Scamp Visit to NSA

DD/PROD

R/D

DEC 29 1954

LEIBLER/60572/tbs

1. Some or all of the following SCAMP members will be at NSA for three weeks commencing 17 January 1954:

- ✓ A. A. Albert (starting 24 Jan.) - UCL A
- ✓ R. Dilworth (if cleared in time) ✓ G. B. Tompkins
- ✓ E. H. Spanier (was on Albatross) ✓ R. Walker (if cleared in time)
- ✓ ~~A. Whiteman~~ ✓ J. D. Swift - Inst Ad Study
- ✓ W. H. Marlow ✓ Mina Rees
- H. Hyquist

2. These people have had experience at NSA and its predecessors varying from considerable to negligible. Since they will be at SCAMP '55 and since they are a potential source of specialized consultants, it is desirable to give them a good indoctrination into Agency problems during their visit.

3. It is expected that about one of the three weeks (probably the last) will be devoted to informal talks and independent study. R/D is planning more formal presentations occupying one week or perhaps less.

4. It is hoped that PROD will make a presentation for a period of about one week. The object would be to provide background leading up to the outstanding high-level technical problems of the Agency including ALBATROSS and SCRAMBLER. If they are admitted to compartmented problems it would, of course, not be necessary to brief them on the details of the status of progress in order to point out the types of difficulties which need to be overcome.

4. For details of scheduling please contact Dr. R. A. Leibler, NSA-34 (60572).

Luncheon - Wed 19th
at Cafeteria -
