MEMORANDUM FOR THE MEMBERS OF USCIB:

Subject:

Reference: USCIB 29.20/1 of 17 February 1955.

1. Vote sheet response to the Army member's proposals concerning continuation activities in as described in the reference were as follows:

For Straight Approval:

- DEFENSE
- ARMY
- NAVY
- FBI

For Approval with Additional Recommendation:

AIR FORCE - "It is desired that particular emphasis be placed upon the requirement for coordination with USAFE."

For Disapproval:

STATE - "The Army proposal seems premature at this time. Suggest that the Board refer this matter to the Executive Committee to keep under continuous review and to advise the Board when the course of action proposed by Army becomes advisable or of any other course of action which may become desirable."

CIA - "CIA is in agreement with the purpose of the Army proposal that this operation should be continued by the U.S. Army. However, it is felt that the situation within both politically and within the intelligence community, is not sufficiently clear to determine the proper means within the to ensure continuation of the operation.
"Accordingly, CIA feels that G-2's suggestion may be premature, and would prefer to defer decision upon it until the above-mentioned factors have become clearer, and until the ratification of the treaty is more imminent. In the meanwhile, it is understood that the continuation of the operation is not now in jeopardy."
