26 OCT 1954

~~CONFIDENTIAL~~**SUBJECT:** Request for Research and Development Information**TO:** Commander
U. S. Air Force Security Service
San Antonio, Texas**References:** (a) USAFSS Ltr, OPD, subj as above, 23 Sep 54(b) NSA Ltr, Serial 00454, subj: Long Range Requirements,
13 Jul 54

1. In accordance with reference (b), this Agency will continue to furnish reports to your Headquarters on NSA research and development projects as these reports become available. However, with respect to your request for publications and minutes of RADAC, it is considered that your requirement for this type of information is currently being met thru USAFSS representation on pertinent supporting committees of RADAC, whereby the minutes and agenda are distributed to your representatives. In instances wherein information produced by RADAC pertaining to matters of your interest has not been furnished your representatives on committees of RADAC, this information will be forwarded to you as it becomes available.

2. Currently NSA progress reports pertaining to communications security research and development are being forwarded to your Headquarters, Attention: SDC; progress reports pertaining to research and development on intercept and related COMINT projects are currently addressed with symbols OOD/OOE or ODC/OOZ. Superseding address instructions are currently anticipated for the latter category.

3. Additional copies of publications or reports referred to in reference (a) will be furnished upon receipt of specific information concerning identity, number of copies required, address symbol, etc., as they become available.

1/19/55 (Mr. Friedman)

~~CONFIDENTIAL~~

M/R: USAFSS letter of 11 June 1954, subj: "Long Range Requirements" set forth certain plans and the requirements of USAFSS in connection therewith. Paragraph 7 also requested NSA concurrence in certain specific proposals involving, among other things, the forwarding of NSA R&D project reports to USAFSS. By letter serial 00454 dtd 13 Jul 54, USAFSS was apprised of the Director's concurrence with the proposals of paragraph 7. USAFSS letter of 23 Sep 54, subj: "Request for Research and Development Information" requested the forwarding of research and development project reports and publications and minutes of meetings of RADAC. Instant correspondence in reply thereto advises the addresses (at USAFSS) to which reports are currently being forwarded and further states that requirements for publications generated in RADAC are satisfied from this Agency's point of view by existing arrangements. Availability to USAFSS of additional NSA COMINT R&D project reports not currently being forwarded them is contingent upon determination of need to know.

Warren H. Turner, Jr., R/D, jth, 19 Oct 54
