## Wilks' Trip Report

1. In general all of Professor Wilks' suggestions seem well taken. The report has been read by Dr. Leibler and Dr. Campaigne, and they agree with this.

2. In particular the selection tests, "progressive matrices", (paragraph 8) sound like the sort of thing we have wanted for a long time. The idea seems first rate. Recommend that this be referred to PERS as something for their consultants to develop further.

3. In regard to paragraph 12 we believe NSA-34 and NSA-90 should each send someone to GCHQ for this purpose. You will recall that objections by SEC in 1954 nullified our plans to send our best qualified man to GCHQ on this item. (Within the past three weeks we have been advised that the difficulties have been resolved to the satisfaction of SEC.)
