Squadron Leader A. D. R. Caroe
Royal Air Forces Delegation
Box 772
Benjamin Franklin Station
Washington, D.C.

Dear Caroe:

I have postponed acknowledging receipt of your letter of February 18, until the copy of "Memorandum on Signals and Cypher Security" actually arrived. It has now come and appears to contain interesting material. I hope to get the opportunity to look it over carefully within the next day or two.

Thanking you very much for your courtesy, I am

Sincerely yours,

William F. Friedman
Director of Communications
Research

UR REF:

R REF: A.22,918/42/ADRC

February 18th,
1943Dear *Mr. Friedman*

We have just received from Cairo some copies of a "Memorandum on Signals and Cypher Security" prepared by our Signals Security section there and published as SDME.0508. As I think this would interest you, I am sending a copy of it (through the formal channel established for registered documents) to the Directorate of Communications, Army Air Forces, with the request that it be forwarded to you.

This booklet reflects requirements which the RAF has found to be necessary in areas of mobile warfare where landlines are comparatively few, and the most up-to-date equipment is not always available.

Yours

Lucas
