ULTRA

My telegram of 29th August

- A. German Army Y Service reported on 20th October that a cipher message of 11th September, read with delay confirmed that operations in South Italy were being conducted by 15th Army Group. The message which was addressed to 15 Army Group, 6th Corps and 10th Corps from 5th Army concerned the sanctioning of frequencies for signals communication between these formations and also the allotting of call signs.
- B. No further details given. Note time lag between interception and reading about 39 days.
- C. Matter has been referred to Chief Signals Officer 15th Army Group who reports unable to trace message in question. Now taking up with Nichols and Hayes.
