Approved for Release by NSA on 02-12-2014 pursuant to E.O. 13526

1 December 1952

Mrs. F. K. Feed  
Institute for Numerical Analysis  
National Bureau of Standards  
405 Hilgard Avenue  
Los Angeles 24, California

Dear Mrs. Feed:

This letter will answer the clearance questions raised by Dr. Tompkins in his letter to me of 21 November. You have a copy, I believe.

I have consulted with Col. E. H. Wyman, security officer at the sponsoring agency, to make sure that this reply will be accurate. Col. Wyman expressed willingness and desire to discuss any outstanding questions by telephone and said you might call him collect at Liberty 5-6700, Ext. 60-261.

Of immediate importance is the clearance of one secretary and one multilith operator. For the particular interest of the sponsoring agency, the clearance of these two individuals must meet selection standards and investigative requirements of para XIX of Secretary of Defense Memorandum of 14 June 1950, as amended 5 June 1952. A clear statement of the criteria of this memorandum may be found in the Army CONFIDENTIAL SR 380-160-10.

The Department of Commerce clearance will be sufficient for the SWAC coder and supervisor mentioned in the second paragraph of Dr. Tompkins letter.

I am enclosing personal history forms and blank fingerprint charts in duplicate for the secretary and multilith operator. It would be desirable to have them completed and forwarded to the Director, National Security Agency, Attention: Chief, Security Control Division, 3801 Nebraska Avenue, N. W., Washington 16, D. C. Since these are personal records they are to be classified confidential and so prepared for mailing; it is requested that the inner envelope be marked, "To be opened only by the Chief, Security Control Division".

For other clearances which may be required in the course of INA proceedings, wherever items of particular interest to the

Mrs. F. K. Feed

1 December 1952

sponsoring agency are to be discussed, individuals concerned must have clearances of the same type as the two requested herewith. In such cases, it would be highly desirable if the completed personal history statements and fingerprint forms were forwarded to Washington for screening prior to your initiation of any investigation. Such action should be initiated at once because of the known delays which often attend the completion of an investigation.

I appreciate your valuable cooperation of last summer as well as your present cooperation on these clearance questions. Please do not hesitate to let Col. Wyman or myself know of any matters that require further clarification. In the meantime, Col. Wyman will contact the security officer of the Department of Commerce and inform him of the circumstances of this correspondence.

Sincerely yours,

Stewart J. Cairns.
