

NATIONAL SECURITY AGENCY  
WASHINGTON 25, D. C.Serial: EXSAB 105-56  
28 December 1956

Mr. William F. Friedman  
310 2nd Street, S. E.  
Washington, D. C.

Dear Mr. Friedman:

Dr. Tukey has arranged for the first meeting of the Sub-committee on Cryptanalysis and Machine Processes to be held here in Washington on 9-10 January. Dr. Tukey plans to convene the first session at 1100 at the Naval Security Station with the possibility that the following day the sub-committee will wish to meet at Arlington Hall Station. The agenda for the 9th will be that discussed at the December 14 session of the Mathematics Panel.

I believe this letter confirms information tentatively discussed with you since the Panel meeting. I would appreciate your letting me know if you find that other business conflicts with these dates.

Best wishes for the holiday season.

Sincerely,

WARREN H. TURNER, JR.  
Executive Assistant  
Office of Research and Development
