

BORIS HAGELIN Zup, September 26, 1961.

Dear Will,

As I have a courier to Washington DC today, I am sending you a somewhat belated birthday gift. I hope you like it and that you can find a suitable place for it in your home!

I also thank you for your kind letter of Sept 15 which I got on our arrival in Zup a few days ago! we left Lundvik on Sept 18].

I understand and share your feelings towards the rules in the Kremlin - but what can we do? With regard to the attitude

of the people  
shaded with reference  
to call out shelters etc.  
it seems that the  
concern about the  
dangers increases with  
with the square of the  
distance. You can see  
Nyberg!

All the best to you  
and Elizabeth.

Affectionate regards  
from your old friends

Ann & Fred.

P.S. I had an operation  
although it left most  
of the prostate intact.  
I feel OK now.
