as item No. 427. (CT #502-OPNAV-291440-TI)  
(Summary 291400, July, No. 3)

Cruiser Division 18 again appeared under a cover call sign at Rabaul:

No. 432

Comcrudiv 18 under Rabaul cover addressed "Commander Seaplane Force at Salamaua", and "Commander Landing Force at Buna, "info: Chief of Staff 8th and 11th Air Fleets (FURO 6 - IMA 4), and 5th Air Attack (TEE 1) at 1810/28 July. (CT #495-OPNAV-282124-TI)

It was mentioned:

29 JUN 1943

RIP IC2

JULY 27, 1942 (Continued)No. 375

Association noted today between Comcrudiv 6, Mandate air addresses, and Bureau of Aeronautics, possible aircraft replacements Crudiv 6 units.  
(COM 14-270824-TI) (Summary 271400, July, No. 30)

Two other enemy warships were definitely located in the Rabaul area:

No. 376

Rabaul Base addressed destroyer NEU Ø and JINTSU (YUWI Ø) at 1300, 26th, indicating these two ships in area.  
(GT #486-OPNAV 271730-TI)

It was indicated:

JINTSU has been associated with NEU Ø and Rabaul area since July 21st.  
(Summary 271400, July, No. 33)

A Maru and a new warship were enroute to Rabaul via Saipan and Truk:

No. 377

Traffic routing and associations indicate: Maru MENO 9 enroute Yokosuka to Rabaul via Saipan and Truk. (BEL.-260659-TI) (Summary 270600, July, No. 3)

22 JUN 1943

JULY 29, 1942 (Continued)No. 432 (Cont.)

Comcrudiv 18 started using Rabaul cover about 22 July, apparently after returning from the vicinity of Lae.  
(Summary 290600, July, No. 47)

The southward trend of many Marus continued on this day:

No. 433

AZUMA MARU (YUKI 5) may be arriving Marshalls. (COM 14-280808-TI)

It was remarked:

This vessel on 24 July associated in dispatch from Cinc 4th Fleet with Comcrudiv 6 and 18, Rabaul Base, Truk, an unidentified Combat ship WIMU ~~66~~ and 8th Fleet.  
(Summary 291400, July, No. 20)

No. 434

At 0530, 29 July Maru YUKA 3 originated most urgent to Cinc 8th and 4th Fleets (RIYO 33 - YUKA 77), Truk Base (NERI 11), info unidentified collective ROYO 9. No indication of location this vessel. This dispatch given wide circulation indicating call ROYO 9 is "all ships and stations" or similar thereto. (CT #501-OPNAV-291430-TI)

It was commented:

22 JUL 1943

JULY 29, 1942 (Continued)

No. 434 (Cont.)

Maru YUKA 3 on 23 July was addressed by Chief of Staff 4th Fleet, Information Chief of Staff 8th Fleet and Rabaul Base. This association gave rise to assumption this vessel enroute from Empire to Rabaul. (Summary 291400, July, No. 21)

No. 435

KOTOKU MARU (RATS 3) in general Rabaul area 29 July associated Crudiv 18, TATSUTA, 5th Air Attack and others unidentified. (GT #504-OPNAV-291450-TI)

It was observed:

TATSUTA (CL) believed in Crudiv 18 in 4th Fleet. (Summary 291400, July, No. 27)

Japanese air carriers were practicing off Kyushu, and this was another indication of future action. Before every major engagement during the war, the enemy had practiced assiduously for the forthcoming operations:

No. 436

Carriers still believed exercising South Japan. (CINCPAC-290303-Bull. #135) (Summary 290600, July, No. 25)

JULY 29, 1942 (Continued)

No. 437

Continued activity of carriers and ex-AKAGI, KAGA, HIRYU and SORYU Plane Groups (Off Kyushu by D/F and communications with Sasebo Radio). suggests intensive training new carrier pilots and reorganization of carriers under old commands of Carriers 1 and 2. Possibility of deception considered but no substantiating evidence to be seen. (COM 14-290658-TI) (Summary 291400, July, No. 14)

The usual air reinforcements were coming into Rabaul, and some of the new units were identified:

No. 438

Continued evidence of air reinforcement flights from Empire to Rabaul area. (COM 14-290706-TI) (Summary 291400, July, No. 25)

No. 439

Saeki Air Station dispatch 1330/27th to Tokyo Bureau of Aeronautics (SIROMA), Info: Unidentified man-of-war #UNI 6 (Rabaul area). Association of this unit with air activities suggests it may be plane tender or vessel transporting aircraft stores. (BUL-280842-TI)

22 JUL 1942

JULY 29, 1942 (Continued)No. 439 (Cont.)

It was mentioned:

This is the first appearance of  
MUNI 6. (Summary 290600, July, No. 9)No. 440Comairron 25 (MUNI 6) shown at Lae  
(REMI 6) in dispatch from Rabaul Radio  
at 1200/27th. (B.L.-280750-TI)

It was reported:

Comairron 25 shown at Rabaul 27 July.  
(Summary 290600, July, No. 48)Doubt as to the location of the carriers  
SHOKAKU and ZUIKAKU caused a report on their approxi-  
mate positions to be made:No. 441Request opinion on possibility SHOKAKU  
and ZUIKAKU either one or both being in  
company or joining CHOKAI escorted by two  
Desdivs, one of which is (MUN 5) and possibly  
(NAKA). (COMSOPAC-290530-TI)  
(Summary 291400, July, No. 4)

22 JUN 1943

JULY 29, 1942 (Continued)No. 442

Comment on Item No. 441 above, COMSOPAC or 290530.

No evidence whatsoever that carriers SHOKAKU and ZUIKAKU are joining CHOKAI, or are under escort by Desdiv MAN 5 or NAKA. As previously reported, Comdesdiv (MAN 55) believed enroute Jaluit, possibly escorting subs or auxiliary vessels under command Comsubfor, as letter corresponding with Desdiv Comdr. It is expected that Comdesdiv (MAN 55) will proceed to Rabaul area after arrival Jaluit. No information on NAKA.

ZUIKAKU on 17 July originated almost unmistakable movement report, and in addition, on 16 July, a dispatch to shore radios along the route to and including Singapore. The movement report was addressed to Base Force at Singapore, Cinc 3rd and Southern Expeditionary Fleets, among other usual addressees. Since 17 July there has been nothing to substantiate this movement, and on contrary D/F and the few available associations have indicated ZUIKAKU in Empire waters.

SHOKAKU has not appeared in traffic available OPNAV since 21 July<sup>a</sup> at which time she was associated Empire activities. Possibilities therefore exists that she is underway and silent. However, note that Crudiv 7 and Desdiv 2, which moved to Malay area, received constant stream of messages while enroute from interested commands at destination. Movement of carriers may be better protected from standpoint radio security than is movement heavy cruisers but seems unlikely.

a - COM 14 reports SHOKAKU active on 5910 kcs. on 24 July. (GT #506-OPNAV-291745-TI) (Summary 291400, July, No. 5)

22 JULY 1943

JULY 29, 1942 (Continued)

A decrypted message revealed that an Occupation Force was in existence in the Rabaul area, and that an offensive movement would be in operation soon, if it had not already begun:

No. 443

FROM: SIRIA #371 27 July, 1942  
 TO : HIRE 11  
 INFO: HIRU 404  
       MAKO 11 (78 Base Force at Rabaul)  
       HAWHO (Rabaul address)

Mentions "RET" Occupation Force. We do not know whether this place already in enemy hands, but if not it is on list for early attempt. MAKO 1 Serial 314 of 22nd is Battle Report of Commander "REK" Occupation Force but context indicates that enemy already there.  
 (CG #2260-OPNAV-291515-BI)

It was commented:

SIRIA is unidentified. Sol. calls HIRE 1 Rabaul. On 26 July this call was used as cover for a hidden originator (Comdr. Buna Occupation Force) and addressed to various New Britain addressees. Mentioned "Y" Day as 29th and outlines operations based on that date.  
 (Summary 291400, July, No. 24)

RIP 102

22 JUN 1943

SECRET

JULY 29, 1942 (Continued)

A disturbing incident now occurred which might well have jeopardized much of the U.S. Navy's frequency coverage plan. Allied Army Forces in Australia or New Guinea were jamming one of the Japanese circuits, and thus, were interfering with Communication Intelligence activities. Such jamming was theoretically advisable, but in practice it often shut off an important source of intelligence. The British long ago came to the conclusion that jamming German stations was senseless, since it prevented the Allied intelligence units from discovering what the Nazi leaders had to tell subordinate units:

No. 444

Deliberate interference again noted on Orange circuit 9880 kcs. presumably caused by Allied Army Forces in Australia or New Guinea area. This useless activity results only in delaying and confusing our own intercept and may have extremely harmful result of causing a complete Orange frequency shift if not stopped. Deliberate interference previously noted on 4940 and 11340 kcs. on 20 July. Army informed. (NSL.-280828-TI) (Summary 290600, July, No. 46)

Unidentified Man-of-War NAYA 3 en-  
route or arrived Rabaul area 30 July.

(GT #511/Opnav-301901-TI)

(Summary, 301400, July, No. 24)

No. 459

Rabaul Radio (NOYO 9) is in communication with man-of-war NEU Ø, which is accepting traffic addressed to JINTSU (YUWI Ø) thus indicating presence both these ships in Rabaul area. MARU MARO 7, originated an encoded Communication Zone Report at 1830, 28th, heading of which included JINTSU (YUWI Ø), Sasebo (KEMI 7), Rabaul (HIRE 1), and Tokyo (YOKI 3) as action addressees. This Maru is apparently enroute from Rabaul to Sasebo and will probably pass through JINTSU Communication Zone. Inclusion of Takao (HOFU 2) as informer addressee in this message further suggests that vessel will proceed directly to Sasebo, passing through Takao Communication Zone. (BEL. 290749-TI)

It was mentioned:

NEU Ø appears to be a destroyer. This destroyer and JINTSU have appeared as operating together since July 22nd. On July 25th, they were indicated as escorting MARU MARO 7, which appeared to have an unidentified Army Command MOKUWA aboard, apparently enroute Rabaul to Palao. These three ships were still associated July 27th, and were believed to be in the Palao area.

(Summary, 300600, July, No. 34)

Interlinkage between the two.  
(COM 14 291912-TI)

It was indicated:

For the past week or so there have been associations between the Philippines and New Britain-Rabaul area, especially involving army units from the Philippines to the New Britain-Rabaul area.  
(Summary, 300600, July, No. 47)

An important exchange of information now took place between representatives of U. S. Naval Communication Intelligence:

No. 473NOTES ON ORGANIZATION BULLETINS

The following explanatory note is offered on the "Fleet" organizations currently being presented in these summaries:

The "Fleet" is a purely administrative organization and, as such, the exact details of its composition are only of academic interest; but for a number of reasons, chief of which is its relative permanence, it forms a better basis for research into the identity of call signs than does the all-important, but extremely fluid "Task Force." Moreover, it constitutes a simpler method of presentation.

22 JUN 1943

SECRET

RIT 102

JULY 30, 1942 (Continued)No. 473 (Cont.)

Since, however, the amount of re-search required to uncover all details of the administrative organization would delay the product beyond its period of usefulness, some error in assignments must be accepted. Hence, the organizations as presented should not be taken as perfect ones. The object is to identify as accurately as possible all principal call signs so that our conclusions as to the composition of the ever-changing Task Forces may be correct. Therefore, the essential thing is the correct identification of BatDivs and battleships, Crudivs and cruisers, Cardivs and carriers, Desrons and Desdivs, the principal seaplane tenders and auxiliaries, etc. Their permanent fleet assignment is of minor importance.

The vital questions to be answered concerning a call sign are : (1) What is it? and (2) what is its present employment? It is question (1) that these organizational studies seek to answer with some certainty. The answer to (2) changes from day to day and must be found in the product of daily D.I. and T.I. processes. The study concerning the 2nd Fleet organization which appeared in Summary, 260600/Q July, No. 5, page 3, was sent out to the R.I. Units in the field for consideration and comment. In reply, COM 14 states:

1) Batdiv 3 is in 1st Fleet, not 2nd Fleet.

2) Identification of Desdivs by num-

22 JUN 1943

SECRET

REF 102

JULY 30, 1942 (Continued)No. 473 (Cont.)

bers in Desrons 2 and 4 is considered hopeless; some Desdivs have shifted back and forth between these two Desrons at least three times in the past year.

3) The two surviving cruisers of Crudiv 7 are KUMANO (MUTU 2) and SUZUYA (KOSE  $\emptyset$  or RASE 6).

4) KIRO 8 is a vessel newly commissioned in May.

5) Based on good evidence, MISU 9 is believed to be NAGARA, Flag of Desron 1 $\emptyset$ , rather than a Desdiv.

6) Desron 1 $\emptyset$ , specifically organized for plane guard duty, comprises Desdivs AKU 5, RETO 2, MEMU 3 and TATO 3.

With respect to point 1, Opnav recognizes that Batdiv 3 may still be carried on the permanent Japanese Navy organization list as a part of the 1st Fleet, but believes that this Batdiv is being administered currently by Cine 2nd.

The difficulty of accurately identifying Desdivs by numbers, and of distinguishing between various vessels of the same type, is also recognized. However, these designations are convenient means of keeping track of units, and even though the identifications may not always be exact, the errors will be relatively unimportant so long as everyone uses the same name or number for the same unit.

Opnav does not agree with COM 14's point 6. It is true that in May 1942, and again during the past few days, Desdiv TATO 3 operated under the command of Desron 1 $\emptyset$

22 JUN 1943

RIF 102

SECRET

JULY 30, 1942 (Continued)No. 473 (Cont.)

(HAKA 7). However, the inclusion of "TATO 3 and HAKA 7" in the addresses of dispatches from HAKA 77 indicates that TATO 3 is not regularly included in the HAKA 7 organization. Moreover, the context of TUMI 5 (Desron 4) serial 450 of May 8 reveals that TATO 3 is regularly assigned to Desron 4.

In view of COM 14's certainty as to the other points, the 2nd Fleet organization set forth in item 5 of R.I. Summary 260600 should be revised as follows, pending further research:

Crudiv 7:

Interchange the calls of MOGAMI and KUMANO.

Desron 2:

Delete "Desdiv \_\_\_\_\_ (KIRO 8)."

Desron 10:

After "NAGARA" add - - (MISU 9) - -. Delete "Desdiv \_\_\_\_\_ (MISU 9)."  
(Summary, 301400, July, No. 2)

No. 474

Associations of Crudiv 7, Desron 5, Desron 3, 1st Air Attack, Subs, and high command in Southwest so numerous that tactical operations must be now or soon will be initiated. (GT#316-Opnav 311941-TI)  
(Summary, 311400, July, No. 13)

quency shifting. Characteristics previous carrier communications plan used December 7th and later. Activity subsided after 2120, when unit MIMU reported arrival Kanoya. (COM 14 301802-TI)  
(Summary, 310600, July, No. 2)

No. 494

Carrier Groups plus UMI 2 (HAYATAKA), KENI 2 (HOSHO?), 1st Air Fleet (KAKU 7), between 297/304 from Oahu.  
(COM 14 301806-TI)

It was noticed:

On July 28th, the SHOKAKU appeared Flagship of the 1st Air Fleet. These ships have appeared in the same general location for the past few days.  
(Summary, 310600, July, No. 17)

Japanese Radio Intelligence units, whose efforts seemed to be centered in acquiring as much information as possible concerning the Allied forces, were very busy on this date:

21 JUN 1943

SECRET

RIP 102

JULY 31, 1942 (Continued)No. 495

Heavy traffic volume noted during day due to many RI reports and dispatches between Base Force Units both in New Britain-Marshalls area and Singapore area.  
(COM 14-310544-TI)

It was commented:

Both of these areas have received a great deal of traffic lately indicating future action. All Stations have noted the continued activity in the Rabaul-Mandate area and the Singapore area - apparently trying to get all information of Allied Forces.

(Summary, 310600, July, No. 4)

References in enemy dispatches to a place name designator (RAF) were the cause of the following discussion:

No. 496

Three references to place name designator RAF. R areas comprise Solomons, New Britain, Gilbert, Ellice, Louisiade Archipelago and Eastern New Guinea. RY area comprise Gilbert and Ellice region and to South. RX cover Solomons, and RZ cover Eastern New Guinea as well as possibly islands off shore. RR covers New Britain. In view of above believe that RZT is on or near Eastern New Guinea, suggest vicinity of Kido near Moresby.

22 JUN 1943

RIF 102

SECRET

JULY 31, 1942 (Continued)No. 496 (Cont.)

Regarding RAF, this is only record of RA and could be an extension of RZ areas, indication all 26 ZEDS used up. Last half of DOGS are Australia so don't believe RAF is there. (COM 14 301204-DI)  
(Summary, 310600, July, No. 50)

The appearance of several air groups in radio traffic to and from the Rabaul area was another demonstration of increased enemy air strength, which was being built up in this region at the expense of other districts:

No. 497

New dispatch from Combined Fleet at 2100 on 29th, to Plane Tender SESI 3, care Crudiv 7 (ROTU 1) sent by Tokyo to Truk. Probably misrouted, but noted. Also Comdr. 1st Air Group of Marshalls Air (NOTE 3) traffic sent to 5th Air Attack. If moved to Rabaul area this reduces Marshalls Air strength considerably.  
(COM 14 301804-301806-TI)

It was remarked:

Tender SESI 3 appeared in company with Crudiv 7 July 24th, enroute East Indies Malay area. (Summary, 310600, July, No. 23)

22 JUN 1943

SECRET

RIP 102

JULY 31, 1942 (Continued)No. 498

Increased importance 14th Air (MENU 5) noted. Included in R.I. and dispatches from 5th Air Attack along with 2nd, 3rd, 4th, 5th, and 6th Air Attack Forces. (COM 14 301806-TI)

It was observed:

The 14th Air Corps appears in the Marshalls Islands. This unit appeared to be a part of the 4th Air Attack Force in the past. About June 10-11, there appeared a possibility that the 14th Air Corps would be transferred to the 5th Air Attack Force at Rabaul in exchange for the Yokohama Air Group, but there were no indications that this was ever accomplished and according to T.I. the Yokohama Air Group appeared at Truk on July 22nd. On July 26th, there were slight indications that a section of the 14th Air Corps appeared at Gasmata? It now appears fairly certain that at least part of the 14th Air Corps has moved to the Rabaul-New Britain area, and this would account for the increase in importance of this unit. (Summary, 310600, July, No. 38)

No. 499

Auxiliary TUU  $\emptyset$  enroute Yokosuka to Rabaul via Truk. (BEL. 300805-TI)

It was reported:

Traffic association suggests that TUU  $\emptyset$  has been used to transport aircraft or aircraft supplies in the past. (Summary, 310600, July, No. 48)

SECRET

JULY 31, 1942 (Continued)

Some urgent enemy contact warnings had been sent by the Japanese on July 19, and later these were included in the Summary of July 31.

No. 500

Urgent contact type code at 1500, 19th, from Comdesdiv 30 (KUMU 5) who appeared as concealed originator at Buna (NONU 7) was addressed to Comcrudiv 18 (MOTE Ø), TATSUTA (NORA 3), Comdr. Tainan Air Group at Lae (EKU 8), and Sasebo #5 Special Landing Force (TOMA 6). This dispatch later routed for further information to Chief of Staff 8th Fleet (REHA 3), and enciphered address Comdr. Southern Detachment, and 17th Army Force at Rabaul. Another urgent contact type code from unidentified man-of-war KARA 7 (apparently at Buna) at 1545, 19th, for action Escort Division TIHI 3, TATSUTA (NORA 3), and Comdr. Sasebo #5 Special Landing Force (TOMA 6). It would appear from these dispatches that escort units in Buna area were attacked probably by aircraft. Lunga (MUNE 9) also reported sighting enemy aircraft at 2144, but no further reports noted. (BEL. 300710-TI)

It was noticed:

TATSUTA, a cruiser of Crudiv 18, has been indicated as operating independently from the rest of Crudiv 18. The Sasebo #5 Special Landing Force appears to have taken part in the landing at Buna. The 17th Army has been associated with Davao, but there have been indications that part of this Army force has been transferred from Davao to Rabaul during the past 2 weeks.

cessary to strengthen our offensive against America and England, establish a solid organization in the south, and tighten our grip on China. In this there is no change in the determination which the Japanese Government announced to Germany on July 2nd of last year.

At this time it is necessary to maintain peace in the north insofar as possible. We have continuously taken adequate measures to retaliate decisively in case they should by any chance take the initiative, but from a consideration of all the circumstances it seems necessary to put off the idea of slackening our effort against England and America, moving our forces to the north, and again greatly extending our battle front.

Accordingly with this understanding please make a reply to Germany along the following lines:

1. Japan's respect (?) for Germany's sensational achievements in the German Soviet war is unbounded. The Japanese government had heard Germany's views on the new aspects of the German-Soviet war and has considered them with profound concern. Now the Japanese government wishes to express its own views.

2. Since the outbreak of war with England and America last December, Japan's campaign against England and America has tightened the screws on America and England in the Pacific and Indian Oceans. We believe that

tion of the Three-County (Japan-Germany-Italy) war. While it goes without saying that Japan is making all necessary preparations in the north ----- (message unfinished). (GZ/JD #5572-Opnav-311739-DI) (Summary, 311400, July, No. 7)

Osima, Japan's Ambassador to Germany, strong supporter of the Axis governments, and a fervent militarist in addition, expressed his disappointment at the answers contained in Nos. 507 and 508.

No. 509

FROM: Berlin #943, July 29, 1942.

TO : Tokyo.

Re your code #588<sup>a</sup>.

1. I am leaving here on the 29th, and by plane from Warsaw on the 30th, for the German Imperial Headquarters, and will transmit the contents of your message the same day to the German Government. (I will telegraph the result to UCHIDA in Berlin.)

Please note that in response to the invitation of the German Government, I then intend to spend about a week on a tour of inspection of the German-Russian front.

22 JUN 1943

SECRET

JULY 31, 1942 (Continued)No. 509 (Cont.)

2. If it had not been for the fact that Germany had already made a specific request as communicated to you in my #895<sup>b</sup>, your reply (your #588) would of course have been appropriate in making it possible for them to reach certain general conclusions. But you came back stating that the dissipation of our forces would be disadvantageous from the point of view of the general situation; and to use this argument as the fundamental definite reason for our not giving our consent is indeed regrettable.

I realize that from the point of view of our national plans, many difficulties are involved, and it goes without saying that matters of vast strategic importance must be kept absolutely secret. Nevertheless, it is of utmost importance at this time that we inform Germany of the outlines of our strategic plan and let them know exactly what we intend to do and thus to bring about much closer cooperation.

I should like to have such information reported by a Military Commission or by the Military and Naval Attaches, and as far as possible become the subject of military and naval conferences.

The military and Naval authorities agree with me on this question.

a - Japan's reply to Germany's proposal in regard to attacking Russia.

b - Not available.

Some enemy dispatches concerning a "D" Operations Force aroused suspicion that this force might be directed against western or northwestern Australia. It was also indicated that a Striking Force had also been created to disrupt Allied supply routes from India.

No. 533

Dispatch from CinC 3rd Fleet (KIRA 6) at 0850/31 July to Comdesron 5 (KOMO 5), CinC Southern Expeditionary Force (KONU 5) and Commander "D" Operations Force (FUNE 8), Info: Comdesron 3 (NASI 3), Concrudiv 7 (ROTU 1), Commander 1st Air Attack Force at Sabang (TIYO 6), CinC Combined Fleet (RUE 6), all Southwestern Force Commanders (HAMA 535) and Tokyo Naval General Staff (RETEKA). Identification of FUNE 8 and alternate (TUMU 7) were obtained through compromise of enciphered address (TEISAKUSEN-TAI). Since letter "D" has been employed as

RIP 102

SECRET

AUGUST 1, 1942 (Continued)No. 533 (Cont.)

designator for Australia, it is suggested FUNE 8 might be Operations Force directed against western or northwestern Australia. Comcrudiv 7 has been currently associated with 1st Air Attack Force at Sabang. Two ships of Crudiv 7 and Desdiv KISE 1 are believed to constitute the force sighted in Malacca Straits on 28th and may be part of Screening or Striking Force designed to intercept or harass possible Allied routes from India. Comdesron 3 has been currently in vicinity of Saigon and may furnish escort units for a convoy or Occupation Force to be drawn from that area. (BEL-010713-TI)

It was pointed out:

Belconnen was requested to comment on the above dispatch. Belconnen identifies the call FUNE 8 as Commander "D" Operations Force.

(Summary, 011400, August, No. 39)

No. 534

Commander "D" Operations Force (FUNB 8) originated a long dispatch at 1930/30 July for action of "D" Operations Force plus unidentified RISU 5, ANE 7 and TUHE 3, Info: Chief of Staff Southern Expeditionary Fleet (KONU 5) and Chief of Staff 3rd (WIKU 2) plus Base Force Commanders at Soerabaja (TAYU 3) and Balikpapan (UFU 6). This may indicate

mander of Subron 2, who was believed to be near Yokosuka, and also to the Commander of Subron 6, who was thought to be in the South Pacific. Subron 3, operating in the Eastern Australian waters, and Subron 7, which was last heard of at Truk, were also addressed by the Weather Bureau. Estimates were made as to the location of other submarine units as follows:

No. 553

Submarine traffic also fairly heavy and showing Comsubron 1 and Comsubron 2 in Yokosuka area; Comsubron 7 at Truk; Comsubron 8 at Saigon; Subdiv 33 (SUE 3) in Rabaul area and Subdiv SOWI 1 at Yokosuka.  
(BEL-~~1~~834-TI)

It was commented:

Comsubron 2 was indicated at Yokosuka and Comsubron 1 not at Yokosuka on 31 July. Comsubron 7, according to TI on 1 August, was last seen under Truk cover. On 25 July Subdiv 33 (SUE 3) was believed located in vicinity Malaya. On 24 July Comsubdiv SOWI 1 was indicated at Yokosuka by traffic routing and association. (Summary, 020600, August, No. 45)

AUGUST 1, 1942 (Continued)

No. 554

Tokyo Weather (ROEMU) addressed Comsubron 2 who is due shortly at Yokosuka and Comsubron 6 presumed to be in Southeast waters last seen associated with Truk. This at 2000. At same time, he addressed Subrons 3 and 7 (MINE 5 and AHI 4), former is SOPA subs operating in eastern Australian waters while latter was last seen under Truk cover. Same heading included Chiefs of Staff Subforce and Combined Fleet (TOHE 4) and (TOYA 7) Suffix 04.  
(COM 14-010608-TI)

It was indicated:

Comsubron 2 believed at Yokosuka 31 July. Associations in the heading of Movement Report by Comsubron 6 16 July indicated this unit might be in the Mandates with part of his Subdivs moving toward the Rabaul-New Britain area. Comsubron 3 in Bass Strait by D/F 31 July. Subron 7 is believed to be operating in the vicinity of Malaya.  
(Summary, 011400, August, No. 45)

Enemy airplanes and submarines maintained close liaison in the New Guinea area, since the Commander of Subron 7 was always included in reports from the Fifth Air Attack Force.

It was mentioned:

On July 25th, Bel. reported NETU 9 as proceeding Rabaul via Truk and that this vessel recently arrived in Saipan area from Empire. On August 2nd, NETU 9 appeared at Kavieng (New Ireland). (Summary, 031400, August, No. 38)

A new Japanese Fleet unit was discovered at Maizuru, and from its association in radio traffic it was thought to be enroute southwards.

No. 589

New Fleet Unit AME 8 apparently at Maizuru and associated Rabaul and 8th Fleet Chief of Staff. Possibly this unit to go South. (GT#533-Opnav 031530-TI) (Summary, 031400, August, No. 46)

Another indication of Japanese plans for an attack upon the Nauru and Ocean Islands from the North and West simultaneously was found. Traffic analysis

22 JUN 1943

SECRET

AUGUST 3, 1942 (Continued)

of this dispatch disclosed the presence of three enemy tankers in the Ambon area, and indicated that Airron 11 was in the Marshall Islands.

No. 590

Unidentified, concealed originator at NATE 1 addressed dispatch at 1050, 1st, to CHITOSE (TUKU Ø), Auxiliary TUU Ø (now en-route Rabaul area), TSURUMI (NARU Ø), SHIRIYA (WAYU 3) (at Ominato), Auxiliary SESI 3, and Tanker GENOTA MARU (KUVUSA) which is shown in company with NATORI (NIRO 7), probably in Ambon area. This dispatch routed through Comairron 24 (WIMA 6) for delivery to CHITOSE, thereby suggesting presence Comairron 11 (FUKU 7) in Marshalls. Comdesdiv MAN 5 places in Jaluit yesterday. DESDIV MAN 5 has in past acted as escort for Airron 11, thereby tending to strengthen foregoing assumption. This being the case, the association of CHITOSE and DESDIV MAN 5 with units in Rabaul area may be indicative of an impending attack upon Nauru and Ocean Islands simultaneously from North and West.  
(BEL. 030648-TI)

It was noticed:

CHITOSE is a Seaplane Tender. TSURUMI is a Tanker. SHIRIYA is a Tanker. GENOTA MARU is a former Dutch Tanker which was captured by the Japs. COMDESDIV MAN 5 apparently arrived at Jaluit 1300, Aug. 1, from standard movement report to Cinc 4th Fleet.  
(Summary, 031400, August, No. 44)

AUGUST 3, 1942 (Continued)

The sudden rise in radio traffic between Bungo Channel Patrol Force, Kure Defense Force and Destroyer Squadron 10 indicated a movement of heavy ships in that region. Since destroyers of Destroyer Squadron 10 had been escorting aircraft carriers in the Kyushu area, it was surmised that the carriers might be moving. The Commander of Destroyer Squadron 10 was noted in association with the Eighth Fleet, but it was thought that this resulted merely from the assignment of his destroyers to escort duty. It was considered likely that Destroyer Squadron 10 had been strengthened by the addition of Destroyer Division 16 for operations with the carriers which were expected to take place in the near future.

No. 591

A flurry of activity between Bungo Channel Patrol Force (WIMO 7), Kure Defense Force (RASU 7) and Desron 10 (HAKA 7), indicates movements of heavy ships in that region. Activity was heaviest between

20 JUN 1943

SECRET

22 JUN 1942

ORIGINAL

[ RIP 102 ]

AUGUST 4, 1942 (Continued)No. 610 (Cont.)

A very important discovery concerning Japanese call signs was made at this time. The service call NATE 1, which had been first noticed on August 1st, was now identified as a call similar to the United States Navy's "NERK". Various enemy units were using this call, and it was considered probable that the Japanese had finally adopted another of the U. S. Navy's communication security practices. This was one of the many precautions adopted by the Japanese after their defeat at Midway, and the consequent publicity disclosing the source of intelligence which had made possible the victory.

No. 611

Service call (NATE 1) first noted August 1, then tentatively identified as Cinc Combined Fleet, on further development appears as beginning Jap adoption our "NERK" method concealing origin. Various originators using this call include Cinc Combined, Comdesdiv RIYU 7, Comsubforce, Commander unidentified air unit at Kiska, and one other unidentified unit. Some important identifications were made on this day, notably the 108th Air Group and the 11th Pioneer Force at Lunga.

No. 612

Dispatch from Maru ROYO 7, at 0900, August 3, was sent with service calls and addresses and later re-sent with enciphered equivalents positively identifying KIN ø as NIKKAI MARU, UHIKA as 108th Air Group (HITO HITO HATI KOUKUUTAI) and TOMENI as 11th Pioneer Force (HITO HITO SETUEITAI) at Lunga. The latter two are apparently important units as their respective Commanders have the same title (Shireikan) as Commander 8th Base Force at Rabaul. (BEL. -040950-TI)

It was observed:

KIN ø is identified as Maru of the 8th Base Force and shown at Kavieng 2 August. UHIKA and TOMENI previously identified as "Air activity at Truk," and "activity at Guadalcanal," respectively. (Summary, 050600, August, No. 41)

Several Marus were in the Rabaul area, and others were enroute there.

No. 616

Staff Secretary Combined Fleet addressed Maru TUU Ø (enroute Rabaul with Commander Air Unit RITI 6 aboard), information KUYUSA care of Crudiv 7 and All Major Commands (SUHA 5). KUYUSA as Special Routing Section has also been shown in care of NATORI (Flagship, Desron 5). (COM 14-042144-TI)

It was observed:

The call KUYUSA has been identified as Special Routing Section at \_\_\_\_\_, but has appeared in every dispatch available in which GENOTA MARU (a captured Dutch tanker) is mentioned. Belconnen believes KUYUSA is the tanker GENOTA, and reasoned by T. I. that the GENOTA was enroute to Soerabaya with Crudiv 7 on 16 July and was in company with the NATORI in the vicinity of Ambon on 1 August. Maru TUU Ø appears to be enroute from the Empire to Rabaul. Based on the foregoing, there seems to be indication that the GENOTA will carry fuel to Maru TUU Ø, possibly in the Rabaul area.  
(Summary, 050600, August, No. 43)

The repair ship AKASHI, having completed its assignment in making the SUZUYA ready for action, was now returning to Kure.

AUGUST 8, 1942 (Continued)

As the result of the bombing of Vanakanau by thirteen Flying Fortresses, the Japanese Fifth Air Attack Force announced that it would have to curtail the protection it usually gave enemy convoys.

No. 821

NIRI 6 (5th Air Attack Force), Serial 28 at 1110/August 7th. As result of the bombing of RRE by 13 B-17's at 1030 convoy air cover will be curtailed. This is 5th Air Attack Force dispatch order No. (Blank) (78468). (BBL-080805-DI)

It was observed:

RRE is Vanakanau.  
(Summary, 091400, August, No. 42)

An interesting characteristic of the radio traffic originated by the Commander Tainan Air, Commander Fifth Air Attack Force, Commander Airron 25, and an air unit of the Sixth Attack Force, was that all were using the same radio station serial numbers, which indicated that they were either using the same shore radio, or the same radio guard ship.

[ RIP 102 ]

AUGUST 8, 1942 (Continued)No. 822

Comdr. Tainan Air, Comdr. 5th Air Attack Unident Air Unit (RITI 6), which was on board Maru (TUU Ø) and previously identified Comairron 25 (RISA 7), are all using same radio station serial numbers. Believe RISA 7 is the shore radio and is on New Britain. Peculiarly, Comdr. Tainan Air shown on ship (KISA Ø) on 8th, August also uses same series, so alternate possibility is that radio guard for the whole group is maintained by ship.  
(GT #583-Opnav-Ø8652-TI)

It was stated:

Comdr. Tainan Air Group was also noted by T.I. as being on board Maru KISA Ø on 17 and 24 July.  
(Summary, 081400, August, No. 21)

Japanese intelligence reports indicated that there were approximately 800 Allied planes in the Southwest Pacific.

No. 823

MIYORE (Tokyo General Staff) Serial 261, 1st part of two, of 5 August gives details of Allied Air strength in Southwest Pacific areas and number of U. S.

 (KUNA 7), HAYATAKA (UMI 2) and KISARATSU  
 Air (RAWA 22). Departure of carriers from  
 Kyushu area still not indicated.  
 (COM 14-090722-TI)  
 (Summary, 091400, August, No. 14)

No. 877

FROM: Naval General Staff August 9/1800  
 TO : Comdesdiv 4 (TATO 33)  
 INFO: Chief of Staff 8th Fleet (NARE 804)  
       " " " Combined Fleet (SEHE 904)  
       " " " 4th Fleet (TUKI 104)  
       " " " 1st Air Fleet (FURA 804)  
       Cinc Sub Force (WAKA 77)  
       Truk Base (NERI 11)  
       Chief of Staff 11th Air Fleet (WAKA 504)

This may be a change of plan for Desdiv 4,  
 and indicates destination this Desdiv as  
 Truk. Note inclusion 1st Air Fleet as in  
 previous directive to Desdiv 17 (MEMU 3).  
 It seems probable that these destroyers are  
 being detached from service with 1st Air  
 Fleet, but again the possibility that car-  
riers are involved should not be disregarded.

(GT #595-OpNav 091538-TI)  
 (Summary, 091400, August, No. 15)

Traffic analysis disclosed that the RYUJO  
 and not the ZUIHO was in Cardiv 2, no units of which  
 were observed in Southern or Northern waters.

RIP 102

AUGUST 9, 1942 (Continued)

No. 878

Cinc 1st Air Fleet (FURA 88), Serial #264 at 1110/9 August addressed to Cardiv 2 (SOI 0) less RYUJO (RARG 3), ZUIHO (TIE 0) shown positively at Sasebo (NESI 3), and SETTSU (NISI 1), Info: 3rd Air Attack (KI-NA 9), Cinc Combined (SEHE 99), Air Group (KONU 88) associated with 2nd Air Attack, and Yokosuka Air (NAWA 88). Note conclusive evidence RYUJO in Cardiv 2, ZUIHO not in Cardiv 2. Also note administrative nature of message. Appears reasonably safe to assume no vessels Cardiv 2 are in Southern or Northern waters. (GT #605-Opnav 091915-TI) (Summary, 100600, August, No. 8)

Reinforcements were being sent to the Fifth and Sixth Air Attack Forces in the Solomon Islands, and furthermore, it was believed that the Second Air Attack Force would soon take over part of the burden.

No. 879

Association of Airron 26 (EME) with Airron 25 (TEE 1) and Rabaul Air Station suggests that units Airron 26 will proceed to Rabaul area as reinforcements for Airron 25. One section Misawa Air Group (ROYU 218)
