

30 March 1955

Dear Bob:

You are no doubt fully aware of the plan, laid on with your father and Mr. Nyberg, to deliver a C-52 machine to the U.S. Air Attache in Stockholm, for forwarding to me by air express. Thus far we have had no word about this and some of my associates have been pressing me to get their hands on this machine. Will you please ascertain from Nyberg whether he has delivered this machine and if so, when; if not, when will he do so. Prompt word from you on this point will be very much appreciated.

Sincerely,

WILLIAM F. FRIEDMAN
