Dear Professor Andree:

Receipt of your letter of 21 July 1951 is acknowledged. —

OOT
 hco.

It is with such regret that I have to advise you that established Department of Defense policy precludes my supplying you with any photographs or publications such as you mention.

I assume that you have consulted Prof. Galland's Annotated bibliography of cryptology, which, in my opinion, is the best and most complete bibliography thus far published.

Even though I find myself unable to assist you, I hope that you will be generous enough to send me a reprint of your article when available.

Sincerely yours,

WILLIAM F. FRIEDMAN
 Technical Consultant
