COMMENT NO 1

Capt. Schestopol/6082/jmr

1. On 15 December, PERS conducted a conference to determine the various categories into which our specialties could be broken down. The purpose of this breakdown is ultimately to provide lists of people (GS-10 and above) who could be cross-detailed to replace casualties in event of emergency.

2. Enclosed are the preliminary categories upon which agreement was reached. Only those titles designated by Roman Numerals will become lists. All other titles cover groups of two or more categories. We would like you to discuss these categories with your associates and make any recommendations you think proper for additions, changes, or deletions.

3. If possible, we would like to have your comments by 15 January 1954.
