#978 (Parts 1 and 2)

1. We have received your three dispatches of strips, but we are very anxious also to get the Daily Key table (date of dispatch and numbers for assembling the strips) and the Numerical Keys (number chart for assembling the strips.)

2. The 3rd paragraph of your 33 (Use is limited to the Minister to Finland and to the Special secret agents.) is not clear. Please send it again.

note by VC Auresl: This msg was in badly garbled condition and above translation was arrived at after referring to previous msgs. on same subject. The first line appears to mean that the strips themselves had been received.
