Ann Arbor, Michigan

Dear Dr. Smith:

On 20 January 1954, the Director, National Security Agency, extended an invitation to membership on the Telecommunications Panel of the National Security Agency Scientific Advisory Board. Since you have apparently changed your own location, and since no answer to his letter has yet been received, I feel that it may never have reached you. In the event that this is the case, I am inclosing a copy of his letter, together with its inclosures.

Hoping to hear from you soon in regard to this matter, I am,

Sincerely,

WILLIAM F. FRIEDMAN  
Executive Secretary  
NSA Scientific Advisory Board
