Radiograms ASA Europe

AS-OM-IN 18948 Out 14842

To ASA-10

Date of Communication 5 Dec. 1948

From ASA-10 Europe

Date of Basic Document 1 Dec 1947

BRIEF SUMMARY

Subject is State Dept SIGTOT installation at Rome Col. French just returned from Rome states security of proposed installation extremely low and recommends delaying installation until proper security furnished. Office Chief Signal Officer EUCOM suggests representative ASA Europe inspect proposed installation area with idea recommending changes necessary for improvement of security.

After conference with their Security Officer State Dept has recommended delaying installation until permanent facilities available. For your future guidance in any cases however desire to inform you that ASAE does not have authority to insist on security improvements in State Dept installations. Suggestions should be made but as suggestions only.
