MAIN SUBJECT

State Dept program for permanent
Security Officers

AS- CM- IN 14065

To. ASA

From ASA Europe

CLASSIFICATION NUMBER

Radiograms ASA Europe

Date of Communication: 11 Sept. 1947

Date of Basic Document:

BRIEF SUMMARY

Recent conversation with Alex E. Prengel former member of ASA and now designated as security officer for American Embassy at Prague. Understand from him that State Department has initiated program to provide permanent security officers at each embassy for purpose of inspecting physical plant for wire tapping, personnel, cryptographic security and security procedures in general. Recommend that State Dept. be approached with view towards authorizing their security officers at Embassies to include Military Attaches as part of general security responsibilities. Believe this would eliminate much duplication and provide for better security from standpoint of those factors other than cryptographic security of Military Attaches now covered by ASA.
